VOLUME IX

NOVEMBER 8, 1992

NO. 21

REGISTER OF DOCUMENTS PREPARED UNDER CHAPTER 343, HAWAII REVISED STATUTES

The *OEQC Bulletin* is a semi-monthly publication. The publication dates of the *OEQC Bulletin* are the eighth and twenty-third of each month. Environmental Assessments (EA) should be submitted to the appropriate agency directly. For EAs for which a Negative Declaration is anticipated, agencies should submit four copies of the Draft EA with a letter stating that a Negative Declaration is anticipated and that notice of the Draft EA should be published in the *OEQC Bulletin*. (When an agency initially determines that an EIS will be required for a project, an EIS Preparation Notice determination is made. No Draft EA is required since those projects undergo two comment periods throughout the EIS process.) After the Draft EA comment period ends, the agency will submit to OEQC, four copies of the document and a determination of a Negative Declaration or an EIS Preparation Notice for publication in the *OEQC Bulletin*. Applicants should deliver an appropriate number of Draft and Final Environmental Impact Statements (EIS) to the accepting authority before submitting copies to OEQC for publication. All documents submitted for publication in the *OEQC Bulletin* should be delivered to the Office of Environmental Quality Control, 220 South King Street, 4th Floor, Honolulu, Hawaii 96813. The deadline for all submittals is eight working days prior to the publication date. To ensure proper processing of documents, please attach the *OEQC Bulletin Publication Form* (Revised July, 1992) with all submittals. These forms can also be obtained by calling OEQC at 586-4185.

Please contact the approving or proposing agency to request copies of any Draft EAs, Negative Declarations, EISPNs or EISs. Any questions related to the content of these documents should be directed to the listed agency contact person.

OEQC UPDATE FORM

OEQC is updating its OEQC Bulletin Mailing List. If you have not returned the OEQC Update Form, please complete the form in this Bulletin and mail it to OEQC before NOVEMBER 16, 1992. If we do not hear from you, we will remove your name from the mailing list. Thank you.

DRAFT ENVIRONMENTAL ASSESSMENTS

A negative declaration determination is anticipated for the following actions. Act 241, SLH 1992, was approved by the Governor on June 17, 1992, and became effective on that same date. The Act requires environmental assessments, for projects for which a negative declaration is anticipated, to undergo a 30-day comment period before a final determination is made. The comment period begins when the notice of availability of the draft EA is published in the *OEQC Bulletin* and ends 30 calendar days later. For agency actions, the proposing agency shall respond to all comments postmarked within the 30-day period. For applicant actions, the applicant shall respond to all comments postmarked within the 30-day period. See the deadlines below for comment period end dates.

Please send the original copy of your comments to the agency and duplicate copies of the comments to the applicant, consultant, and OEQC.

HAWAII

HAWAII PILOT HOLE PROJECT

District: South Hilo
TMK: 3rd/2-1-09:01 and 41
Agency:
Department of Land and Natural Resources
Division of Land Management
P. O. Box 936
Hilo, Hawaii 96721-0936
Attention: Glenn Taguchi (933-4245)
Applicant:
University of Hawaii
Vice President for Finance and Operations
2444 Dole Street
Honolulu, Hawaii 96822
Attention: Dr. C. Barry Raleigh (956-6182)
School of Ocean and Earth Science and Technology
Deadline: November 22, 1992

The University of Hawaii School of Ocean and Earth Science and Technology in collaboration with University of California at Berkeley and Cal Tech University, propose to undertake a research pilot hole drilling project. This research will be undertaken in order to test the feasibility of diamond core drilling and sampling of submarine and subaerial basalt lavas for chemical analysis.

The proposed location of the drilling effort is adjacent to the Hilo Harbor facility on the Island of Hawaii. The parcels on which the work will occur are TMK: 3rd/2-1-09:01 and TMK: 3rd/2-1-09:41. These parcels are within the Urban Land Use Classification and are zoned General Industrial and Open (a portion of TMK:3rd/2-1-09:01) under the County Zoning Code.

The project will clear a drilling pad and drill and core a small diameter hole to a depth of 600 meters (2000 feet). The upper 23 meters of the hole will be drilled to a diameter of approximately 355 mm (14 inches) and cased with 254 mm (10 inches) casing.

A 101 mm diameter hole will be drilled from the depth to 150 meters (500 feet) and reamed to a diameter of 216 mm (8.5 inches) and a temporary casing of 178 mm (7 inches) will be set. Drilling with the 101 mm core bit will then continue to a total depth of approximately 2000 feet.

At the conclusion of drilling, downhole sampling and measurements will be made in the well at periodic intervals.

If the drilling project is successful, and subsequent reviews recommend funding, a subsequent research program will be proposed for this or a nearby site, to conduct a deep drilling and sampling program.

HONOKAA DIRECT SALE OF UTILITY EASEMENT

District: Hamakua
TMK: 3rd/4-5-10:91
Agency:
Department of Land and Natural Resources
Division of Land Management
P. O. Box 936
Hilo, Hawaii 96721-0936
Attention: Glenn Taguchi (933-4245)
Applicant:
Hawaii Electric Light Company, Inc. and
GTE Hawaiian Telephone Company, Inc.
P. O. Box 1027
Hilo, Hawaii 96721-1027
Attention: Wayne Nakamura (969-0162)
Deadline: December 8, 1992

The State of Hawaii, Department of Accounting and General Services Job No. 11-20-4094 is a road renovation project adjacent to Tax Map Key:3rd/4-5-10:91, owned by the State and the location of the new Honokaa Extended Care Facility. In conjunction with the road renovation project, Hawaii Electric Light Company, Inc. and GTE Hawaiian Telephone Company Incorporated have been requested to relocate a pole and anchor.

KALANI HONUA DIRECT SALE OF UTILITY EASEMENT

District: Puna
TMK: 3rd/1-2-09:43 (por.)
Agency:
Department of Land and Natural Resources
Division of Land Management
P. O. Box 936
Hilo, Hawaii 96721-0936
Attention: Glenn Taguchi (933-4245)
Applicant:
Kalani Honua
RR #2 Box 4500
Pahoa-Kamaili, Hawaii 96778
Attention: Richard Koob (965-7828)
Deadline: November 22, 1992

Kalani Honua, Inc. is a non-profit Conference Center and Institute for Cultural Studies located between Opihikao and Kalapana along the Puna Coast.

OEQC BULLETIN
November 8, 1992

Kalani Honua, Inc. has applied for a 50' utility easement through the subject property. Representatives of Kalani Honua have stated that in order to obtain service from GTE Hawaiian Telephone Company, Inc. and still preserve a grove of Kamani trees along the Kapoho-Kalapana Road, an application is being submitted for an easement through the State lands. As evidence of their desire to preserve the Kamani grove, Kalani Honua and Koob Enterprises, a Hawaii Partnership, owners of Tax Map Keys: 3rd/1-2-09:28 and 29 respectively, shall grant, for \$1.00 an irrevocable, perpetual, utility easement to GTE along the mauka boundaries of the above-mentioned properties and along the Kapoho side boundary of Parcel 28, extending to and terminating at the Kalapana-Kapoho Road, for the purpose of supplying telephone services to neighboring properties and all other properties east of the easement. The width of the easement shall be the equivalent width of the easement through the State land.

An archaeological survey report was submitted to the State Historic Preservation Division for their review. By memorandum dated October 17, 1991, Don Hibbard, Administrator, concluded that "based on the survey report and background information presented, we agree that the project will have no effect on historic sites."

A recent inspection of the property revealed that the telephone lines that currently service Kalani Honua encroaches onto the State property. The lines are haphazardly strung from Ohia tree to Ohia tree through the State lands. The lines were placed onto the government lands without the approval of the Board and will be removed.

**KEAHOLE GENERATING STATION EXPLORATORY WELL
DRILLING AND GEOTECHNICAL INVESTIGATIONS**

District: North Kona
TMK: 7-3-49:36
Agency:
Department of Land and Natural Resources
Office of Conservation and Environmental Affairs
1151 Punchbowl Street, Room 131
Honolulu, Hawaii 96813
Attention: Don Horiuchi (587-0377)

Hilo, Hawaii 96721-1027
Attention: Clyde Nagata (935-1171)
Consultant:
CH2M Hill
1585 Kapiolani Boulevard, Suite 1312
Honolulu, Hawaii 96814
Attention: Al Lyman (943-1133)
Deadline: December 8, 1992

This project is exploratory well drilling and geotechnical investigations at the Keahole Generating Station, North Kona District, Island of Hawaii. The purpose of the project is to collect information for the proposed expansion of the Keahole Generating Station.

