The Environmental Notice informs the public of environmental assessments and other documents that are available for review and comment per HRS 343-3 and is issued on the 8th and 23rd of each month on the Office of Environmental Quality Control's website. If you would like to be notified when it is issued, send us your email address and we'll put you on our mailing list.

and are currently occupied by the Keauhou Head Start pre-school and the Hawai'i County Economic Opportunity Council (HCEOC).

The new baseyard will include a carpentry shop, paint shop, electrical shop, masonry shop, plumbing shop, and administrative offices. Access to the site will be off a single driveway on Hawai'i Belt Road. Project impacts include noise and dust during construction, including construction of a waterline through the State-owned parcel occupied by the Head Start school and HCEOC. Construction period impacts will be temporary and can be mitigated. Once operational, the baseyard will have minimal noise and air quality impact on the adjacent property because all maintenance activity will occur inside the shops, which are outfitted with dust collectors and air filters. Baseyard crews are out in the field for most of the day when the Head Start children are in school. There are no threatened or endangered species on the project site. An archaeological field inspection noted no historic properties and no further archaeological work is needed. The impact of the project traffic on Kuakini Highway will not be significant.

MAUI NOTICES (HRS 343)

2. [HP Baldwin High School Softball Field FEA \(FONSI\)](#)

Island: Maui
District: Wailuku
TMK: (2)3-8-007:004 (por.)
Permits: Building Permit, Grading Permit, Noise Permit (as applicable), NPDES (as applicable)
Proposing/Determination Agency: State of Hawai'i, Department of Education, P.O. Box 2360, Honolulu, Hawai'i 96804. Contact: Duane Kashiwai, Administrator, (808)586-0430
Consultant: Munekiyo & Hiraga, Inc., 305 High Street, Suite 104, Wailuku, Hawai'i 96793. Contact: Colleen Suyama, Senior Associate, (808)244-2015
Status: Finding of No Significant Impacts (FONSI) Determination

The State of Hawai'i, Department of Education (DOE), proposes the development of a softball practice field and related improvements on an approximately 3.1-acre site on the HP Baldwin High School campus adjacent to the Boy Scouts of America Council offices located in Wailuku, Maui. The project components will include construction of a new softball field with dugouts, pitchers' warm up area, a batting cage, unisex restroom and Americans with Disability Act (ADA) parking space. The project will also provide ADA access from other parts of campus. Site work includes excavation and embankment of the site, construction of an access roadway, walkways, and installation of service utilities including water, sewer, underground electrical and a drainage system. The Baldwin High School property is owned by the County of Maui.

The use of County lands and State funds are triggers for Chapter 343, Hawai'i Revised Statutes. As such, a Draft Environmental Assessment (EA) has been prepared pursuant to Chapter 343, HRS, and Chapter 200 of Title 11, Hawai'i Administrative Rules, Environmental Impact Statement Rules.

3. [Apparatus Bay Building and Lahaina Fire Station Improvements FEA \(FONSI\)](#)

Island: Maui
District: Lahaina
TMK: (2)4-5-021:016 (por.)
Permits: Special Management Area Use Permit, County, Special Use Permit, Construction Permits

Proposing/Determination

Agency: County of Maui, Department of Fire and Public Safety, 200 Dairy Road, Kahului, Hawai'i, 96732. Contact: Lee Mainaga, Fire Services Officer, (808) 270-7561

Consultant: Munekiyo & Hiraga, Inc., 305 High Street, Suite 104, Wailuku, Hawai'i, 96793. Contact: Mark Alexander Roy, AICP, Program Manager, (808) 244-2015

