EIS REGISTER

Environmental Impact Statements listed herein are available for review at the following public depositories: Office of Environmental Quality Control; DPED Library; Legislative Reference Bureau; Sinclair Library; State Main Library; and the Kaimuki, Kaneohe, Pearl City, Hilo, Wailuku, and Lihue Regional Libraries. Statements are also available at State Branch Libraries that are in proximity to the site of a proposed action (indicated with project description).

Due to limited request, Negative Declarations are available only at this Office.

DETERMINATIONS

I. NEGATIVE DECLARATIONS, APPLICANT ACTIONS

proposed action--applicant/approving agency	*project description*
1. Stairway--Herbert Chock/Dept. of Land Utilization, City & County	Applicant proposed to construct a low profile stairway on his residential shoreline property, located at 46-047 Lilipuna Rd., Kaneohe. The structure will be approx. 110 ft. in length with a 2 1/2-ft. walkway area and will extend into the 40-ft. shoreline setback area.
2. Marine Dealer Facility, Honokahau Boat Harbor, Kailua-Kona, Hawaii--Standard Oil Company of California/Dept. of Transportation	Proposed facility consists of two 12,000 gallon gasoline storage tanks, fueling equipment, and an office building. The facility will occupy an approx. 4,200 sq. ft. parcel adjacent to the launching ramp.

II. NEGATIVE DECLARATIONS, AGENCY ACTIONS

proposed action-proposing agency	*project description*
1. Water and Related Land Resources Planning, State of Hawaii--Dept. of Land & Natural Resources	DLNR proposes to apply, under Title III of the Water Resources Planning Act, for $150,000 in federal assistance toward the development and administration of comprehensive water and related land resources plans for the State. Federal assistance will be on a 50% matching basis.

2. Kilauea to Kalihiwai Transmission Main--Dept. of Water, Kauai County

Approx. 5,720 ft. of transmission main are proposed for installation along Kuhio Hwy. to link the Kalihiwai Water System, which has yielded reduced amounts of water in recent years, to the proposed Kilauea Water System.

3. Pump, Electrical Controls, and Piping for Existing Well at Old Lihue Grammar School--Dept. of Water, Kauai County

A pump is proposed for installation at the subject exploratory well to supply an additional 200,000 gal./day to the Lihue Water System. The well will be connected to the pipeline running along Haleko Rd.

4. 30-Inch Main Along Fort Weaver Road From Farrington Highway to Renton Road, Ewa, Oahu--Board of Water Supply, City & County

The subject main and its future extension to the Ewa Beach area will parallel an existing 16" main and connect to other existing mains to provide adequate transmission capacity (4-16 million gal./day) for Honouliuli and Ewa Beach areas, including the proposed Ewa Village and Grant Co. developments.

5. Maunawili District Trunk Sewer, Section 1--Dept. of Public Works, City & County

Proposed project will eliminate the need for 2 temporary sewage treatment plants--the Maunawili Park STP and the Maunawili Estate STP--that discharge into Maunawili Stream. Upon completion of this project, sewage from the Maunawili area will be conveyed to the regional Kailua STP for treatment and disposal through the Mokapu Ocean Outfall. The trunk sewer for this system will start in the vicinity of the Kukanono STP, run southeast along the south edge of Kawainui Swamp, cross under Maunawili Stream and Kalaniana'ole Hwy., and branch into the Maunawili Park STP.

6. Improvement of the Makai-Ewa Corner of Ala Wai Boulevard and Walina Street--Dept. of Public Works, City & County

Approx. 270 linear ft. of street improvements are proposed for the subject corner, including construction of curbs, gutter, sidewalks, driveway aprons, asphaltic concrete pavement, tree wells, and adjustments to the drainage and water systems.

7. Papaikou, Honomu, and Pepeekeo Solid Waste Transfer Stations--Dept. of Public Works, Hawaii County

The subject transfer stations are proposed for construction on lands that are being acquired from Maunakea Sugar Co. These stations are planned primarily for use by the general public to dispose of household wastes. Each station will occupy approx. 1 acre and will consist of an enclosed metal chute through which refuse will be dumped into a 70-75 cubic yard self-sealing compactor. Compacted refuse will be disposed of at the Hilo landfill.