HELCO is proposing to expand the existing generating station. The developed portion of the site is approximately 3 acres, and the

expansion would be on the undeveloped area. The generating capacity would be expanded from 30.25 megawatts (MW) up to 86.25 MW in three phases.

The exploratory well drilling includes two injection wells and one supply well. The injection wells will be 10 inches in diameter with a 6-inch casing, and will be drilled to a depth of 500 feet. The supply well will be 16 inches in diameter with a 12-inch casing and will be drilled to a depth of 265 feet. Six observation wells will also be drilled. The observation wells will be 3 inches in diameter; three wells will be drilled to a depth of 300 feet, and three will be drilled to a depth of 500 feet. In addition twenty test borings, 3 or 4 inches in diameter, will be drilled to depths ranging from 20 to 50 feet.

**KEALAKEHE INTERMEDIATE SCHOOL FIVE-CLASSROOM
BUILDING ADDITION**

District: North Kona
TMK: 3rd Division 7-4-19:44
Agency:
Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Brian Major (586-0485)
Deadline: November 22, 1992

This is to construct a one-story, two-classroom reinforced concrete masonry addition (comprising approximately 3,565 net square feet) to the existing Building D and to renovate vacant space (approximately 3,720 net square feet) in the existing Building D into three classrooms. This project also includes the construction of ten additional parking stalls and improvements to the sewage system.

**WAIAKEA SECOND FLOOR ADDITION TO THE ICE HOUSE AND
RELATED IMPROVEMENTS**

District: South Hilo
TMK: 2-1-03:24 and por. of 23
Agency:
County of Hawaii, Planning Department
25 Aupuni Street
Hilo, Hawaii 96720
Attention: Norman Hayashi (961-8288)
Applicant:
Mauna Kea Holding Company, Inc.
P. O. Box 1210
Hilo, Hawaii 96720
Attention: Paul Kierkiewicz (961-2831)
Consultant:
Roehrig, Roehrig, Wilson, Hara, Schutte & DeSilva
101 Aupuni Street, Suite 124
Hilo, Hawaii 96720
Attention: Sandra Pechter Schutte (969-1441)
Deadline: December 8, 1992

The petitioner is requesting an amendment to the County of Hawaii General Plan Land Use Pattern Allocation Guide Map from an Open Area designation to an Industrial designation in order to construct a second floor addition to an existing structure for use as a restaurant/banquet and museum facility. The site is situated on the

Waiakea Peninsula along Banyan Drive and adjacent to Liliuokalani Gardens. The existing structure is known as the "Ice House" which presently is used for and will continue to be used for cold storage and freezer facilities, the cutting/packing and shipping of fish, and the manufacture and sale of ice to fishermen, hotels and others. The property is within the boundaries of the Kaiko'o Project as defined by the Amended Urban Renewal Plan. The existing Ice House is a permitted non-conforming use under the Urban Renewal Plan. The total land area is approximately 29,489 square feet.

The notice of availability of the environmental assessment and the Negative Declaration determination by the State Department of Land and Natural Resources for a 159 square foot easement onto State land by the existing ice house structure was published in the June 8, 1992, OEQC Bulletin.

KAUAI

CARIS SINGLE FAMILY RESIDENCE AND ACCESSORY USES

District: Kawaihau
TMK: 4-9-05:27

Agency:
Department of Land and Natural Resources
Office of Conservation and Environmental Affairs
1151 Punchbowl Street
Honolulu, Hawaii 96813
Attention: Roy Schaefer (587-0383)

Applicant:
Norman J. Caris (310) 288-7060
23110 Mariposa De Oro
Malibu, California 90256

Consultant:
Belt, Collins and Associates
680 Ala Moana Blvd., Suite 200
Honolulu, Hawaii 96813
Attention: Glen Koyama (521-5361)

Deadline: November 22, 1992

The project site is located in the Aliomanu Estates subdivision approximately 1.2 miles north of Anahola Bay on the North Coast of Kauai.

The applicant proposes to construct a single family residence of approximately 7,200 square feet, with an attached garage of 950 square feet. Accessory amenities will include a swimming pool, tennis court, and landscaped garden. A paved driveway will provide access to the residence. The proposed project, including residence, amenities, landscaping and driveway, will cover 2.49 acres or 16.2 percent of the total 15.4 - acre lot.

Landscaping, consisting primarily of groundcover, shrubs and ornamental trees, will be provided around the house and along the driveway. The sloping area along the shoreline and makai of the residence and yard will be left in its natural state. Some trees will be selectively trimmed down for views but their root system will remain in place to control potential soil erosion.

ELEELE WASTEWATER TREATMENT PLANT EXPANSION - PHASE I

District: Koloa
TMK: 2-1-01:43
Agency:
County of Kauai, Department of Public Works
3021 Umi Street
Lihue, Hawaii 96766
Attention: Kiyoji Masaki (245-4751)
Consultant:
Fukunaga and Associates, Inc.
1388 Kapiolani Blvd., 2nd Floor
Honolulu, Hawaii 96814
Attention: Stanley Young (944-1821)
Deadline: November 22, 1992

The proposed project involves the design and construction of improvements to the Eleele Wastewater Treatment Plant (WWTP) to expand its treatment capacity from 0.4 million gallons per day (mgd) to 0.8 mgd.

Current daily inflows to the Eleele WWTP average about 0.25 mgd. Recent sewer connections to existing and new residential developments could increase inflows to greater than 0.4 mgd.

The existing treatment facilities provide secondary biological treatment. Existing major treatment processes include grit removal, aeration, settling, disinfection of the treated effluent, disposal of the disinfected effluent via deep injection wells, aerobic digestion and drying of sludge in open drying beds. The proposed major improvements will include a septage receiving facility, new aeration and settling tanks, modifications to the existing tanks to increase aerobic sludge digestion capacities, modifications to the chlorine contact tank, and construction of a new sludge dewatering facility. The proposed improvements are expected to be cost effective.

Expansion of the Eleele WWTP is the most environmentally acceptable and responsible means for treating and disposing of domestic sewage and wastewaters.

The project is consistent with Federal, State and County policies, and is not expected to have significant adverse impacts on the environment.

MAUI

KIHEI WASTEWATER PUMP STATION NOS. 6, 7 AND 8 UPGRADES

District: Wailuku
TMK: 3-9-5:por. 52, 3-9-5:por. 29, 3-9-8:142
Applicant:
County of Maui, Department of Public Works
200 South High Street
Wailuku, Hawaii 96793
Attention: George Kaya (243-7845)

OEQC BULLETIN
November 8, 1992

Consultant:

Michael T. Munekiyo Consulting, Inc.
2035 Main Street
Wailuku, Hawaii 96793
Attention: Michael Munekiyo (244-2015)
Deadline: December 8, 1992

The applicant proposes to modify and replace existing equipment within the pump station sites. WWPS Nos. 6, 7, and 8 would require the following improvements:

1. Replacement of existing pumps and piping;
2. Replacement of existing electrical apparatus;
3. Replacement of existing standby generators and manual and automatic transfer switches;
4. Replacement of wet well level measurement instrumentation;
5. Addition of new magnetic flow meters;
6. Modification of existing pump station ventilation systems;
7. Replacement of influent sluice gates; and
8. Replacement of underground ductline for electrical service.

WWPS No. 6 improvements also include a new CMU structure approximately 30-feet by 30-feet in area to house a new motor control center and generator. Additional asphaltic concrete driveway and parking area of approximately 1,100 square feet is proposed to provide access to the new structure. In addition, an electric transformer and switch, a 2,000-gallon above-ground diesel storage tank, and a below-grade wet well access structure are proposed. Landscaping improvements are also proposed around the pump station site.

WWPS No. 7 improvements include a new below-grade wet well extending approximately 8-feet by 8-feet mauka of the existing pump station structure. A 250-gallon above-ground diesel fuel storage tank is also proposed on this site. Fencing and landscaping around the pump station site is proposed to provide security and aesthetic enhancement.

WWPS No. 8 improvements include a new CMU structure approximately 25-feet by 25-feet in area to contain a generator and electrical room. A below-grade wet well approximately 10-feet by 12-feet in area is also proposed. Asphaltic concrete paving of approximately 1,000 square feet, an electric transformer and switch, a 2,000-gallon above-ground diesel storage tank, and fencing and landscaping improvements are also proposed.