Status: Finding of No Significant Impacts (FONSI) Determination

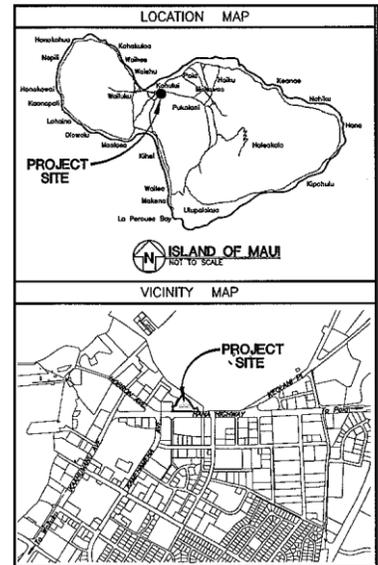

The County of Maui, Department of Fire and Public Safety proposes to construct a new 2,838 square foot (sq. ft.) apparatus bay building and related improvements adjacent to the existing Lahaina Fire Station in Wahikuli, Maui. The proposed apparatus bay building will be used to provide shelter for a fire truck, utility vehicle, and a boat/trailer combination. The new structure will be constructed with a combination of concrete masonry unit (CMU) and pre-manufactured steel and will also contain sleeping quarters for two (2) personnel, a weight/fitness room, laundry facilities, and a restroom/shower. The new structure will be fully accessible in compliance with ADA requirements and will also include automatic fire sprinkler protection. Related improvements will include the removal of two (2) storage sheds and the relocation of an above-ground fuel tank, as well as installation of utility connections.

The proposed action involves the use of State lands and County funds, triggers for Chapter 343, Hawai'i Revised Statutes. As such, an Environmental Assessment (EA) has been prepared for the project.

4. Maui Medical Plaza Project and Related Improvements FEA (FONSI)

Island: Maui
District: Wailuku
TMK: (2) 3-7-011:028
Permits: Special Management Area (SMA) Use Permit, Section 404 Department of Army (DA) Permit, Section 401 Water Quality Certification, Coastal Zone Management (CZM) Consistency Determination, Work-To-Perform in State Right-of-Way, Driveway Permits, Work-To-Perform on County Roadway, Construction Permits, NPDES Permit (as applicable), Noise Permit (as applicable)

Applicant: Kanaha Professional Plaza, LLC, 350 Hukilike Street, Suite D, Kahului, Hawai'i 96732
 Contact: Robert T. McDaniel III, (808) 283-8811

Approving Agency:

County of Maui, Department of Planning, Maui Planning Commission, 250 South High Street, Wailuku, Hawai'i 96793. Contact: James Buika, Staff Planner, (808) 270-7735

Consultant: Munekiyo & Hiraga, Inc., 305 High Street, Suite 104, Wailuku, Hawai'i 96793. Contact: Mark Alexander Roy, AICP, Project Manager, (808) 244-2015

Status: Finding of No Significant Impacts (FONSI) Determination. [Appendices- Volume II](#)

Kanaha Professional Plaza, LLC proposes the development of the Maui Medical Plaza at Kanaha in Kahului, Maui. Accessed from Hana Highway, the project site is a 2.5-acre parcel of land within the Kahului Harbor Industrial Subdivision. The Maui Medical Plaza is proposed as a 6-story building (approximately 132,869-square foot), designed to accommodate physicians' offices, medical laboratories, radiology services, administrative services, and a pharmacy. Directly behind and attached

6. In-Vessel Composting Facility Draft EIS

- Island:** O'ahu
District: Waialua
TMK: 6-5-002: 026
Permits: Hawai'i Department of Health National Pollutant Discharge Elimination System (NPDES) for Storm Water Associated with Construction Activity, NPDES for Storm Water Associated with Construction Activity, Solid Waste Management Permit, Temporary Non-Covered Source Permit, Air Pollution Control Permit; Department of Land and Natural Resources Well Construction Permit; Department of Transportation Permit for Transportation of Oversized and Overweight Equipment Loads; City & County of Honolulu Conditional Use Permit (Major), Special Use Permit, Zoning Variance (Height), Building Permit, Grading, Grubbing and Stockpiling Permit
- Applicant:** Hawaiian Earth Recycling, LLC, 91-400 Malakole Street, Kapolei, Hawai'i 96707. Contact: Gregory Apa, (808) 792-0126
- Accepting Authority:** Department of Environmental Services, 1000 Uluohia Street, Suite 212, Kapolei, Hawai'i 96707. Contact: Steven Serikaku, (808) 768-3428
- Consultant:** Wilson Okamoto Corporation, 1907 South Beretania St., Suite 400, Honolulu, Hawai'i 96813. Contact: Earl Matsukawa, (808) 946-2277
- Status:** Statutory 45-day comment period; comments are due on August 6, 2011. Send comments to the Applicant, Accepting Authority and the Consultant

