No. 23

REGISTER OF CHAPTER 343, HRS DOCUMENTS

EIS PREPARATION NOTICES

The following proposed actions have been determined to require environmental impact statements. Anyone can be consulted in the preparation of the EIS's by writing to the listed contacts. 30 days are allowed for requests to be a consulted party.

METER, MILLIMETER WAVE TELESCOPE PROJECT, MAUNA KEA, HAWAII, National Science Foundation

Previously reported on November 23, 1980.

Correction: Previously published under NEPA Document, should have been under EIS Preparation Notice.

The proposed project envisions the installation of a 25 meter diameter steerable radio telescope in an astrodome to be located at the Mauna Kea, Hawaii, Science Reserve. The proposed telescope site is 3,000 ft. west northwest of the Mauna Kea summit and at an elevation of 13,400 ft. some 400 ft. below the summit. The design of the telescope is such that it would take advantage of radio reception in the millimeter-wavelength region of electromagnetic spectrum. Installation is planned during the early to mid 1980's, with scientific observational use following completion of the telescope.

Contact: Mr. Lawrence K. Randall
Project Director
NRAO, Division of Astronomical Sciences
National Science Foundation

1800 "G" Street, NW
Washington, D.C. 20550
Telephone: (202) 632-7880

Deadline: December 23, 1980.

CONSERVATION DISTRICT USE APPLICATION FOR CONSOLIDATION AND RESUBDIVISION USE AT KAPOHO, LAEPAOO, PUNA, HAWAII, Mr. Arthur Lyman, Kapoho Land & Development Co., Ltd./Dept. of Land & Natural Resources

The proposed action is the consolidation and resubdivision use of private property identified as TMK:1-4-02:16, at Kapoho, Laepaoo, Puna, Hawaii. The other parcel has not been identified at this time. DLNR states that the proposed consolidation and resubdivision use is a conditional use of the Limited and General Subzones of the Conservation District according to DLNR Regulation No. 4, as amended.

Contact: Mr. Arthur Lyman
Kapoho Land & Development Co., Ltd.
P.O. Box 371
Hilo, Hawaii 96720

Deadline: January 7, 1981.

NEGATIVE DECLARATIONS

The following are Negative Declarations or determinations made by proposing or approving agencies that certain proposed actions will not have significant effects on the environment and therefore do not require EIS's (EIS Reg. 1:4p). Publication in the Bulletin of a Negative Declaration initiates a 60-day period during which litigation measures

may be instituted. Copies are available upon request to the Commission. Written comments should be submitted to the agency responsible for the determination (indicated in project title). The Commission would appreciate a copy of your comments.

KAUAI

CONSERVATION DISTRICT USE APPLICATION FOR EXPLORATORY WELL DRILLING AND TESTING USE AT KAWAIHAU, KAUAI, HAWAII, Dept. of Land & Natural Resources

The proposed project will explore for groundwater source by drilling a well approx. 500 ft. on state land on the southern slope of the Moalepe-Keiwa Ridge of the Makaleha Mountains in Kapaa identified as TMK:4-6-01:01. To determine its safe yield, the well will be tested for its chloride content, pumping rate and drawdown. The well will be designed such that should the exploration for groundwater be successful, it can be readily converted into a production well. However, a separate CDUA will be submitted prior to actual production use. The project will also provide valuable geological and hydrological data of the groundwater aquifer from an area where little data exists.

CONSERVATION DISTRICT USE APPLICATION FOR HYDROELECTRIC GENERATING SYSTEM USE AT KAWAIHAU, KAUAI, John D. Harder, et al/ Dept. of Land & Natural Resources

The request is for a hydroelectric power generating system use of private property, identified as TMK:4-8-04:3 at Kawaihau, Kauai. The proposed project will encompass the construction and operation of a low head, run of the river hydroelectric system built on the Anahola Stream, Anahola, Kauai. The system itself will consist of a small riverrock diversion dam, a short millrace, a reinforced concrete power house (located entirely out of the stream bed), and a 12-volt battery storage system and inverter (located under the existing residence). The system will provide household power (approx. 300-500 kwh per month) for the use of the existing single family residence which is currently

dependent upon a gasoline-powered generator.