**LAHAINA MASTER PLANNED PROJECT
OFF-SITE INFRASTRUCTURAL COMPONENTS**

District: Lahaina

TMK: 4-5-21: por. 4, por. 7, por. 3; 4-5-11: por. 1

Agency:

Housing Finance and Development Corporation
677 Queen Street, Suite 300
Honolulu, Hawaii 96813
Attention: Joseph Conant (543-6806)

Consultant:

PBR Hawaii
1042 Fort Street Mall, Suite 300
Honolulu, Hawaii 96813
Attention: Ramona Mattix (521-5631)
Deadline: December 8, 1992

The project involves the development of infrastructure to support the Housing Finance and Development Corporation's Lahaina Master Planned Project. Included in the Environmental Assessment are; potable water source development, implementation of a water reclamation plan and two drainage improvements; a reinforced/concrete box culvert at Honoapiilani Highway on the boundary of Waikuli Park and a drainage channel from the site to the existing apron of Kahana stream.

The Environmental Assessment has also been prepared in support of various permit applications required to construct the proposed project and to facilitate the exchange of well sites between the State and Pioneer Mill. The well sites covered in a previous June 1991 EA would be exchanged for the sites discussed in this EA.

An Environmental Impact Statement previously prepared for the Lahaina Master Planned Community was filed by the State Housing Finance and Development Corporation and accepted in February 1990 by the State.

OLD LAHAINA PALI TRAIL RE-ESTABLISHING PUBLIC USE

District: Lahaina

TMK: 3-6-01:14 and 4-8-01:1

Agency:

Department of Land and Natural Resources
Division of Forestry and Wildlife
Na Ala Hele Trails and Access Program
54 South High Street
Wailuku, Hawaii 96793
Attention: Michael Baker (243-5352)
Deadline: December 8, 1992

The Na Ala Hele Trails and Access Program under the authority of the Department of Land and Natural Resources, Division of Forestry and Wildlife, proposes to re-establish public use of the Old Lahaina Pali Trail. An Archaeological Survey of the trail, approved by the Historic Preservation Division, and incorporated in the Environmental Assessment (EA) will serve as the basis for maintenance and management of the resource.

It is the intention of the Na Ala Hele Program to permanently remove a 50 foot wide section of the trail corridor from the existing cattle grazing lease. The EA and a new metes and bounds survey were created for that purpose.

Trail development will include the creation of the trail head parking lots and access roads for no more than 15 automobiles each, two interpretive display areas and safety/information signage. Minor reconstruction of portions of the trail bed will occur as will periodic brushing of the trail bed corridor. Removal of non-native weed species and planting of locally occurring native species is planned. Impacts due to cattle grazing will be mitigated through the use of passive barriers. Impacts from visitor use will be mitigated through the strategic placement of interpretive signage, passive barriers and informational displays designed to redirect visitor attention away from sensitive locations.

UNITED PARCEL SERVICE PARCEL DISTRIBUTION CENTER

OAHU

Agency:
Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Ralph Yukumoto (586-0488)
Deadline: November 22, 1992

This project is to construct a 300 lineal feet, 16 inches high, moss rock planter wall within the Aloha Stadium complex. The purpose of the wall is to improve pedestrian safety by preventing soil erosion from a planter area causing muddy and slippery conditions on an adjacent walkway.

The wall site is in an area previously paved and graded for stadium construction.

**HANAUMA BAY NATURE PARK MASTER PLAN
IMPROVEMENTS**

The existing UPS parcel distribution center will be displaced by the expansion of the airport terminal which is currently underway. Accordingly, UPS must develop an alternate site in order to continue to serve its Maui clients. For this purpose, the State has assigned a portion of TMK 3-8-01:19 to UPS for construction of a temporary facility pending construction of the State's permanent cargo facilities within the airport.

District: Honolulu
TMK: 3-9-12: por. 2, 12, 14, 16
Agency:
City and County of Honolulu
Department of Parks and Recreation
650 South King Street, 10th Floor
Honolulu, Hawaii 96813
Attention: Walter Ozawa (527-6343)
Consultant:
Wilson Okamoto and Associates, Inc.
P. O. Box 3530
Honolulu, Hawaii 96811
Attention: Earl Matsukawa (531-5261)
Deadline: November 22, 1992

The proposed temporary UPS parcel distribution center will be relocated to a 1.5 acre State of Hawaii-owned parcel, located in the Kahului Airport District on Hemaloa Street. The site is bordered to the northeast by the terminal entrance road which runs parallel to Hemaloa Street. The site is currently utilized as a construction baseyard. The parcel to the northwest, which borders Keolani Place, is vacant. Keolani Place serves as the primary access to Kahului Airport.

The City and County of Honolulu Department of Parks and Recreation is proposing various improvements to the upper and lower park areas of Hanauma Bay Nature Park. Upper park improvements include constructing a new visitor center/management office/food concession complex, relocating the caretaker's quarters, reconstructing the park entrance at Kalaniana'ole Highway, providing traffic management and parking improvements, constructing a pedestrian walkway from Kalaniana'ole Highway to the park and replacing the upper comfort station. Lower park improvements include demolishing the existing concession complex, constructing a pedestrian walkway from the upper park to the beach, reconstructing and renovating lower park comfort stations, and constructing an auxiliary beach/information pavilion/snorkel gear rental concession.

The proposed action involves the relocation of existing UPS services and facilities to the proposed site. Improvements will consist of the construction of a temporary Modular Distribution Center (MDC) to serve as a central loading dock which can load 28 package cars, 14 on each side of the MDC. UPS currently owns and operates 15 package cars. Over the next ten (10) years, UPS plans to increase service by putting into service an additional nine (9) package cars (total of 24 package cars).

These improvements are being proposed following the development of the Park's Master Plan for 1992, and the adoption of the Hanauma Bay General Plan, including rules and regulations on park user limits, in June 1990. The proposed improvements are needed to maintain this level of usage rather than accommodate increasing number of visitors. Restructuring of the park will make

A temporary Modular Office Building (MOB) will also be constructed. This building will include a commercial counter for customers wishing to send packages via UPS. The UPS parcel distribution center will also include a vehicle wash area and an automobile preventive maintenance/inspection area.

The number of Maui-based UPS employees -- 15 hourly, one (1) clerical and two (2) management workers -- will not change with the relocation of the UPS parcel distribution center. The hours of operation will also remain unchanged. UPS is open from 7:00 a.m. to 7:00 p.m. A total of 32 parking stalls will be provided within the site.

management more efficient by emphasizing expanded use of the upper park and decreased use of the lower park.

KOKO HEAD REGIONAL PARK - RIFLE RANGE SAFETY IMPROVEMENTS

District: Honolulu
TMK: 3-9-12: por of 1
Agency:
City and County of Honolulu
Department of Parks and Recreation
650 South King Street
Honolulu, Hawaii 96813
Attention: Walter Ozawa (527-6343)
Consultant:
Engineers Surveyors Hawaii, Inc.
1020 Auahi Street, Building #6
Honolulu, Hawaii 96814
Attention: Eric Hee (531-3116)
Deadline: November 22, 1992

The Department of Parks and Recreation is proposing to design and construct certain safety related improvements that will improve operations at the Range.

In summary, the proposed improvements will consist of:

1. Site clearance and grading for the relocation and/or construction of the three target venues, i.e. Skeet Range, Combat/MPPL Range, and American Trap Range;
2. Design and construction of a new Range Master Residence;
3. Design and construction of New Restroom Facilities;
4. Grading and paving for new additional parking spaces, and landscaping.

WAIANAE HIGH SCHOOL 10-CLASSROOM BUILDING CC

District: Waianae
TMK: 8-5-02:18 and 8-5-15:01
Agency:
Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Stanley Ichioka (586-0487)
Deadline: November 22, 1992

The project proposes to construct a two-story reinforced concrete and masonry building of approximately 20,600 square feet which will consist of ten classrooms (six regular classrooms, two chemistry classrooms, one special education classroom, and one computer classroom), toilets, custodial rooms, and a faculty center with connecting ramps to an adjacent school building. Existing parking stalls and fence will be relocated. The site is located on the existing school campus.

NEGATIVE DECLARATIONS

The following actions were previously published as Draft EAs and have been determined by the listed agency to have no significant impacts. As a consequence, Environmental Impact Statements are not required of these projects. Aggrieved parties who wish to contest the agency's determination have a 30-day period, from this publication date, in which to initiate litigation. Any questions regarding the following project(s) should be directed to the listed contacts.