8. North Kona Water Project (Hualalai Pipeline)--Dept. of Water Supply, Hawaii County

Proposed project will draw on water from Kahaluu Wells to improve service to the Hualalai Rd. and Hillcrest Subdivision areas. Project will involve installation of approx. 18,200 ft. of 8" pipeline along Hualalai Rd., which will tie in to the existing 8" line along Kamalahoa Hwy. near the Kaumalumalu pump station. Two concrete reservoirs and two pressure reducing stations will be installed along this line.

9. Kahei Far Lot Subdivision, (Kohala Agricultural Park), North Kohala, Hawaii--Dept. of Land & Natural Resources

In partial fulfillment of a need recognized by the Kohala Task Force to set aside lands for farming by interested individuals, a 9-lot farm subdivision of approx. 20 acres each is planned on former cane land that is bounded on the east and south by Kahei Homesteads Rd. and Kohala Ditch. A paved access road, irrigation water lines, utilities, and drainage ditches will be provided.

10. Konawaena Educational Cluster Land Acquisition--Dept. of Accounting & General Services

Proposed project involves the acquisition of 3 separate parcels of private land totaling approx. 6 acres for addition to the Konawaena Educational Cluster, as follows: 3.5 acres to provide a playfield for the elementary school; 1.5 acres to expand the high school athletic field; and 1 acre to construct a by-pass roadway that will eliminate a hazardous traffic condition through the school.

ENVIRONMENTAL IMPACT STATEMENTS

I. ENVIRONMENTAL IMPACT STATEMENTS, APPLICANT ACTIONS

title-applicant	*approving agency*	*project description*	*status*
1. Motorcycle Park, Kahakuloa, Maui--Maui Motorcycle Association	Dept. of Land & Natural Resources	A motorcycle park is proposed for development on approx. 200 acres within the Hononana Management Unit. Project site fronts on Kahekili Hwy. between Hononana and Awalau Gulches and extends mauka to the forest reserve boundary. Various riding trails will be provided, along with a parking area, comfort station, and an access and 6 lateral roads. (Also available at the Kahului and Makawao Branch Libraries.)	Deadline for comments: May 27
2. Seibu Makena Master Plan--Seibu Real Estate Co., Ltd.	Maui Planning Commission	Previously reported in EIS Newsletter. (Also available at the Kahului and Lahaina Branch Libraries.)	Deadline for comments: May 2
3. Excavation & Quarrying Operation at Honokahau 2nd, North Kona District--J.H. Tanaka	Board of Land & Natural Resources	Previously reported in EIS Newsletter. (Also available at the Holualoa, Kailua-Kona, and Kealekekua Branch Libraries.)	Public review period over, EIS under evaluation by BLNR

II. ENVIRONMENTAL IMPACT STATEMENTS, AGENCY ACTIONS

Draft EIS's

title-proposing agency	*project description*	*Deadline for Comments*
1. Ka-Loko, Hono-ko-hau National Cultural Park--U.S. Dept. of the Interior	Previously reported in EIS Newsletter. (Also available at the Dept. of the Interior, 521-3027.)	May 1
2. Russian Fort State Park--Dept. of Land & Natural Resources	Previously reported in EIS Newsletter. (Also available at the Hanapepe and Waimea Branch Libraries.)	May 5
3. Lilipuna Road-Ka Hanahou Circle Relief Drain--Dept. of Public Works, City & County	Previously reported in EIS Newsletter. (Also available at the Kailua Branch Library.)	May 12