GENERAL PLAN AMENDMENT FROM PUBLIC TO MULTI-FAMILY RESIDENTIAL AND ZONING AMENDMENT FROM OPEN DISTRICT TO RESIDENTIAL DISTRICT, HANAMAULU, KAUAI, Hawaii Housing Authority

The applicant proposes to develop jointly with the County of Kauai a public housing project consisting of approx. 30 townhouse units under a condominium ownership. The specific design of the project will not be initiated until the General Plan and Zoning changes have been approved. The property is identified as TMK:3-7-03:por. 6 and contains an overall area of 2.015 acres. Being located in the vicinity of the Hanamaulu residential district and presently serving as the teachers cottage site, the existing utility infrastructure would be available to service this site.

OAHU

CONSERVATION DISTRICT USE APPLICATION FOR BEACH PARK SITE IMPROVEMENT USE AT HANAUMA BAY, MANUALUA, HONOLULU, OAHU, Dept. of Parks & Recreation, City & County of Honolulu

The proposed project consists of beach park site improvement use of the City and County property, identified as TMK:3-9-12:2, at Hanauma Bay, Maunaloa, Honolulu, Oahu. The project involves the use of three sub-zones of the Conservation District: Protective, Limited and General. The scope of the subject project includes: grassed picnic areas and ponding areas for impounding and filtering storm water runoff, enhancement of the existing scenic overlook areas, relocation of parking and separation of tour buses from automobiles, related park facilities and landscape improvements.

CONSERVATION DISTRICT USE APPLICATION FOR FLOATING BOAT DOCK USE AT HAWAII KAI MARINA, MAUNALUA, HONOLULU, OAHU, Norval P. Cavett/ Dept. of Land & Natural Resources

The request is for floating boat dock use of private property, identified as TMK:3-9-68:24, at Hawaii Kai Marina, Maunaloa, Oahu. The proposed floating dock will be 16 ft. long and 8 ft. wide. The request has been concurred by B.P. Bishop Estate/Kacor Realty, Inc.

CONSERVATION DISTRICT USE APPLICATION
FOR FLOATING BOAT DOCK USE AT KUAPA
POND, MAUNALUA, HONOLULU, OAHU, Quindo
Pinzari/Dept. of Land & Natural Resources

The application request is for a floating boat dock use of private property, identified as TMK:3-9-33:37 at Kuapa Pond, Maunaloa, Honolulu, Oahu. A 20 ft. 1 inch by 12 ft. boat float, including gangplank, is proposed to be constructed on the subject site. As the landowner of the subject property, B.P. Bishop Estates/Kacor Realty, Inc. has concurred with the subject request.

IMPROVING PARKING ZONES 3 AND 11 AT THE
UNIVERSITY OF HAWAII AT MANOA CAMPUS,
MANOA, OAHU, University of Hawaii

The proposed project consists of improving two existing parking lots on the University of Hawaii at Manoa campus. In addition to the lot improvements, the proposed project will involve the construction of new walkways in the vicinity of the project sites, plus a new driveway and loading zone/turnaround area for service vehicles at Porteus Hall. The purpose for these is to provide a smoother, cleaner and safer access to adjacent buildings and areas for both vehicles and pedestrians, especially the handicapped.

WAIALAE NUI EXPLORATORY WELL, WAIALAE
NUI VALLEY, HONOLULU, OAHU, Board of
Water Supply, City & County of Honolulu

The Board of Water Supply is proposing the construction of an exploratory water well in Waialae Nui Valley (TMK:3-5-23:Por. 1), at approx. the 300 ft. elevation. Waialae Nui Valley is situated mauka of the H-1 freeway, between Wilhelmina Rise and Waialae Nui Ridge. Bishop Estate owns the property upon which the exploratory well will be drilled. However, a consent of entry from the Estate's Trustees has been obtained. The proposed well will be constructed in two phases. During the first phase, an exploratory well will be drilled to determine the quantity and quality of the water resource that could be developed. Should the well

prove successful, the exploratory well would then be converted into a production well as part of the second phase. The proposed exploratory well will be 12 inches in diameter, approx. 330 ft. deep and cased approx. for the first 290 ft. It is estimated that the exploratory well will cost \$155,000.00 and produce 0.5 million gallons of water per day. An environmental impact statement will be prepared and circulated for public input should the exploratory well prove successful. In the event that the well is not successful, it may be sealed and the area restored to its preconstruction condition.