HAWAII

WAIMEA ELDERLY HOUSING PROJECT

District: South Kohala
TMK: (3)6-7-02: por. of 17
Agency: County of Hawaii, Office of Housing and Community Development
Attention: Clyde Yoshida (961-8379)

The Office of Housing and Community Development (OHCD), County of Hawaii, and the Big Island Housing Foundation (BIHF), a Hawaii non-profit corporation, are seeking to implement an elderly housing project on approximately five (5) acres of land in Puukapu, South Kohala, Hawaii.

The project site is located along Kamamalu Street, approximately 500 feet south of the intersection of the Hawaii Belt Road and Kamamalu Street. The area is currently used as a fenced pasture.

The County of Hawaii, through the OHCD and the BIHF, is proposing to construct 39 one-bedroom units and 1 two-bedroom unit in a wood-framed apartment complex. Funding for the project will be through HUD Section 202 Direct Loan Program and the Community Development Block Grant (CDBG) funds. Upon completion of the complex, the units will be rented to qualifying elderly individuals and couples.

The project area is currently used for cattle grazing by Parker Ranch as part of its ranch operations. There are no endangered fauna, critical habitats, historical/archaeological or cultural sites associated with the project area.

Notice of availability of the Draft EA for this project was initially published in the September 8, 1992, OEQC Bulletin.

OAHU

HALE KEWALO RENTAL HOUSING MIXED USE DEVELOPMENT

District: Honolulu
TMK: 2-3-09:1
Agency: Housing Finance and Development Corporation
Contact: Al Ahana (587-0620)

The Housing Finance and Development Corporation (HFDC), the Hawaii Community Development Authority (HCDA), and the University of Hawaii (UH) propose the joint development of a rental housing project with parking structure, employment training facility, and park/open space. Two concrete towers adjacent to a 5-level parking platform will comprise approximately 29 floors of affordable housing in one tower and approximately 26 floors of faculty housing for the University of Hawaii at Manoa campus in the other tower.

The project addresses the community's housing, education and recreation needs. The community's acute need for housing is addressed by providing a total of approximately 530 rental apartments to a broad section of income ranges. The project also addresses UH's need to recruit and retain top-notch faculty by designating one tower of housing for UH faculty. Toward addressing educational uses, the project includes the new ETO facility, which will provide the program with ample functional space. Building 857 will be preserved on the site for educational purposes. Community recreation is addressed through the creation of approximately 1.75 acres of park/open space along Kapiolani Boulevard, extending the adjacent athletic field to Pensacola Street.

The project is not anticipated to result in any significant short- or long-term impacts. Short-term impacts during construction are relatively insignificant and include those on noises, air quality, and traffic. In the long-term, existing uses will be displaced in favor of more intensified use of the site with inherent marginal increases in associated traffic, noise and vehicular emissions. Social impacts will reinforce changes already occurring in neighboring areas, while addressing education and recreation.

Notice of availability of the Draft EA for this project was initially published in the August 23, 1992, OEQC Bulletin.

KALIHI FIRE STATION IMPROVEMENTS

District: Honolulu
TMK: 1-3-5:22
Agency: City and County of Honolulu, Building Department
Contact: Melvin Lee (527-6373)

The proposed project will replace the existing kitchen/exercise building at the Kalihi Fire Station. The entrance way and the interior of the existing fire station will be modified to accommodate a larger fire fighting apparatus.

The existing fuel dispenser and underground storage tank will be removed in accordance with applicable State and Federal regulations.

Notice of availability of the Draft EA for this project was initially published in the September 8, 1992, OEQC Bulletin.

KAIMUKI FIRE STATION EXPANSION

District: Honolulu
TMK: 3-2-36:07 and 31
Agency: City and County of Honolulu, Building Department
Contact: Melvin Lee (527-6373)

The project proposes to expand the existing Kaimuki Fire Station, located at the corner of Pahoehoe and Koko Head Avenues by adding a second building behind the existing station. The expansion is required to add a ladder company. The added structure will be a two-story building with the fire fighting apparatus below and dormitories above. The existing station will be renovated to relocate the kitchen/dining area and exercise area from a building which will be demolished. The adjacent lot was acquired by negotiations and the buildings will be torn down to provide the driveway to the new building and parking area.

Notice of availability of the Draft EA for this project was initially published in the September 23, 1992, OEQC Bulletin.

EIS PREPARATION NOTICES

The following actions have been determined to have significant impacts upon the environment by the listed Agency (which maybe the Accepting Authority). As a consequence, Environmental Impact Statements will be prepared for these projects. A 30-day consultation period commences with the initial publication of these projects in the bulletin (see listed deadline dates). The purpose of soliciting comments during the consultation period is to establish the scope and depth of coverage that the Draft EIS should have.

Aggrieved parties who wish to challenge the agency's determination have sixty days from the initial date of publication of the EIS Preparation Notice to initiate litigation.

Please send the original copy of your comments to the accepting authority and duplicate copies of the comments to the proposing agency or applicant, consultant and OEQC.

OAHU

WAHIAWA LANDS DEVELOPMENT PLAN AMENDMENT

District: Wahiawa
TMK: 7-1-01: 5 through 8, 25, 26, 29, 31, 32, por. 11, 12, 13, por. 20, 21, and por. 30

Accepting Authority:
City and County of Honolulu
Department of General Planning
650 South King Street, 8th Floor
Honolulu, Hawaii 96813
Attention: Brian Suzuki (527-6073)

Applicant:
Hawaiian Trust Company
P. O. Box 3170
Honolulu, Hawaii 96802-3170
Attention: Michael Angotti (538-4545)

Consultant:
Helber Hastert & Fee
733 Bishop Street, Suite 2590
Honolulu, Hawaii 96813
Attention: Gail Uyetake (545-2055)
Deadline: December 8, 1992

The applicant, Hawaiian Trust Company, Ltd. (trustee for the Galbraith Trust Estate) is proposing to develop a portion of the Galbraith Trust Estate property north of Wahiawa town and between the Wahiawa Reservoir and Kamananui Road.

The applicant is seeking to amend the Development Plan Land Use Map for Central Oahu by redesignating approximately 900 acres of land from Agriculture to Residential, Park and Recreation, Low Density Apartment, Commercial Emphasis Mixed Use, Commercial-Industrial Emphasis Mixed Use, Commercial, and Public/Quasi-Public. The proposed amendment also seeks to redesignate 32 acres presently occupied by Poamoho Camp from Agriculture to Residential. Specifically, the applicant seeks to:

- 1) Develop a "town center" consisting of a residential/commercial mixed use core and including a pedestrian mall with elderly housing rentals and apartments as well as retail and public facilities.
- 2) An 18-hole public golf course that would "straddle" Kamehameha Highway.
- 3) Approximately 3,000 market and affordable residential units in varying densities.
- 4) A 40-acre business center located at the intersection of Kamehameha Highway and Kamananui Road.
- 5) Various public/quasi-public uses including civic uses such as churches, schools and park-and-ride facilities.
- 6) A commercial/light industrial area east of Kamehameha Highway and south of Whitmore Avenue that may include; office, retail, trade types of uses, and light warehousing activities.
- 7) Neighborhood parks and a community park including a linear park along Lake Wilson and a ridgeline park along Poamoho Gulch.

DRAFT ENVIRONMENTAL IMPACT STATEMENTS

A 45-day review period commences with the initial publication of these projects in the bulletin (see listed deadline dates). EIS's listed in this section are available for review at the following repositories:

- * Office of Environmental Quality Control
- * Legislative Reference Bureau
- * Municipal Reference and Records Center (Oahu EISs)
- * University of Hawaii Hamilton Library
- * Hawaii State Library (Main Branch)
- * Kaimuki Regional Library
- * Kaneohe Regional Library
- * Pearl City Regional Library
- * Hilo Regional Library
- * Wailuku Regional Library
- * Lihue Regional Library
- * Branch library in closest proximity to the project

Please send the original copy of your comments to the accepting authority and duplicate copies of the comments to the applicant or proposing agency, consultant and OEQC.