Hawaiian Earth Recycling LLC (HER) proposes to construct an in-vessel composting facility in Waialua on the island of O'ahu. The proposed project site is owned by Cedar Grove Hawai'i LLC and encompasses approximately 112 acres. The in-vessel composting facility will process up to 150,000 tons per year of green waste, food waste, and dewatered sewage sludge and produce marketable products such as compost, soil amendments, potting mixes, and erosion control materials. This project will be an important and integral part of O'ahu's overall Solid Waste Management System, as private companies, such as HER, assist the City and County of Honolulu's efforts to direct materials for reuse.

7. Hawai'i Kai Marina and Entrance Channel Maintenance Dredging FEA (FONSI)

- Island:** O'ahu
District: Conservation District
TMK: 39007011, 39008035, 39002011, 39002010, 39002009
Permits: U.S. Army Corps of Engineers Sections 10 and 404; Department of Health Clean Water Act Section 401 Water Quality Certification and National Pollutant Discharge Elimination System Permit; Department of Planning Coastal Zone Management Act Consistency Determination Conservation District Use Permit
- Applicant:** Hawai'i Kai Marina Community Association, 377 Keahole Street, D-1C, Honolulu, Hawai'i 96825. Contact: (808) 396-2469, Fax: (808) 3962470, Email: RollerHI@aol.com

Approving

Agency: State of Hawai'i Department of Land and Natural Resources, 1151 Punchbowl Street, Room 131, Honolulu, Hawai'i 96813. Contact: Sam Lemmo, (808) 587-0377, Fax: (808) 587-0322

Consultant: Anchor QEA, L.P., 26300 La Alameda, Suite 240, Mission Viejo, California 92691. Contact: Michael Whelan, (949) 347-2780, Fax: (949) 334-9646, Email: mwhelan@anchorqea.com

Status: Finding of No Significant Impacts (FONSI) Determination

Dredging within the marina and entrance channel will likely cause a temporary increase in turbidity in the immediate vicinity of dredging operations. A Water Quality Management Plan (WQMP) will be developed for the project and standard best management practices (BMPs) will be used to minimize dispersion of suspended sediments during the dredging.

The placement of dredged material at Maunalua Bay Beach Park and Portlock Beach may temporarily increase turbidity immediately adjacent to the nourishment site. Turbidity is expected to be minimal, because the sediment proposed for beach nourishment is coarse sand with few fines.

The assessment of biological resources and water quality suggests that the project will result in only temporary, minimal impacts to the environment. The report also suggests that the proposed dredge areas support relatively depauperate communities, including many nonnative species. It is anticipated that the soft bottom benthic communities disrupted by dredging operations will be recolonized quite rapidly from neighboring areas without any long-term impacts.

The draft biological resources report also concludes that no endangered or threatened species, or species proposed for listing, will be adversely affected by the project. In addition, the report states that no impacts to live corals or sea-grasses are expected to result from the project.

KAUA'I NOTICES (HRS 343)

8. Kīlauea Agricultural Park FEA (FONSI)

Island: Kaua'i
District: Kīlauea
TMK: (4) 5-2-004:099
Permits: Conservation Plan, Well Construction/Pump Installation Permits, Noise Permit, National Pollutant Discharge Elimination System Permit, Use Permit, Special Management Area Permit, Roadway Access, Ministerial Permits (building, plumbing, electrical permits)

Proposing/Determination

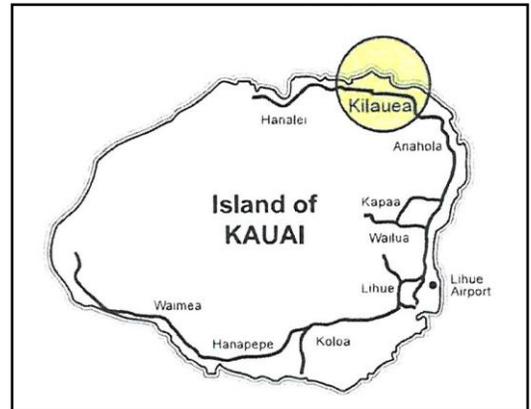

Agency: Office of Economic Development, County of Kaua'i, 4444 Rice Street, Suite 200, Līhu'e, Hawai'i 96766.