MAUI

CONSERVATION DISTRICT USE APPLICATION FOR
COMMERCIAL RESTAURANT USE AT LAHAINA,
MAUI, HAWAII, William T. Kinaka/Dept. of
Land and Natural Resources

The application is for commercial restaurant use of state-owned submerged land, makai of privately owned property TMK:4-5-01:2, at Lahaina, Maui. The applicant proposes to:

- 1) Reconstruct and repair an existing 1286 sq. ft. building now used as a clothing store and to be converted into a restaurant/sandwich shop;
- 2) Reconstruct 442 sq. ft. of existing deck area to be used as out-door eating area;
- 3) Extend repairs to next-door-store as needed in conjunction with the proposed action.

Further, the building and deck areas to be reconstructed are located entirely over water located in the Conservation District and owned by the State of Hawaii. They will be reconstructed following existing dimensions and using the existing concrete piers for support. It is contemplated that the existing piers will require minor repairs. The new building will be constructed entirely over the privately owned land, identified as TMK:4-5-01:2. The remaining open space of TMK:4-5-01:2, adjacent to Front Street, will be landscaped extensively and used for entrance walkways and outdoor eating decks.

CONSERVATION DISTRICT USE APPLICATION FOR
EXISTING AUWAI CHANNEL CLEANING AND REPAIR
USE AT KAHAKULOA, MAUI, Walter C. Witte, et al/
Dept. of Land and Natural Resources

The application is for the cleaning and

repair use of an existing auwai (ditch) channel on state-owned property, TMK: 3-1-06:1 at Kahakuloa, Maui. The auwai was damaged in the January 1980 storm. The activities proposed are the general cleaning and repair of the existing auwai channel. No activity is proposed within the Makamakaole Stream Bed itself. The purpose of these repairs is to : (1) Reduce the substantial water loss through breaks and seepage; (2) Insure uninterrupted flow of water to the ranches and homes along the auwai; (3) Facilitate easier access along the auwai for routine maintenance and inspection; and (4) Protect the auwai from a major failure caused by slides or future storms.

CONSERVATION DISTRICT USE APPLICATION FOR PERMANENT VOLLEYBALL COURT RECREATIONAL USE AT KANAPALI BEACH, LAHAINA, MAUI, Coleen Yoshida/Dept. of Land and Natural Resources

The proposed application is for permanent volleyball court recreational use, of state-owned property identified as TMK: 4-4-08, at Kaanapali Beach, Lahaina, Maui, Hawaii. The purpose of the subject project is to provide a beach volleyball court which meets the specification of the United States Volleyball Association. This specification requires a taut volleyball net, the top of which is 8 ft. above the surface sand. Additionally, the playing area is to be 30 ft. wide and 60 ft. in length. The facility will be open to the public for both residents and visitors alike.

CONSERVATION DISTRICT USE APPLICATION FOR RIGHT OF ENTRY AND UTILITY EASEMENT USE AT KAHAKULOA, WAILUKU, MAUI, Maui Electric Co., Ltd./Dept. of Land and Natural Resources

The request is for the right of entry and utility easement use of state-owned property, identified as TMK:3-1-02:11, at Kahakuloa, Wailuku, Maui. At the present time, the land is under a general lease to Mr. Davis Nobriga for grazing of cattle. The proposed utility line is to be constructed within an established route, which is an old Hawaiian Trail.

After the completion of the proposed construction, a metes and bounds survey description will be submitted to the Land Management Division of DLNR.