MAUI

EAST MAUI WATER DEVELOPMENT PLAN

District: Makawao and Wailuku
TMK: Various
Accepting Authority:
County of Maui, Board of Water Supply
P. O. Box 1109
Wailuku, Hawaii 96793-7109
Proposing Agency:
County of Maui, Department of Water Supply
P. O. Box 1109
Wailuku, Hawaii 96793-7109
Attention: David Craddick (243-7730)
Consultant:
Norman Saito Engineering Consultants, Inc.
2158 Main Street, Suite 203
Wailuku, Hawaii 96793
Attention: Carl Takumi (242-7400)
Deadline: December 7, 1992

The East Maui Water Development Plan (EMPlan) involves the design and installation of water transmission lines, storage reservoirs, and the drilling of source wells. This Plan is designed to meet the needs of the Central Maui Water District for the next 20 years or to the year 2012. It proposes to build a 36" transmission main from the East Maui sources to the existing 36" Central Maui Transmission Pipeline near the Kuihelani Highway. Intermediate connections to the Central Maui Water System between Hamakuapoko and the Central Maui Transmission Pipeline are proposed at Paia, Haleakala Highway, and Puunene. The transmission line will also be extended east from Hamakuapoko across Maliko Gulch and into the Haiku area. Water from the Haiku area wells located mauka of this transmission line will be connected to the transmission line after passing through control/chlorine contact tanks. Connections to the control tanks will be made to serve some of lower elevation Haiku areas, thus expanding the area served by the Central Maui Water System, and reducing the size of the Makawao District Service Area. Periodic review will be made of the EMPlan to assure the response to changing water demands.

The notice of availability of the EIS Preparation Notice for this project was initially published in the July 8, 1992, OEQC Bulletin.

OAHU

LUINAKOA PARTNERS RESIDENTIAL SUBDIVISION

District: Honolulu
TMK: 3-5-24:1
Accepting Authority:
State Land Use Commission
335 Merchant Street, Room 104
Honolulu, Hawaii 96813
Attention: Esther Ueda (587-3822)
Applicant:
Luinakoa Partners
43 Ahui Street
Honolulu, Hawaii 96813
Attention: D. G. Anderson (523-0955)

Consultant:
Parametrix, Inc.
1164 Bishop Street, Suite 1600
Honolulu, Hawaii 96813
Attention: F. J. Rodriguez (524-0594)
Deadline: December 7, 1992

Luinakoa Partners is planning to design and build 50-52 fee simple residential lots. The project is located in East Honolulu mauka of existing Luinakoa Street. The proposed residential lots will be approximately 5000 square feet in size to be consistent with the existing residential subdivision. All improvements will be built to applicable City and County of Honolulu standards for roads and utilities, and all improvement costs will be at the expense of the applicant. No government funds are involved.

The notice of availability of the EIS Preparation Notice for this project was initially published in the August 23, 1992, OEQC Bulletin.

FINAL ENVIRONMENTAL IMPACT STATEMENTS

This section provides notice of EISs that have been submitted for acceptance. All substantive comments received by the applicant or proposing agency, and corresponding responses, should be contained within the Final EIS. This section also provides notice of acceptance determinations. Aggrieved parties who wish to contest the acceptance of an EIS have a 60-day period in which to initiate litigation. The 60-day litigation period starts from the date of publication of the notice of acceptance in the OEQC Bulletin.

OAHU

KAHANA VALLEY STATE PARK SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT

District: Koolauloa
TMK: 5-2
Accepting Authority: Governor, State of Hawaii
Proposing Agency: Department of Land and Natural Resources
Division of State Parks
Status: Currently being reviewed by the Office of Environmental Quality Control.

The subject property includes the entire 5,257 acre Kahana Valley watershed on the windward side of Oahu.

An October, 1978 Revised Environmental Impact Statement for Kahana Valley State Park centered on opening the park for general recreation, providing housing for some valley residents and initiating cultural programs for the parks "living park" concept. A portion of the general recreation area was developed but long term housing for 14 to 18 families was not initiated.

In order to establish a "living park" program, it is essential to provide long term housing for all 31 eligible families living in the park. The original housing area on the west side of the valley would be extended further inland to provide 19 houselots above the flood zone. Individual lots sizes would be at least 10,000 square feet in order to meet septic tank sewage requirements. The remaining, required houselots are planned for a new village area near the beginning of Trout Farm Road on the east side of the valley. This includes five existing lots where residents will be able to remain. The State plans to provide all infrastructure for the two village areas including a paved road, water and electricity. The residents will arrange to build their own homes. Low interest mortgages are available through a special State mortgage fund established for the project.

Notice of availability of the Draft EIS for this project was initially published in the July 23, 1992, OEQC Bulletin.

KAPOLEI SPORTS AND RECREATION CENTER

District: Ewa
TMK: 9-1-16: 25; 9-1-17: 4; 9-1-18:1
Accepting Authority: Governor, State of Hawaii
Proposing Agency: Department of Accounting and General Services
Status: Currently being reviewed by the Office of Environmental Quality Control.

The State of Hawaii Department of Accounting and General Services (DAGS) proposes to build a sports and recreation center at Kapolei in Ewa on Oahu. To this end, a feasibility study and preliminary alternate site analysis were completed in June, 1990 designating four possible sites for the facility.

Alternative sites "A" and "D" are located along Fort Weaver Road, with Alternative Site "A" on the west mauka side of Farrington Highway and Alternative Site "D" near the Old Fort Weaver and Fort Weaver Road intersection. Alternate sites "B" and "C" are situated along a proposed road, Ewa Parkway, adjacent to the western side of Kaloi Gulch.

The general location of the four Alternate Sites was determined by many factors including availability of land and the plans for a "Second City" in this region. Also considered were the potential of mutually acceptable long range goals of the proposed project and that of the "Kapolei Long Range Master Plan" (April 1990). All four of these Alternate Sites were located on land owned by Campbell Estate. However, an agreement was reached between Campbell and the State of Hawaii in April 1991 for land parcels which included two of the four sites to be acquired by the State of Hawaii.

The existing use of each of the four Alternative Sites is agricultural with various residential development in progress or planned for those areas near the main roadways.

OEQC BULLETIN
November 8, 1992

The overall socioeconomic structure of the Ewa area has evolved from one that was primarily agricultural to one that is now principally oriented toward urbanization, including housing, commercial development, and tourism. With this evolution, the demand and need for recreational facilities have become more acute.

The recreational acreage required to support community sports is directly related to the area's population. Projections of future population for West Oahu and a summary of population projections by district for the Ewa Oahu area, and the recreational acreage required to support sports activities reveal a present deficiency and, unless additional facilities are provided, this deficiency will increase significantly by year 2000.

Residents of the Ewa area are expected to use the proposed facilities on a daily basis, whereas people living in the outlying sectors of West Oahu and other areas of Oahu will utilize the sports complex only for major sports and recreational events.

Notice of availability of the Draft EIS for this project was initially published in the January 8, 1992, OEQC Bulletin.

LILIHA CIVIC CENTER

District: Honolulu
TMK: 1-5-7:1, 14, 15, 18, 57, 58, 60 to 78
Accepting Authority: Governor, State of Hawaii
Proposing Agency: Department of Accounting and General Services
Project Management Branch
Status: Currently being reviewed by the Office of Environmental Quality Control.

The State of Hawaii Department of Accounting and General Services is proposing to construct the Liliha Civic Center which will allow the consolidation of agencies serving the Downtown-Liliha-Kalihi regional area. The Liliha Civic Center is a State Office complex intended to house State agencies and non-profit organizations. The proposed facility will encompass approximately 5.64 acres at the OR&L building site located at the corner of Iwilei Road and North King Street. The new office building development will complement the existing OR&L building, which will be retained on the site. Vehicular access to the site will be provided from Iwilei Road, North King Street, and Kaaahi Street off of Dillingham Boulevard.

The proposed project will be completed in two phases. Phase I will consist of approximately 205,316 net square feet of office space and parking for 789 cars. Phase II will consist of approximately 152,900 net square feet of office space and parking for 477 cars.

Notice of availability of the Draft EIS for this project was initially published in the August 8, 1992, OEQC Bulletin.

NEPA DOCUMENTS

HAWAII

**KALOKO-HONOKOHAU NATIONAL HISTORICAL PARK
DRAFT GENERAL MANAGEMENT PLAN/EIS
(Notice of Availability)**

District: North Kona
TMK: 7-4-08 and 7-3-09 (3rd Division)
Agency:
National Park Service
300 Ala Moana Blvd., Box 50165
Honolulu, Hawaii 96850
Contact: Gary Barbano (541-2693)

In accordance with Section 102(2)(c) of the National Environmental Policy Act of 1969, Public Law 91-190, the National Park Service has prepared a draft General Management Plan/Environmental Impact Statement (GMP/EIS) for Kaloko-Honokohau National Historical Park, Hawaii County, Hawaii.