4. Kulaimano Sewage Disposal System--Dept. of Public Works, Hawaii County	Proposed project involves the development of a sewage collection, treatment, and disposal system to serve C. Brewer & Co.'s proposed Kulaimano Hts. development and portions of the adjoining Kulaimano Homestead. The sewage treatment plant is sized for 0.5 mgd, expandable to 0.8 mgd if necessary. Present method of sewage disposal is by discharge of untreated wastewater into streams; under proposed system, chlorinated effluent will be discharged into the surf zone north of Waimaauou Stream, and dewatered, aerobically digested solids will be hauled to a sanitary landfill. (Also available at the Laupahoehoe and Pahoa Branch Libraries.)	May 16
5. Special Education Center of Oahu, New School--Dept. of Land & Natural Resources	DLNR proposes to lease a 4.3 acre parcel in the Ft. Ruger area jointly to the Special Education center of Oahu and the Variety Club School for development of 2 schools for handicapped children. The site is identified as TMK: 3-1-42:18 and is designated urban on the Land Use District Boundary Map and zoned R-6. The site is adjacent to the Hawaii Association for Retarded Children School, and the 3 schools together will constitute an educational complex for handicapped children. The SECO school will include 3 1-story classroom buildings and will serve 120 students; the VCS will include 6 classrooms and an administrative center. (Also available at the McCully-Moiliili and Waikiki-Kapahulu Branch Libraries.)	May 19
6. Variety Club School, Honolulu, Hawaii--Dept. of Accounting & General Services	Proposed project involves the construction of new facilities for the Variety Club School to serve 70 children with learning disabilities. The VCS will occupy 1.7 acres of the above-mentioned 4.29-acre parcel that is being leased jointly with the Special Education Center of Oahu. Allowance has been made for the United	May 30

	Cerebral Palsy Association to also use the parcel. (Also available at the McCully-Moiliili and Waikiki-Kapahulu Branch Libraries.)	
7. Haleakala Highway, Pukalani Section--U.S. and State of Hawaii Departments of Transportation	Proposed project consists of improving a 3-mile section of Haleakala Hwy. between Haliimaile Rd. and FAS 377, extending recent improvements to the highway that were constructed between Kana Hwy. and Haliimaile Rd. It is likely that improvements will eventually extend to Kihei-Ulupalakua. Subject project will improve road design and increase capacity by providing a truck lane, 12-ft. lane widths, 10-ft. shoulders, drainage, reflectorized markers, guideposts, guardrails, access controls, and greater sight distances. Other design features and the highway alignment will be selected following public hearings, to be held on June 12, 7:30 p.m., Makawao School Cafetorium.	June 26

Final EIS's

title-proposing agency	*project description*	*status*
1. Waipahu Uka Elementary School--Dept. of Accounting & General Services	Previously reported in EIS Newsletter. (Also available at the Waipahu and Wahiawa Branch Libraries.)	Currently being processed by this Office.
2. Waianae Valley Road Homestead Subdivision--Dept. of Hawaiian Home Lands	Previously reported in EIS Newsletter. (To be distributed.)	Currently being processed by this Office.
3. Construction of a Roadway Entrance to Leeward Community College, Waipio & Waiawa, Ewa, Oahu--Dept. of Accounting & General Services	Previously reported in EIS Newsletter. (Also available at Aiea, Ewa Beach, and Waipahu Branch Libraries.)	Currently being processed by this Office.

4. Fire and Police Joint Training Facility--Building Dept., City & County	Previously reported in EIS Newsletter.	Recommended by this Office for Governor's acceptance, April 23
5. State Judiciary Complex Site Selection--Dept. of Accounting & General Services	Previously reported in EIS Newsletter.	Accepted by Governor Ariyoshi.

EIS REGISTER

Environmental Impact Statements listed herein are available for review at the following public depositories: Office of Environmental Quality Control; DPED Library; Legislative Reference Bureau; Sinclair Library; State Main Library; and the Kaimuki, Kaneohe, Pearl City, Hilo, Wailuku, and Lihue Regional Libraries. Statements are also available at State Branch Libraries that are in proximity to the site of a proposed action (indicated with project description).

Due to limited request, Negative Declarations are available only at this Office.