HAWAII

CONSERVATION DISTRICT USE APPLICATION FOR NATURE TRAIL CONSERVATION USE AT MANUKA, KAU, HAWAII, Natural Area Reserve System Commission

The request is for nature trail conservation use of state-owned property identified as TMK:9-1-01 at Manuka, Kau, Hawaii. The site was designated as the Manuka Natural Area Reserve by the Board of Land and Natural Resources on November 9, 1978. The proposed nature trail would begin and end at the 13 acre Manuka State Park in the form of a loop between the 1800 and 2700 ft. elevation. A shorter loop hike will be available by installing an intersecting trail inside the loop. The trail would be cut to an approx. width of 4 ft. to allow a treading path of at least 2 ft.

DATA COLLECTION STATIONS MAUNA KEA, HAMAKUA DISTRICT, COUNTY OF HAWAII, University of Hawaii

The project involves the survey of the summit area of Mauna Kea, Hamakua, Hawaii. Observations will be carried simultaneously at two sites. One of these will be at the top of the knoll about 600 ft. west of Puu Hau Oki (where the NASA Infrared Telescope is situated). The second site will be chosen from among several possible locations on the Mauna Kea shield north of the cinder cones. Depending upon the results obtained in the course of the program, it may be desirable to shift the second observing station from one of these sites to another. It is proposed that data collection be carried out for about three years. The observing stations will be among other stations in the United States that will be collecting climatological and astronomical data. Each observing station will use identical equipment and testing techniques. An observer will man the station at specified times to carry out the specific tasks. The present proposal is to have the stations operational during the second quarter of 1981.

ENVIRONMENTAL IMPACT STATEMENTS

EIS's listed in this section are available for review at the following public depositories: Environmental Quality Commission; Legislative Reference Bureau; Hamilton Library; State Main Library and the Kaimuki, Kaneohe, Pearl City, Hilo, Kahului, and Lihue Regional Libraries. Statements are also available at State Branch Libraries that are in proximity to the site of a proposed action (indicated by project description).

EIS AVAILABLE FOR COMMENT. *Comments on the following EIS's may be sent to: 1) the accepting authority; and 2) the proposing agency (indicated on the EIS routing slip). Please note the deadline date for submitting written comments on the EIS.*

PROPOSED KAPIOLANI COMMUNITY COLLEGE AT FORT RUGER MASTER PLAN, FORT RUGER, OAHU,
Dept. of Accounting and General Services

Previously reported on November 23, 1980.

This EIS is also available for review at the following library branches: Aina Haina Library; Manoa Library; McCully-Moiliili Library; and Waikiki-Kapahulu Library.

Deadline: December 23, 1980.

PROPOSED EWA MARINA COMMUNITY PROJECT, HONOULIULI, EWA BEACH, OAHU, M.S.M. & Associates/ Dept. of Land Utilization, City & County of Honolulu/Dept. of Land & Natural Resources

Previously reported on November 23, 1980.

This EIS is also available for review at the following library branches: Ewa Beach Community School Library and Waipahu Library.

Deadline: December 23, 1980.

EIS'S SUBMITTED FOR ACCEPTANCE. *The following EIS's have been submitted for acceptance and contain comments and responses made during the review and response period.*

HILO DISTRICT SEWERAGE SYSTEM, SOUTH HILO, HAWAII (REVISED), Dept. of Public Works, County of Hawaii

Previously reported on October 8, 1980. Revised EIS also available for inspection at the Keaau and Laupahoehoe Community-School Libraries.

Status: Accepted by Governor Ariyoshi on November 24, 1980.

HONOLULU PROGRAM OF WASTE ENERGY RECOVERY (HPOWER), (REVISED), Dept. of Public Works, City & County of Honolulu

Previously reported on November 8, 1980. The Revised EIS is also available at the Waipahu and Waianae Branch Libraries and also at the Ewa Beach Community-School Library.

Status: Accepted by the Dept. of Land Utilization, City and County of Honolulu on December 4, 1980

NEPA DOCUMENTS

The following documents have been prepared pursuant to the requirements of the National Environmental Policy Act of 1969. Contact the Office of Environmental Quality Control for more information at 548-6915.