The draft GMP/EIS presents a proposal and three alternatives for the future management, development, and use of the park. The proposed action calls for full facility development of the park, including a facility for interpretation of traditional Hawaiian ways and the carrying out of resource management strategies to preserve and protect the nationally significant cultural and natural values through an increase in park staffing. The other alternatives include no action, limited facility development, and maximization of vehicle access with more emphasis on recreation use. Impact topics evaluated include cultural resources, plant and animal communities, geology, freshwater and marine resources, visitor services, air quality, local economy, and management and operations.

Comments on the draft GMP/EIS should be received no later than December 11, 1992, and should be addressed to Gary Barbano, Park Planner, National Park Service, Pacific Area Office, 300 Ala Moana Blvd., Box 50165, Honolulu, Hawaii 96850. Requests for additional information or copies of the document should be directed to the above address or telephone number (808)541-2693. Copies of the draft GMP/EIS are also available at Kaloko-Honokohau National Historical Park, 73-4786 Kanalani Street, #14, Kailua-Kona, Hawaii 96740, telephone number (808)329-6881. The draft GMP/EIS is available for inspection at the State Library in Honolulu and in libraries in Kailua-Kona and Hilo.

OAHU

**HAIKU VALLEY OMEGA STATION CONSTRUCTION OF COAST
GUARD FAMILY HOUSING UNITS
(Notice of Intent to Prepare a Federal EIS)**

District: Koolaupoko
TMK: Coast Guard Omega Transmitter Station
Agency:
U.S. Coast Guard
Civil Engineering Unit
300 Ala Moana Boulevard, Room 8122
Honolulu, Hawaii 96850-4982
Attention: Bill Grannis (541-3103)
Deadline: December 8, 1992

Summary: The proposed action consists of building a maximum total of 239 single family homes, townhouses, and multiplex units on two parcels of land located at the U.S. Coast Guard's Omega Station, Haiku Valley, Kaneohe.

The proposed action is to be constructed in two phases; on one 17 acre site (Site A), a maximum of 144 housing units are to be built, consisting of single family homes, townhouses, and 2 and 3 story multiplex units. On a second 9.1 acre parcel (Site C), a maximum of 95 housing units are to be built, consisting of townhouses and 2 and 3 story multiplex units. Preliminary plans for both parcels call for construction of roads, parking, walks, lighting, retaining walls, and landscaping. Plans for the 17 acre parcel also call for construction of a community center, pool, playfields, courts, and a maintenance support building. Pending the findings of a traffic study of the area, additional development at the site may include either upgrading of Haiku Road and Kahuhipa Street to minor arterial capacities, or, limited modifications to the H-3 construction road.

Alternatives: Alternatives to be considered include a No Action alternative, leasing housing on the civilian market, and constructing housing on U.S. Department of Defense (DOD) property. Availability of land under DOD control will be determined subsequent to the issuance of this EIS Preparation Notice.

The determination to prepare an EIS is based on potentially significant environmental concerns, including traffic impacts due to increased traffic volume in the Haiku area; sedimentation impacts on Heeia Stream, Heeia wetland and Kaneohe Bay; disturbance of archaeological resources; and health effects related to electromagnetic fields and soil contamination.

To obtain a copy of the environmental assessment, please contact Mr. Bill Grannis at 541-3103.

**WAIU-MAKALAPA NO. 2
138 KILOVOLT TRANSMISSION LINE PROJECT NEAR
PEARL HARBOR - GRANTING OF EASEMENTS TO HAWAIIAN
ELECTRIC COMPANY, INC.
(Notice of Availability/Finding of No Significant Impact)**

District: Ewa
TMK: 9-9-1:08, 9-9-2:04 and 37, 9-9-3:29

Agency:
U.S. Department of the Navy
Commander, Pacific Division
Naval Facilities Engineering Command
Pearl Harbor, Hawaii 96860-7300
Attention: Stanley Uehara (471-9338)
Applicant:
Hawaiian Electric Company, Inc.
P.O. Box 2750
Honolulu, Hawaii 96840-0001
Attention: Patrick Calizar (543-7731)
Consultant:
CH2M HILL, Inc.
1585 Kapiolani Boulevard, Suite 1312
Honolulu, Hawaii 96814
Attention: Paul Luersen (943-1133)

Pursuant to Council on Environmental Quality regulations (40 CFR Parts 1500-1508) implementing the procedural provisions of the National Environmental Policy Act, the Department of the Navy gives notice that an Environmental Assessment (EA) has been prepared and an Environmental Impact Statement is not being prepared for the proposed granting of easements to Hawaiian Electric Company (HECO) for construction, operation, and maintenance of a 1.8-mile section of the 4.5-mile Waiuu-Makalapa No. 2 138 kilovolt (kV) transmission line project near Pearl Harbor, Oahu, Hawaii. The Hawaii State Department of Transportation issued in 1990, a Negative Declaration (no environmental impact statement was required) for the entire 4.5-mile project pursuant to Chapter 343, Hawaii Revised Statutes. Notice of this determination was published in the July 23, 1990, *OEQC Bulletin*.

HECO's project requires installation, operation and maintenance of temporary wooden poles, permanent steel poles, and associated equipment on Navy property. The area subject to Navy easements begins at Aloha Stadium and runs along the west side of Kamehameha Highway south to Radford Drive to the western edge of H-1 Freeway. Future plans to add a traffic lane on the west side of Kamehameha Highway between Salt Lake Boulevard and Halawa Stream (for access to the Navy's planned Ford Island Bridge) will require the replacement of the temporary wooden poles with permanent steel poles in new locations approximately 20 feet to the west of the wood pole locations. The future placement of these steel poles will require easement realignment.

Based on the information gathered during preparation of the EA, the Navy finds that the granting of easements to Hawaiian Electric Company, Inc. for the Waiuu-Makalapa No. 2 138 Kv transmission line project near Pearl Harbor, Oahu, Hawaii, will not significantly impact the environment.

The Finding of No Significant Impact and EA prepared by the Navy addressing this action may be obtained by interested parties from: Commander, Pacific Division, Naval Facilities Engineering Command, Pearl Harbor, Hawaii 96860-7300 (Attn: Mr. Stanley Uehara), telephone (808) 471-9338. A limited number of copies of the EA are available to fill single copy requests.

NOTICES

**PUBLIC NOTICE HI721002227
U.S. ARMY, MAKUA MILITARY RESERVATION
DRAFT HAZARDOUS WASTE PERMIT FOR
OPEN BURN/OPEN DETONATION**

The Region IX office of the U.S. Environmental Protection Agency (EPA) and the Hawaii Department of Health (HDOH) are soliciting public comment on a Draft Hazardous Waste Treatment Permit for the U.S. Army, Makua Military Reservation. Makua is located on Oahu approximately 60 kilometers northeast of Honolulu near Kaena Point.

Once the permit is effective, it would grant approval for Makua to continue to open burn/detonate waste munitions and ordnance. Approval would be granted in accordance with the provisions of the Resource Conservation and Recovery Act (RCRA), Title 40 of the Code of Federal Regulations (CFR) Part 124, as authorized by the 1984 Hazardous and Solid Waste Amendments to RCRA.

Within the Makua Military Reservation an approximate 14 acre area is used for open burn and open detonation of various waste munitions and ordnance. These wastes are from other military installations in Hawaii. The wastes are generally considered hazardous wastes because of their energetic nature (able to burn or explode). Open burns will occur in a specially designed burn pan whereas detonations occur on the ground.

The facility presently operates under the INTERIM STATUS requirements. If this DRAFT PERMIT is made final and there is no appeal, open detonation and burn may continue at Makua Military Reservation, subject to the terms and conditions of the permit and other applicable permits and legal requirements.