DETERMINATIONS

I. NEGATIVE DECLARATIONS, APPLICANT ACTIONS

proposed action--applicant/approving agency	*project description*
1. Baseyard Facility, Ke-ahole Airport, Kailua, Kona, Hawaii--Robert's Lehua Tours, Inc. and Robert's Hawaii U-Drive/ Dept. of Transportation	A 1-story building of 1,800 sq. ft. will be constructed on a 43,590 sq. ft.-lot at the Ke-ahole Airport baseyard subdivision. The entire area surrounding the building will be paved and the perimeter of the lot will be fenced.

II. NEGATIVE DECLARATIONS, AGENCY ACTIONS

proposed action-proposing agency	*project description*
1. Statewide Fence Construction and Maintenance within Forest Reservations on State Lands in Hawaii--Dept. of Land & Natural Resources	Subject project is proposed to protect the State's Forest Reserves, zoned Conservation by the Land Use Commission, from private cattle on adjacent ranch properties and from feral animals, including sheep, goats, and pigs. Project area includes all of the 808,480 acres of State lands that are in Forest Reserves. Generally, fence construction will be on the boundary between forest reserve and pasture. Non-boundary fencing will also be instituted, however, to protect native plant species.

2. Planning Grant Application--Fiscal Year 1976--State Law Enforcement and Juvenile Delinquency Planning Agency	Subject agency has applied to the federal Law Enforcement Assistance Administration for a $481,000 grant to assist in comprehensive law enforcement planning for the State.
3. Hawaii State Correctional Master Plan: Phases I, II, and III Oahu Intake Service Center/Community Correctional Centers (ISC/CCCs)--State Law Enforcement and Juvenile Delinquency Planning Agency	Previously, plans for Phases I and II were submitted and deemed acceptable in our November 1, 1974 newsletter. The proposed ISC/CCCs will be located at the site of the Hawaii State Prison in Honolulu where approximately 125,522 sq. ft. of building space will be constructed on the intended seven acres for all phases of the Master Plan. This project would establish a more positive security perimeter that increases internal freedom of movements for the residents.
4. Hawaii State Correctional Master Plan: Oahu High Security Facility--State Law Enforcement and Juvenile Delinquency Planning Agency	The existing Halawa Jail will be converted to a high security facility which is approximately 58,583 sq. ft. and includes the present jail, facility support space, and three additional residential modules. The proposed project will occupy 1.34 acres which can easily be accomodated by the 20-acre site located about seven miles northwest of Halawa Valley.
5. Kalihi Baseyard, 2nd Increment--Board of Water Supply, City and County	Proposed project involves the addition of 2 facilities to BWS's Kalihi Baseyard, located at the end of Kini Pl.: a 6,250-sq. ft. maintenance building and a vehicle wash and fuel station.
6. Kalihi-Palama Immigrant Service Center--Office of Human Resources, City and County	The information and referral services of the subject center, which assists immigrants in adjusting economically and socially to Hawaii, will be expanded, using $364,000 in State and federal funding.