PROPOSED MILILANI TOWN EXPANSION, WAIPIO, OAHU, Dept. of Housing and Urban Development

Preparation Notice

The proposed action is to develop 476 acres which is part of a 3,500 acre master plan for Mililani Town of which approx. 1,210 acres is already built or being developed. The project will provide approx. 2,900 housing units at densities from 5-20 units per acre on approx. 289 acres of land. Approx. 46 acres is proposed for business/commercial; 6 acres for a school and 135 acres is proposed for open space and recreational uses. The housing units will be developed for families having low and moderate incomes to those with above average incomes. It has been determined by the Honolulu Area Office of HUD that the proposed action is a major housing action and will have significant impact on the human environment in accordance with 24 CFR Part 50.

Major environmental issues currently perceived include the project's impact upon the Pearl Harbor aquifer, loss of prime agricultural land, change in water quality resulting from increased runoff, erosion/sedimentation and urban runoff; change in air quality; increase in vehicular traffic and higher ambient noise levels at the project site.

CONSTRUCTION OF A CAMP BUILDING AND LANAI
AT THE KOKOKAHI YWCA, KANEHOE, OAHU, Curtis
Miyamura/Dept. of Land Utilization, City
& County of Honolulu

Determination - Negative Declaration

The applicant proposes to construct a camp building, containing a kitchen, toilette facilities, sleeping quarters, storage space, and a lanai, on the 10.6 acre site of the Kokokahi YWCA. The entire site lies within the Special Management Area.

SUPPLEMENTAL EIS - WAIMEA FALLS PARK, WAIMEA,
WAIALUA, OAHU, Waimea Falls Park, Inc./Dept.
of Land Utilization, City & County of Honolulu

No. 24

REGISTER OF CHAPTER 343, HRS DOCUMENTS

EIS PREPARATION NOTICES

The following proposed action has been determined to require an environmental impact statement. Anyone can be consulted in the preparation of the EIS by writing to the listed contacts. 30 days are allowed for requests to be a consulted party.

CONSERVATION DISTRICT USE APPLICATION FOR CONSOLIDATION AND RESUBDIVISION USE AT KAPOHO, LAEPAOO, PUNA, HAWAII, Mr. Arthur Lyman, Kapoho Land & Development Co., Ltd./Dept. of Land & Natural Resources

Previously published on December 8, 1980.

Contact: Mr. Arthur Lyman
Kapoho Land & Development Co., Ltd.
P.O. Box 371
Hilo, Hawaii 96720

Deadline: January 7, 1981.

NEGATIVE DECLARATIONS

The following are Negative Declarations or determinations made by proposing or approving agencies that certain proposed actions will not have significant effects on the environment and therefore do not require EIS's (EIS Reg. 1:4p). Publication in the Bulletin of a Negative Declaration initiates a 60-day period during which litigation measures may be instituted. Copies are available upon request to the Commission. Written comments should be submitted to the agency responsible for the determination

(indicated in project title). The Commission would appreciate a copy of your comments.

KAUAI

AMEND THE KAUAI GENERAL PLAN FROM "AGRICULTURE" TO "SINGLE FAMILY RESIDENTIAL", AND AMEND THE ZONING FROM "AGRICULTURE DISTRICT (A)" TO "RESIDENTIAL DISTRICT (R-6)" FOR THE PURPOSE OF DEVELOPING AN 8 LOT SUBDIVISION, Roger Taniguchi, et.al./ Planning Department, County of Kauai

The applicant proposes to subdivide and develop the subject property as a proposed 8 lot residential subdivision in conjunction with development of the abutting property (approx. 140 lots in 4 phases, consisting of 35 units per phase) owned by Rex Financial Corporation as a residential subdivision. The property is identified as TMK:5-2-12: portion of Parcel 16 and contains an overall area of 1.3 acres. Being located in close proximity to the existing Puu Lani Subdivision in Kilauea, the utility infrastructure is available; however, the cost for the necessary water line extension will be borne by the applicant.

OAHU

CONSERVATION DISTRICT USE APPLICATION FOR BEACH PARK SITE IMPROVEMENT USE AT HANAUMA BAY, MAUNALUA, HONOLULU, OAHU, Dept. of Parks & Recreation, City & County of Honolulu

Correction: Previously published on Sept. 8, 1978. This negative declaration was inadvertently republished on December 8, 1980 and is now retracted from that issue.