The ADMINISTRATIVE RECORD for the DRAFT PERMIT, which includes the APPLICATION, DRAFT PERMIT, and FACT SHEET, are available for public review during business hours, Monday through Friday at the addresses below. Further information and copies of the FACT SHEET may be obtained by calling Vern Christianson at (415) 744-2422 or by writing to:

U.S. EPA, Region IX
Attn: Vern Christianson (H-3-2)
75 Hawthorne Street
San Francisco, CA 94105

A copy of the APPLICATION, DRAFT PERMIT and FACT SHEET may also be viewed at the following address during business hours:

Hawaii Department of Health
Solid and Hazardous Waste Branch
500 Ala Moana Blvd.
Five Waterfront Plaza #250
Honolulu, HI 96813

Pearl City Library
Reference Desk
1138 Waimano Home Road
Pearl City, HI 96782

Environmental Protection Agency
Pacific Islands Contact Office
300 Ala Moana Blvd.
Prince Kuhio Federal Building
Suite 5124
Honolulu, HI 96813

Anyone wishing to submit comments on the DRAFT PERMIT should do so in writing on or before November 13, 1992 to the EPA Region IX contact listed above. An extension of the 45-day comment period may be granted if the request for the extension adequately explains why more time is required to prepare comments.

In the event EPA/HDOH receives written notice of opposition to the draft permit and a request for a PUBLIC HEARING within the comment period referenced above, a hearing will be scheduled. Notice of the public hearing will be provided at least 30 days prior to the scheduled date of the hearing.

All comments will be addressed in a RESPONSIVENESS SUMMARY. A final decision to establish final permit conditions and whether or not to issue the final permit will be made after all comments have been considered. Notice of the final decision shall be sent to each person who has sent or delivered written comments or requested notice of the final decision. The decision will become effective 30 days from the date of issuance.

UPDATED GUIDEBOOK FOR THE HAWAII STATE ENVIRONMENTAL REVIEW PROCESS NOW AVAILABLE

The Guidebook for the Hawaii Environmental Review Process has been updated to include the recent changes brought about by Act 241, SLH 1992 and includes updated procedures and forms. Call OEQC at 586-4185 to request a copy.

GUIDELINES FOR PREPARING ENVIRONMENTAL ASSESSMENTS

These guidelines are intended to provide help to the agencies and the public regarding the environmental review process; specifically for the preparation of environmental assessments. The reader is referred to Chapter 343 of the Hawaii Revised Statutes, Chapter 200 of Title 11, Department of Health Administrative Rules, and to Act 241, Session Laws of Hawaii 1992, prior to any document preparation. (References in brackets refer to either Chapter 343, Hawaii Revised Statutes, Act 241, SLH 1992, or Title 11, Chapter 200, Department of Health Administrative Rules.)

For an overview of the EA/EIS Process, see the process flowcharts, included as Figures 1 and 2 in the new Guidebook.

WHAT IS THE PURPOSE OF PREPARING AN ENVIRONMENTAL ASSESSMENT? The purpose of preparing an environmental assessment is to determine if the impacts of a proposed action are

significant enough to warrant the preparation of an Environmental Impact Statement [§11-200-2].

WHAT IS AN ENVIRONMENTAL ASSESSMENT? An environmental assessment is a document which is prepared for a proposed action which triggers the Environmental Impact Statement Process. Briefly summarized, the eight triggers that require the preparation of an environmental assessment [§343-5] are:

- (1) Use of State or County lands or funds
- (2) Use within Conservation District Lands
- (3) Use within the Shoreline Setback Area
- (4) Use within any Historic Site or District
- (5) Use within the Waikiki Special District
- (6) Amendments to a County General Plan (except for those initiated by the County)
- (7) Reclassification of Conservation Lands
- (8) Construction or modification of helicopter facilities

IS THERE A NEED TO CONSULT WITH OTHERS EARLY IN THE PROCESS? YES. During the preparation of an environmental assessment, the procedures listed in §11-200-9, Early Assessment, must be followed. Historically, one of the steps frequently overlooked has been §11-200-9 (a)(4). This section requires consultation with agencies having jurisdiction or expertise as well as consultation with citizen groups and individuals.

CAN ACTIONS OR PROJECTS BE SEGMENTED? NO. The proposed action must be described in its entirety; therefore, projects should not be done on an incremental basis to avoid the preparation of an environmental impact statement [§343-6(a)(2), §11-200-7].

WHAT HAPPENS IF AN ACTION IS SUBJECT TO MORE THAN ONE TRIGGER TO THE EIS PROCESS? If an action is subject to more than one trigger to the EIS process, all applicable approving agencies are encouraged to be involved in the preparation of the environmental assessment and determination as to whether an environmental impact statement is required for the action. Otherwise, the action would be subject to separate environmental assessment processes (including separate 30-day review periods for anticipated negative declarations) and determinations for each approval. Notice of each separate determination will be published in the OEQC Bulletin.

WHAT IS REQUIRED IN AN ENVIRONMENTAL ASSESSMENT? Draft and final environmental assessments must include (but are not limited to) the following [§11-200-10]:

- (1) Identification of applicant or proposing agency;
- (2) Identification of approving agency, if applicable;
- (3) Identification of agencies consulted;
- (4) General description of the action's technical, economic, social, and environmental characteristics; (Some GENERAL guidelines to the content of each characteristic are listed below:

This section should generally answer the "What, Why, Where, When, Who and How" of the proposed action and its short and long-term impacts.

Technical: Describe the purpose of the project and in general terms how the project will be accomplished. If applicable, the spatial dimensions of the project and its timing should be included.

Socio-economic: Describe the economic impacts on the immediate community as well as on the community at large. The assessment may include, but not be limited to, providing income for the county/state and creating employment opportunities in areas with high unemployment rates.

Describe issues pertinent to the specific project. If an action involves a targeted segment of the population, any/all positive or negative effects must be discussed. In addition, any other issues pertinent to the action (such as: population density, recreational facilities, child care provisions, relocation of residences, etc.) must be discussed.

The Socio-Economic Impact does not apply to the impact of the action on the proposing agency or applicant. For state or county projects, the cost of the proposed action should be included in the assessment.

Environmental Characteristics: Describe, as applicable, aesthetics, the generation of air pollution, traffic congestion, noise levels, effects on water quality or any other aspect of the environment which may be affected by the proposed action.

- (5) Summary description of the affected environment, including suitable and adequate location and site maps;

Include descriptions of flora, fauna, significant habitats, historical/ archeological and cultural sites. Describe adjacent natural resources. Sensitive habitats (such as a refuge) or bodies of water (stream, river, ocean, estuary, anchialine pond) adjacent to a proposed project need to be addressed.

- (6) Identification and summary of major impacts and alternatives considered, if any; identify positive as well as negative major impacts. The impacts of concern are of the proposed action on the surrounding environment and community, not the impact of the environment on the action. The alternatives considered should be included when applicable.
- (7) Proposed mitigation measures, if any: It is not sufficient to write one sentence stating that appropriate mitigation measures shall be instituted wherever necessary. The potential problems must be identified and appropriate mitigation described in general terms. If a mitigation measure is identified, the corresponding impact should be described in the impacts section. Best Management Practices should be cited whenever possible. For mitigation at Historic Sites, the environmental assessment must include: 1) copies of the Mitigation and/or Preservation Plans prepared for the Department of Land and Natural Resources' State Historic Preservation Program; and 2) a copy of the approval letter for the plans from the State Historic Preservation Program.

(8) Determination:

The agency shall consider every phase of a proposed action, the expected consequences, both primary and secondary, and the cumulative as well as the short and long-term effects of the action in making a determination.

For environmental assessments for which a negative declaration is anticipated, a draft environmental assessment shall be made available for public review and comment for a period of thirty days. Subsequently, a final environmental assessment shall be prepared to determine whether an EIS is required (Act 241, SLH 1992).

After reviewing the comments received during the 30-day review period for anticipated negative declarations, the responsible agency may make a Negative Declaration or EISPN determination. If an EISPN is determined, the project must undergo an additional 30-day consultation period to define the scope of the Draft EIS.

A determination letter from the Agency must be submitted with the final environmental assessment identifying it as either a Negative Declaration or Environmental Impact Statement Preparation Notice. This letter is a formal declaration stating that the document has been reviewed and the action will or will not have significant impacts on the environment. This must be the Approving Agency's determination, not the consultant's determination [§343-5(c)].

- (9) Findings and reasons supporting the determination; Evidence justifying the statement that the proposed action will or will not result in any significant environmental impact must be included.
- (10) Agencies to be consulted in the preparation of the environmental impact statement, if applicable. This is necessary only for assessments which are determined to require environmental impact statements.

WHAT HAPPENS AFTER AN ENVIRONMENTAL ASSESSMENT IS SUBMITTED?