7. Operation Kokua Day Care Center--Office of Human Resources, City & County	Child care services of the subject center, which is located in Nanakuli and serves working, resident mothers from low-income families, will be expanded, using $74,470 in State and federal funding.
8. Subdivisions, Nanakuli Residence Lots--Dept. of Hawaiian Home Lands	DHHL proposes to consolidate and resubdivide lots at TMK 8-9-02:44 and 105 and at TMK 8-9-04: 15 & 16 and to subdivide each of the following 1 residential lots into 2 residential lots: TMK's: 8-9-02:13; 8-9-03:54, 8-9-04:3, 4, &112; 8-9-05:20, 21, & 71; 8-9-06:51; and 8-9-09:24. All of these lots are located in Nanakuli.
9. Kamaile Wells--Board of Water Supply, City & County	Two wells will be drilled mauka of Kaulawaha Rd. in Makaha (TMK: 8-5-02:23) and tested singly for draft at the rate of 0.5 mgd. A future phase of the project will provide a paved road to the well site, a control building, a pipeline between the wells and the existing water system, and landscaping of the cut and fill embankments.
10. Kahekili Highway Bike Lane--Dept. of Public Works, City & County	Proposed bike lane will be constructed along Kahekili Hwy. from Keaahala Rd. to Haiku Rd. a distance of 2,900 lineal ft. An asphalt concrete pavement and shoulder improvements will be provided.
11. Subdivision of Puaae Rd., Kaneohe--Dept. of Finance, City & County	Proposed action involves the subdivision of the abandoned section of Puaae Rd. (TMK: 4-5-84). A 3,282 sq. ft. portion of the section will then be sold to the owner of the adjoining property, who will consolidate the 2 properties and build a single-family dwelling on the site.
12. School of Nursing Building, University of Hawaii, Manoa Campus--University of Hawaii	Project is proposed to provide specialized facilities and increased space and to consolidate nursing programs, which are currently scattered throughout the Manoa campus. Proposed building

consist of 2 and 3 story wings covering 31,000 sq. ft. of ground. Project site is adjacent to the biomed building.

13. Kalepa Ridge Trail--Dept. of Land & Natural Resources

Proposed project involves the construction of a 2 mile long, 3-ft. wide trail in the Waialeale Forest Management Area of Kauai.

14. Kawaikoi Stream Trail--Dept. of Land & Natural Resources

Proposed project involves an extension of the subject trail, located in the Waimea Canyon-Alakai Forest Management Area of Kauai. The 3-ft. wide trail extension will be constructed in 2 sections: a 1 mile loop at the end of the present trail and a .5 mile section from Camp 10 road to the Pihea Trail.

15. MALS/RAIL System, Runway 02, Kahului Airport--Dept. of Transportation

A Medium Intensity Approach Light System with Runway Alignment Indicator Lights will be installed in accordance with a Federal Aviation Administration policy of providing pilots with a reference for transition from instrument flight to visual flight and landing. The system consists of a configuration of steady burning and flashing lights disposed about the runway center line from the landing threshold to the approach zone of the airport. The steady burning lights will have an intensity of 150 watts, the flashing lights will be rated at 15,000 effective candelas intensity.

16. Hapuna Beach State Park, Park Development, Phase II--Dept. of Land & Natural Resources

Proposed for development within the existing park are a group pavilion; 8 picnic shelters, a comfort station; a parking lot; a sprinkler system; and landscaping of 10 acres.

17. Observatory Building, University of Hawaii at Hilo--University of Hawaii

Proposed project consists of constructing an observatory for use by students enrolled in an introductory astronomy course. The structure will be 14'-3" high and will cover 168 sq. ft.

of ground. Project site is adjacent to the Cloud Physics Observatory buildings.

ENVIRONMENTAL IMPACT STATEMENTS

I. ENVIRONMENTAL IMPACT STATEMENTS, APPLICANT ACTIONS

title-applicant	*approving agency*	*project description*	*status*
1. Motorcycle Park, Kahakuloa, Maui--Maui Motorcycle Association	Dept. of Land & Natural Resources	Previously reported in EIS Newsletter. (Also available at the Kahului and Makawao Branch Libraries.)	Deadline for comments: May 27
2. Seibu Makena Master Plan--Seibu Real Estate Co., Ltd.	Maui Planning Commission	Previously reported in EIS Newsletter. (Also available at the Kahului and Lahaina Branch Libraries.)	Public review period over: EIS under evaluation by Maui Planning Commission
3. Excavation & Quarrying Operation at Honokahau 2nd, North Kona District--J. H. Tanaka	Board of Land & Natural Resources	Previously reported in EIS Newsletter. (Also available at the Holualoa, Kailua-Kona, and Kealekekua Branch Libraries.)	Public review period over: applicant has requested extension of BLNR evaluation period until June 2.