The proposed project consists of beach park site improvement use of the City and County property, identified as TMK:3-9-12:2, at Hanauma Bay, Maunaloa, Honolulu, Oahu. The project involves the use of three subzones of the Conservation District: Protective, Limited and General. The scope of the subject project includes: grassed picnic areas and ponding areas for impounding and filtering storm water runoff, enhancement of the existing scenic overlook area, relocation of parking and separation of tour buses from automobiles, related park facilities and landscape improvements.

CONSTRUCTION OF A SINGLE FAMILY DWELLING, HONOLULU, OAHU, Joseph Apo/Dept. of Hawaiian Home Lands

Construction of a single family dwelling consisting of 2 bedrooms and 2 baths attached to existing structure consisting of a 1-bedroom and bath with patio at 451 Krauss St., Lot 51, TMK:2-2-15:36; Urban Zoned R-6, Honolulu, Hawaii. This is a replacement home for lessee.

DEMOLITION OF THE ALEXANDER YOUNG BUILDING, 1000 BLOCK OF BISHOP STREET, HONOLULU, OAHU, The Northwestern Mutual Life Insurance Co./Dept. of Land and Natural Resources - Historic Sites

The Northwestern Mutual Life Insurance Company proposes to demolish the 75-year old Alexander Young Building. In its place, they will construct a modern, 29-story, 350-foot office tower and a 37,000 sq. ft. landscaped plaza. The proposed new development has been named Pacific Trade Center/Phase II and will occupy the entire western side of the 133,000 sq. ft. block bounded by King, Bishop, Hotel and Alakea Streets. The remainder of the block contains the 350-ft. high office tower and 6-story commercial/parking structure that comprise the Pacific Trade Center/Phase I complex. Both Phase I and Phase II are owned by the Northwestern Mutual Life Insurance Company. The new building will have approx. 470,000 sq. ft. of gross floor area, or just over twice as much as the existing building. When combined with

the 525,000 sq. ft. of space contained in the existing Pacific Trade Center/Phase I, the new building will completely utilize the site's development potential under the existing zoning code.

KAIMUKI INTERMEDIATE SCHOOL, POHUKAINA RELOCATION, REMOVAL OF ARCHITECTURAL BARRIERS, HONOLULU, OAHU, Dept. of Accounting and General Services for the Dept. of Education

The project consists of the design and construction of modifications to remove architectural barriers for the handicapped at the subject school for Pohukaina School students.

MAKAHA EXPLORATORY WELL III, MAKAHA, OAHU, TMK:8-4-02: Portion of Parcel 1, Board of Water Supply, City and County of Honolulu

The proposed project consists of the drilling, casing and testing of one 1 mgd exploratory well near the 1,100-ft. elevation in Makaha Valley. The proposed project is listed in the Board of Water Supply's 1980-86 Construction Improvements Program and will provide for future needs of the Waianae Coast. The proposed project is located in Makaha Valley approx. 3.7 miles northeast of the intersection of Makaha Valley Road and Farrington Hwy., on the island of Oahu. Access is available from Makaha Valley Road, the site being approx. 230 ft. west of Makaha Stream. If the well tests out satisfactorily, production facilities will be installed. The impact resulting from the production and distribution of water from this well will be addressed in an environmental impact statement.

PROPOSED 3.5 MILLION GALLON RESERVOIR TO BE BUILT BY FOREMOST FARMS, WAIMANALO, KOOLAUPOKO, OAHU, Foremost Farms/Dept. of Land and Natural Resources

The project proposes construction of a 3.5 million gallon reservoir for Foremost Farms at a site above the existing Retention Pond in Waimanalo, TMK:4-1-80, Portion 80. At this site, there are two ponds which are completely overgrown and are filled with organic material that has settled out over the past several years.