Contact: George K. Costa, (808) 241-4949

Consultant: R.M. Towill Corporation, 2024 North King Street, Suite 200, Honolulu, HI 96819.
Contact: Brian Takeda, (808) 842-1133

Status: Finding of No Significant Impacts (FONSI) Determination

The Kīlauea Agricultural Park is an approximately 75 acre site comprised of 14 farm lots, and space for a Sunshine Market, community gardens, energy farm, and compost/recycle/farm equipment storage. The proposed project will not cause any irrevocable loss of natural or cultural resources. The project is reintroducing farming uses to a site which formerly was in pineapple cultivation. A management plan will be formulated in coordination with the U.S. Fish and Wildlife Service to minimize potential negative

effects to nēnē and endangered water birds. Woody vegetation will not be cleared between May 15 and July 15 when Hawaiian hoary bats may be carrying their young. No adverse effects to archaeological or historical sites will result from the project. The project will provide short term employment opportunities during construction and increase the supply of agricultural lots to small scale farmers. During construction, there will be minor impacts to air quality and noise levels. The project is not located in an environmental sensitive area such as a tsunami zone, beach, or erosion-prone area, geologically hazardous land, estuary, freshwater or coastal area. Potential effects related to erosion will be mitigated by the implementation of BMPs. A Soil Conservation Plan will be implemented to address long term erosion impacts. There is no further commitment to a larger action.

COASTAL ZONE MANAGEMENT NOTICES

Special Management Area (SMA) Minor Permits

The SMA Minor permits below have been approved or are pending approval (HRS 205A-30). For more information, contact the county/state Planning Department. Honolulu (523-4131); Hawai'i (961-8288); Kaua'i (241-6677); Maui (270-7735); Kaka'ako or Kalaeloa Community Development District (587-2841).

Federal Consistency Reviews

The Hawai'i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai'i Revised Statutes.

This public notice is being provided in accordance with section 306(d)(14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call John Nakagawa with the Hawai'i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lāna'i & Moloka'i: 468-4644 x72878, Kaua'i: 274-3141 x72878, Maui: 984-2400 x72878 or Hawai'i: 974-4000 x72878. For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review. Comments may be submitted by mail, electronic mail or fax, as indicated below.

Mail: Office of Planning
Department of Business, Economic Development and Tourism
P.O. Box 2359
Honolulu, Hawai'i 96804

Email: jnakagaw@dbedt.Hawaii.gov

Fax: (808) 587-2899

1. Hanapepe Flood Control Project Repairs

Federal Action: Federal Agency Activity
Federal Agency: U.S. Army Corps of Engineers, Honolulu District
Contact: Ms. Jacqueline Conant, (808) 438-0881
Location: Hanapepe River, Kaua'i
CZM Contact: John Nakagawa, (808) 587-2878, jnakagaw@dbedt.Hawaii.gov

Proposed Action: Repair the earthen levee, toe structures, and appurtenant access road of the Hanapepe Flood Control Project (FCP), which is a federally authorized and constructed levee system that was built in 1966. The FCP was initially damaged during a 2008 storm event and further damage was caused by additional storm events. Damages to be repaired include erosion of the right bank structure and the associated access road.