II. ENVIRONMENTAL IMPACT STATEMENTS, AGENCY ACTIONS

Draft EIS's

title-proposing agency	*project description*	*Deadline for Comments*
1. Kulaimano Sewage Disposal System--Dept. of Public Works, Hawaii County	Previously reported in EIS Newsletter. (Also available at the Laupahoehoe and Pahoa Branch Libraries.)	May 16
2. Special Education Center of Oahu, New School--Dept. of Land & Natural Resources	Previously reported in EIS Newsletter. (Also available at the McCully-Moiliili and Waikiki Kapahulu Branch Libraries.)	May 19

3. Variety Club School, Honolulu, Hawaii--Dept. of Accounting & General Services	Previously reported in EIS Newsletter. (Also available at the McCully-Moiliili and Waikiki-Kapahulu Branch Libraries.)	May 30
4. Hanamaulu Sewer Extension, Lihue, Kauai--County of Kauai	Proposed project involves the construction of an interceptor sewer extension to convey wastewater from the Hanamaulu and Kapaia service areas to the Lihue STP. The extension will include 4,400 lineal ft. of gravity trunk sewers, 7,000 lineal ft. of force main, and 2 sewage pump stations. (Also available at the Hanapepe, Kapaa, and Waimea Branch Libraries.)	May 30
5. Permit Actions in the Hawaii Kai Marina, Oahu--Dept. of the Army	Permits from the Dept. of the Army have been requested by Kaiser-Aetna to perform maintenance dredging in Hawaii Kai Marina and by individual residents to construct private boat docks in the marina. Kaiser-Aetna's dredging activities will remove certain shoals in the marina by bucket or suction dredging. The dredged spoil will be dried in ponds and used as embankment material within the Hawaii Kai development. This permit request is to cover a period of 10 years subject to periodic review by the U.S. Army Corps of Engineers. Construction of boat docks by individual marina property owners is controlled by architectural standards established by Kaiser-Aetna and Bishop Estate. These permit requests will be received intermittently and will be evaluated by the COE on an individual basis. (Also available at the Aina Haina and Hawaii Kai Branch Libraries.)	June 5
6. Drainage Channel Improvements, Koolaupoko, Oahu--Dept. of Hawaiian Home Lands	Proposed project will improve the drainage channel serving DHHL's Waimanalo Residence Lots to comply with City/County channel design and capacity standards. The project	June 9

will be completed in 3 increments: (1) construction of a bridge or box culvert at the Kalanianaole Hwy. crossing and channel construction to Huli St., (2) construction of Huli St. culvert and channel construction to Nakini St. extension; (3) construction of channel from Nakini St. Extension to the boulder and debris basin.
(Also available at the Kailua Branch Library.)

7. New Ala Moana Sewage Force Main--Dept. of Public Works City & County

The proposed 9100-ft. force main will consist of 66-inch and 78-inch reinforced concrete pipes from the existing Ala Moana Sewage Pump Station to the proposed Sand Island STP. The service area covers major portions of Honolulu. The magnitudes of the design flows are predicted to be 68 MGD and 130 MGD for the design average flow and design peak flow, respectively. June 16
(Also available at the McCully-Moiliili and Waikiki-Kapahulu Branch Libraries.)

8. Volcano Road, Slaughter House Road to Project No. F-011-2(2)--Dept. of Transportation

This highway project proposes to upgrade approximately two miles of an existing two-way highway to a four-lane divided facility with partial access control in the vicinity of the village of Keaau, district of Puna, island of Hawaii. The proposed project will correct a potentially hazardous condition which now exists for residential properties remedy a bottleneck situation; and eliminate an existing 8 degree curve on a vertical crest. Four alternates were developed for consideration in the highway design study. The recommended alternate No. 3 will total $1,451,000.00. (Project design is scheduled from 1974 to 1976; right-of-way acquisition in 1975; and construction in 1976.) June 16
(Also available at Laupahoehoe and Pahoa Branch Libraries.)