Prior to construction of the Reservoir, manure water flow will be diverted from the project site to the existing Retention Pond through a diversion ditch. Liquid effluent from the two ponds will be pumped out into the existing Retention Pond and all organic and unsuitable fill material will be removed and transported to a disposal site. A Diversion Structure will be constructed enabling manure water flow to be diverted through the diversion ditch to the existing Retention Pond. This will enable the completed new 3.5 million gallon Reservoir to be drained for periodic cleaning. An Overflow Structure will be provided to allow stormwater overflow to pass through the new Reservoir to the existing Retention Pond. An irrigation pump and connection to the existing irrigation system will allow the collected stormwater runoff to be used for irrigation of the pasture areas. An Access Road will be provided to the Reservoir. The objective of this project is to meet the requirements of the NPDES Permit No. 0000311, which is being enforced by the Department of Health for the Environmental Protection Agency.

SUBDIVISION OF PORTION OF THE RECLAIMED (FILLED) LAND OF KANEOHE BAY FRONTING TMK:4-4-16, PARCELS 17,18,& 19 INTO LOTS 5-A-1, 6-A-1, & 7-A-1, KANEOHE, KOOLAU-POKO, OAHU, Dept. of Land and Natural Resources

The Department of Land and Natural Resources desires to effectuate a subdivision of portion of reclaimed (filled) land in order to sell to the abutting property owners. The proposed action involves subdividing portion of the formerly submerged land fronting private property along Kaneohe Bay Drive into three (3) separate lots.

MAUI

PAIA SEWERAGE SYSTEM, PAIA, MAUI, Dept. of Public Works, County of Maui

This project consists of the installation of approx. 12,400 ft. of gravity sewers and 23,400 ft. of force mains. The pro-

ject also consists of the installation of seven new sewage pumping stations and the renovation of the existing Paia sewage pumping station. The project will collect sewage from the communities of Kuau, Paia and Sprecklesville and transport the sewage to the existing Wailuku-Kahului Wastewater Treatment Facility. This project will eliminate the existing raw sewage outfall which discharges raw sewage into Paia Bay. This project will also eliminate cesspools from the coastal communities of Sprecklesville and Kuau and thus reduce the potential for contamination of the coastal waters in those areas.

HAWAII

GENERAL AVIATION AND MAINTENANCE BASEYARD FACILITIES AT KE-AHOLE AIRPORT, NORTH KONA, HAWAII, TMK:7-4-43:3, Dept. of Transportation

The project is located within the Ke-ahole Airport property. A portion of the project is to the north of the existing terminal covering approx. 5 acres of lava rock area. The other portion of the project to the south of the existing crash fire rescue building covers approx. 17 acres of lava rock area. The proposed action is to accomplish the following:

1. Construct new access roads and utilities to service new general aviation facilities.
2. Construct approx. 9 acres of aprons and taxiways for general aviation use including lighting and marking, relocation of fuel tanks.
3. Relocate existing T-Hangar and construct a new T-Hangar.
4. Construct two new air cargo buildings with loading docks.
5. Construct a maintenance baseyard facility.

INDUSTRIAL ZONED LANDS UNDER GENERAL LEASE NO. 178, KAWAIHAE 1ST, SOUTH KOHALA, HAWAII, TMK:6-1-06:06, Weiser Cedar Sales, Inc./ Dept. of Hawaiian Home Lands

The project consists of construction of an industrial building, located within an industrial zoned area, to be used as a warehouse, office and showroom. Total area involved is 6.513 acres with the industrial building consisting of 8,960 sq. ft. on the

lower floor and 3,750 sq. ft. on the upper floor.

NEPA DOCUMENT

The following documents have been prepared pursuant to the requirements of the National Environmental Policy Act of 1969. Contact the Office of Environmental Quality Control for more information at 548-6915.

PROPOSED MILILANI TOWN EXPANSION, WAIPIO, OAHU, Dept. of Housing and Urban Development

Preparation Notice

Previously reported on December 8, 1980.