- If the agency determines the action will have a significant impact, an Environmental Impact Statement Preparation Notice is issued. Publication of this determination in the OEQC Bulletin will initiate a 30-day consultation period to define the scope of the Draft EIS.
- If the agency anticipates the action will not have a significant impact, the document will be published in the OEQC Bulletin as a Draft environmental assessment and will undergo a formal 30-day review period beginning on the date of publication in the OEQC Bulletin. Following the end of this 30-day review period, any comments received along with their responses must be incorporated into the Final environmental assessment. If appropriate, the text, figures, tables, maps and other ancillary parts of the environmental assessment should be revised. After undergoing the 30-day review period required by Act 241, SLH 1992, if the agency determines that:

- a) the action will not have a significant impact, a negative declaration will be issued. Publication of this determination in the OEQC Bulletin will initiate the 30-day period to legally challenge the determination in court.
- b) the action may have a significant impact, an EISPN will be issued and the project will undergo an additional 30-day consultation period to define the scope of the Draft EIS.

WHAT IS REQUIRED IN A NOTICE OF DETERMINATION? The Notice of Determination (Negative Declaration or EIS Preparation Notice) which is issued by the Approving Agency must include [§11-200-11(c)]:

- (1) Identification of applicant or proposing agency
- (2) Identification of approving agency
- (3) Brief description of proposed action
- (4) Determination
- (5) Reasons supporting the determination
- (6) Name, address and phone number of contact person for further information

HOW IS THE PUBLIC MADE AWARE OF PROJECTS FOR WHICH EAs HAVE BEEN PREPARED? Draft Environmental Assessments, Negative Declarations and EIS Preparation Notices must be submitted by the appropriate agency to OEQC for publication in the OEQC Bulletin [§11-200-11(b)]. OEQC has an "OEQC Bulletin Publication Form" which should be filled out and submitted to OEQC with the Draft Environmental Assessment, Negative Declaration or Environmental Impact Statement Preparation Notice.

CHALLENGING NEGATIVE DECLARATIONS. Once a final negative declaration determination has been made, the determination stands as a Negative Declaration until it is challenged in court and reversed by the same. There is a 30-day period [§343-7(b)/Act 241, SLH, 1992] starting when the determination is published in the OEQC Bulletin for an aggrieved party to challenge the determination of "negative declaration."

CHALLENGING ENVIRONMENTAL IMPACT STATEMENT PREPARATION NOTICES (EISPN). There is a 60-day period [§343-7(b), Act 241, SLH 1992] starting when the EISPN determination is first published in the OEQC Bulletin for an aggrieved party to challenge in court the agency determination that an EIS is required.

**PRE-ASSESSMENT CONSULTATION
LIST FOR ENVIRONMENTAL
ASSESSMENTS**

During the preparation of an environmental assessment, the procedures listed in Hawaii Administrative Rules, §11-200-9, **Early Assessment**, must be followed. Historically, one of the steps frequently overlooked has been §11-200-9(a). This section requires consultation with agencies having jurisdiction or expertise as well as consultation with citizen groups and individuals.

The appropriate agencies and groups from the list below should be consulted before the preparation of an environmental assessment. This list is not meant to be comprehensive. Each proposed action

is unique in itself and may require consultation with other agencies and concerned groups.

**PUBLIC NOTICE
MEETING 92-11 OF THE STATE ENVIRONMENTAL COUNCIL**

**Wednesday, November 18, 1992, at 4:00 P. M.
Office of Environmental Quality Control Library
Central Pacific Bank Plaza
220 South King Street, Suite 400
Honolulu, Hawaii 96813
Telephone (808) 586-4185**

AGENDA

1. Call to Order.
2. Review and Approval of the October 21, 1992, Draft Meeting Minutes.
3. Executive Session (Authorized by Section 92-5(a)(4), Hawaii Revised Statutes) to Consult with the Attorney General on Questions and Issues Pertaining to the Environmental Council's Powers, Duties, Privileges, Immunities, and Liabilities. The Council may physically move this session to the Office of the Director of Environmental Quality Control. After executive session has concluded, the Council may physically move back to the Library area.
4. Review and Concurrence Proceeding for an Amended Exemption List (of Actions Exempt from the Preparation of an Environmental Assessment) pursuant to Section 11-200-8 and Chapter 201 of the Hawaii Administrative Rules (Department of Health), for the State of Hawaii, Department of Transportation (Environmental Council Docket 92-EX-01). (Continued from the October 21, 1992, Meeting)
5. Section 341-6 Meetings to Monitor Agency Progress in Meeting State Environmental Goals and Policies:
 - A. Department of Public Works, City and County of Honolulu
 - B. Department of Health, State of Hawaii
 - C. Other agencies/organizations
6. Hawaii Environmental Risk Ranking Project
7. Correspondence and Other Unfinished Business
8. New Business
9. Adjournment.

**PUBLIC NOTICE
ENVIRONMENTAL COUNCIL MAILING LIST**

To further increase public involvement and to implement the provisions of Section 92-7(c), Hawaii Revised Statutes, the Environmental Council requests that persons interested in receiving notification of its meetings call 586-4185 to be placed on a meeting notification mailing list. Requests to be placed on the mailing list may also be sent to:

Environmental Council, State of Hawaii
220 South King Street, Suite 400
Honolulu, Hawaii 96813

LORRAINE H. AKIBA, Chairperson
Environmental Council

**PUBLIC NOTICE OF AVAILABILITY: 1991 ANNUAL REPORT OF
THE ENVIRONMENTAL COUNCIL**

The Environmental Council announces that the "1991 Annual Report of the Environmental Council" is available at no charge to the public. Interested persons may obtain a copy by calling 586-4185 or by writing to:

Office of Environmental Quality Control
220 South King Street, Suite 400
Honolulu, Hawaii 96813

LORRAINE H. AKIBA, Chairperson
Environmental Council

**PUBLIC NOTICE: SHORELINE CERTIFICATION
(Adoption Of Emergency Rules)**

The Board of Land and Natural Resources at its meeting held on October 16, 1992, under agenda item F-20, pursuant to Section 91-3(b), Hawaii Revised Statutes, HRS, and Section 13-1-25, Hawaii Administrative Rules, HAR, approved the adoption of emergency rules amending Section 13-222-12, HAR, PUBLIC NOTICE OF APPLICATION AND CERTIFICATION, to waive all of the notice requirements contained within Section 13-222-12, HAR, and to provide that public notice of the receipt of application for and certification or rejection of the shoreline will be effectuated by posting the same for public view at the Land Management Division Offices in Honolulu located at 1151 Punchbowl Street, Room 220, Kalanimoku Building, Honolulu, Oahu for Oahu properties and on Kauai located at 3060 Eiwa Street, Room 306, Lihue, Kauai for Kauai properties.

PUBLIC NOTICE

Pursuant to Section 13-222-12, Hawaii Administrative Rules
entitled "Shoreline Certification"

Date: Nov. 8, 1992 Number: 92-021

NOTICE OF APPLICATION: Application available for inspection at
District Land Offices on the islands of Kauai, Hawaii and Maui and at
Room 220, Kalanimoku Building, 1151 Punchbowl Street, Honolulu, Oahu

<u>LOCATION</u>	<u>APPLICANT</u>	<u>TAX MAP KEY</u>	<u>DATE RECEIVED</u>
1) <u>Lot 1-D and Grant</u> <u>11674 (Waimea,</u> <u>Kauai)</u>	Masao Fujishige for Brian Kimura and Gene Barkin	1-6-6:6 & 7	10/28/92

.....
APPEAL may be made to the Department of Land and Natural Resources in writing within twenty (20) days of the date of this notice:

Department of Land and Natural Resources
1151 Punchbowl Street, Room 220
Honolulu, Hawaii 96813
Tel. 587-0439

1. The first part of the document discusses the importance of maintaining accurate records of all transactions.

2. It is essential to ensure that all entries are supported by appropriate documentation and receipts.

3. Regular audits should be conducted to verify the accuracy of the records and identify any discrepancies.

4. The second part of the document outlines the procedures for handling any identified errors or discrepancies.

5. It is crucial to investigate the cause of any errors and implement corrective measures to prevent recurrence.

6. The final part of the document provides a summary of the key findings and recommendations.

7. It is recommended that the findings of this audit be shared with the relevant stakeholders for their awareness.

8. The document concludes with a statement of appreciation for the cooperation and assistance provided by all parties involved.

9. The audit report is prepared in accordance with the standards and guidelines set forth by the relevant regulatory bodies.

10. The document is signed and dated by the audit team, and a copy is provided to the management for their review and approval.