9. Haleakala Highway, Pukalani Section--U.S. and State of Hawaii Depts. of Transportation	Previously reported in EIS Newsletter. (Public hearing on project: June 12, 7:30 p.m., Makawao School Cafetorium.)	June 26

F Final EIS's

title-proposing agency	*project description*	*status*
1. Waipahu Uka Elementary School--Dept. of Accounting & General Services	Previously reported in EIS Newsletter. (Also available at the Waipahu and Wahiawa Branch Libraries.)	Currently being processed by this Office.
2. Construction of a Roadway Entrance to Leeward Community College, Waipio & Waiawa, Ewa, Oahu--Dept. of Accounting & General Services	Previously reported in EIS Newsletter. (Also available at Aiea, Ewa Beach, and Waipahu Branch Libraries.)	Currently being processed by this Office.
3. Kahaluu Watershed--U.S. Dept. of Agriculture	Project has been proposed to provide watershed protection, flood control, and recreational facilities in the Kahaluu Watershed. Project measures include: enlarging and channelizing the lower reaches of Waihee, Kahaluu, and Ahuimanu Streams for a combined length of 11,850 ft.; constructing a debris basin at the upper end of the enlarged sections of Kahaluu and Waihee Streams and constructing a 28-acre, multipurpose lagoon where the streams conjoin before discharging into Kaneohe Bay. In addition, the City & County will construct a recreational park around the lagoon.	Currently being processed by OEQC
4. Fire and Police Joint Training Facility--Building Dept., City & County	Previously reported in EIS Newsletter.	Recommended by OEQC for Governor's acceptance, April 23
5. Waianae Valley Road Homestead Subdivision--Dept. of Hawaiian Home Lands	Previously reported in EIS Newsletter.	Recommended by OEQC for Gov's. acceptance, April 10

6. Weliweli Subdivision--Hawaii Housing Authority and County of Kauai	Proposed project involves a joint venture between Kauai County, the HHA, and Kauai Builders, Ltd. to provide moderate cost residential units ($41,700/unit incl. land) in Weliweli. Project site is a 3.5 acre parcel of State land identified as TMK: 2-8-23: 22-29 & 31-36. Fourteen 3 bedroom, 1 1/2 bath, 1 story units will be constructed on lots ranging in size from 9,360 to 11,956 sq. ft. (Also available at the Hanapepe, Kapaa, and Waimea Branch Libraries.)	Recommended by OEQC for Gov's. acceptance, May 8
7. Drag Strip, Panaewa, South Hilo, Hawaii--Dept. of Parks and Recreation, Hawaii County	Proposed project consists of developing a drag racing facility on a vacant 135 acre parcel in Panaewa (TMK: 2-1-13:2). The facility will include a .75 mile drag strip with return road, an auto shop, a 4,000 seat spectator area, a concession, and forest buffer zones. Project is intended to satisfy public interest in drag racing and to curb illegal racing on public streets; facility will also be used for other purposes, including driver training and testing. (Also available at the Laupahoehoe and Pahoa Branch Libraries.)	Recommended by OEQC for Gov's. acceptance, May 14
8. Kulamanu Street Relief Drain--Dept. of Public Works, City & County	Proposed flood control project is located in the Diamond Head-Kahala district of Honolulu, starting from the Kahala Ave.-Kulamanu St. intersection and proceeding for 1200 ft. along Kulamanu St. and Pl. to the ocean. Project consists of installing catch basins, drain manholes, and pipes ranging from 36" to 42" in diameter. These improvements will increase the capacity of the area's drainage system from 110 cfs to 160 cfs. (Also available at the Waikiki-Kapahulu Branch Library.)	Accepted by Dept. of General Planning, Mayor Fasi's delegate, on May 5.

9. Military Family Housing Project, Aliamanu Military Reservation, Oahu--Dept. of the Army	Proposed project consists of constructing 2,600 military family housing units on a 524 acre site within Aliamanu Crater. The development will house 10,868 persons and will inclule schools, parks, a town center for shops, and a fire station. (Available only at this Office.)	Filed in compliance w/NEPA, only, no State or County acceptance necessary