PROPOSED WEST BEACH RESORT, HONOULIULI, EWA DISTRICT, OAHU, U.S. Army Corps of Engineers

Joint Federal-State Final Environmental Impact Statement

The applicant, West Beach Resorts, a Hawaii General Partnership, proposes to construct a resort complex that may include a maximum of 1,680 residential units, 7,520 hotel/condominium units, a 35-acre marina with a capacity of 700 berths, a series of bathing beach lagoons fronting the resort hotels, a tourist recreational-commercial center, a park, a shopping center, interior road systems, utility systems, a golf course, tennis courts and other urban support facilities. The project described represents a conceptual plan with the highest density allowed under the State Land Use Commission's decision to designate the land urban. Construction will be phased, and specific project features will be added

or deleted from the project plan depending upon costs, design changes and permit conditions imposed by the regulatory agencies. A Department of the Army permit application for construction of a marina and bathing lagoons was submitted to the U.S. Army Corps of Engineers; the applicant plans to apply for a Special Management Area permit and Conservation District Use Application in the near future.

EIS'S SUBMITTED FOR ACCEPTANCE. The following EIS has been submitted for acceptance and contains comments and responses made during the review and response period.

PROPOSED HONOLULU AREA RAPID TRANSIT PROJECT HONOLULU, OAHU, City and County of Honolulu,

Dept. of Transportation Services

Previously reported on June 8, 1980.

EIS also available for review at the Main Branch Library on Oahu, and also may be inspected at the Dept. of Transportation Services, 650 South King St., 3rd Floor, Honolulu, Hawaii.

Status: Accepted by Governor Ariyoshi on December 15, 1980.

REGISTER OF SHORELINE PROTECTION ACT DOCUMENTS

The projects listed in this section have been filed with the City and County of Honolulu Dept. of Land Utilization pursuant to Ordinance 4529, as amended, relating to the Special Management Area (SMA) of Oahu. Contact the DLU at 523-4077 for additional information.

SUPPLEMENTAL EIS - PROPOSED EXPANSION OF THE WAIMEA FALLS PARK, WAIMEA, OAHU,
Waimea Falls Park, Inc./Dept. of Land Utilization, City & County of Honolulu

Draft Supplemental Environmental Impact Statement

The proposed action would expand the facilities in four areas:

1. Sewage Treatment Plant Expansion
2. Restaurant Dining Expansion
3. Tram Depot Refreshment Center
4. New Dining Pavilion

The action would increase the sewage treatment capacity to meet the standards of the Department of Health, expand the existing dining area in a new pavilion structure, allow conversion of a tram waiting shelter to include a refreshment center, and increase group dining capacity in a new dining pavilion.

This EIS is also available for inspection at the Kahuku Community-School Library and the Waialua Library.

Deadline: January 23, 1981.

PROPOSED WATERFRONT MANOR CONDOMINIUM PROJECT, WAIPIO, EWA DISTRICT, OAHU,
Herbert K. Horita Realty, Inc./Dept. of Land Utilization

Final Environmental Impact Statement

The Waterfront Manor 18.942 acre site is located generally between Middle Loch and Waipahu High School within the Waiawa-Waipio area of the Ewa District, Oahu. The site is identified by TMK:9-4-08:23. Herbert K. Horita Realty, Inc., the owner and developer of the site, proposes to construct 863 condominium units in five (5), 10-story buildings on the project site. There will be a total of 682, one-bedroom units and 181, two-bedroom units. The Preliminary Site Plan includes the construction of a 1,400-foot long, 40-foot wide (curb to curb) access road within a 56 feet right-of-way. Shoulders and sidewalks will also be provided. This access road will be built to County standards and dedicated to the County upon completion. Other features include: private, internal roadways; a recreational center, parking (1,337 spaces); landscaping; onsite and offsite utility (water, sewage, drainage) improvements.

This EIS is also available for inspection at the Ewa Beach Community-School Library, Wahiawa Library, Waialua Library and the Waipahu Library.

Status: Presently being processed by the Dept. of Land Utilization, City and County of Honolulu

HOUSECLEANING

FREE EIS's!

Once a year, the OEQC and the Commission give away copies of extra draft EIS's to make room for the coming year. These EIS's are available to anyone who wants them. It's first come, first choice. These EIS's, however, will not be mailed to an Oahu address. The copies will be located at 550 Halekauwila St., Room 306, Honolulu, HI. For those on the neighbor islands who do not have the opportunity to come to Honolulu, please send or phone the name of the desired EIS's. We will make arrangements to get the copies to you, if available.