Comments Due: July 7, 2011

2. Hawaiian Monk Seal Critical Habitat Revision

Federal Action: Federal Agency Activity
Federal Agency: National Marine Fisheries Service (NMFS)
Contact: Ms. Jean Higgins, (808) 944-2157
Location: Northwestern Hawaiian Islands and Main Hawaiian Islands
CZM Contact: John Nakagawa, (808) 587-2878, jnakagaw@dbedt.Hawaii.gov

Proposed Action: NMFS is proposing to revise the Hawaiian monk seal critical habitat by extending the current designation in the Northwestern Hawaiian Islands out to the 500-meter depth contour and including Sand Island at Midway Islands; and by designating six new areas in the main Hawaiian Islands (MHI). Specific areas proposed for the MHI include terrestrial and marine habitat from 5-meters inland from the shoreline extending seaward to the 500-meter depth contour around: Kaula Island, Ni'ihau, Kaua'i, O'ahu, Maui Nui (including Kahoolawe, Lāna'i, Maui, and Moloka'i), and Hawai'i. There are portions of the areas that have been identified as not included in the designation. Once critical habitat is designated, federal agencies would be required to comply with the Endangered Species Act, section 7, to insure that any actions they carry out, permit or fund will not result in the destruction or adverse modification of critical habitat. The following categories of activities have been identified as potentially having an effect on Hawaiian monk seal critical habitat: in-water and coastal construction; dredging and disposal of dredged material; energy development (renewable energy projects involving offshore and coastal development); activities that generate water pollution; aquaculture; fisheries; oil spills and vessel groundings response; military activities. These and other relevant activities may need to be modified if they are funded, permitted,

or carried out by a federal agency and conducted in such a manner or location that they may result in effects on designated critical habitat for Hawaiian monk seals. The NMFS proposed rule can be viewed at: http://www.fpir.noaa.gov/PRD/prd_critical_habitat.html.

Comments Due: July 7, 2011

3. U.S. Coast Guard Remote Fixed Facility at Kamehame Ridge

Federal Action: Federal Agency Activity
Federal Agency: U.S. Coast Guard
Contact: Ms. Sherrill Thompson, (202) 538-5012
Location: Kamehame Ridge, 0.4 mile south of Waimanalo Beach, O'ahu
TMK: (1) 4-1-14: 16
CZM Contact: John Nakagawa, (808) 587-2878, inakagaw@dbedt.Hawaii.gov

Proposed Action: The U.S. Coast Guard (USCG) is proposing to enhance coastal communications capability and reduce coverage gaps in marine communications used for USCG operational missions including search and rescue, maritime law enforcement, maritime pollution prevention and response, and national defense. The new system, known as "Rescue 21", will be the maritime equivalent of a "9-1-1" communications system, enhancing maritime safety by minimizing the time expended searching for mariners in distress. A communications tower site, or Remote Fixed Facility (RFF), is proposed for Kamehame Ridge on land owned by the Department of Hawaiian Homelands (DHHL), which is an existing telecommunications facility that currently includes towers, shelters, and equipment, owned by various companies. The DHHL will be co-locating their equipment onto the proposed RFF. The proposed RFF will involve: constructing a 90-foot monopole (with lightning rod 102-feet) on an existing concrete pad; installing a top mounted Direction Finder and three antennas; installing an 8-foot x 12-foot equipment shelter, a 20kW emergency backup generator, a 300 gallon belly fuel tank with six surrounding bollards; installing a 15-foot underground telecommunications line; and installing a 50-foot underground power line.

Comments Due: July 7, 2011

CONSERVATION DISTRICT USE PERMITS

Persons interested in commenting on the following Conservation District Use Applications or interested in receiving notification of determinations on Conservation District Use Applications must submit comments and requests to the Department of Land and Natural Resources. Notification requests must include the following information: 1) Name and address of the requestor; 2) The application for which the requestor would like to receive notice of determination; and 3) The date the notice was initially published in the Environmental Notice. Send comments and requests to: Department of Land and Natural Resources, Office of Conservation and Coastal Lands, P.O. Box 621, Honolulu, HI 96809. DLNR will make every effort to notify those interested in the subject CDUAs. However, DLNR is not obligated to notify any person not strictly complying with the above requirements. For more information, please contact the Office of Conservation and Coastal Lands (OCCL) staff listed for each project.

Fukumoto Engineering, Inc./ Point Cuban, LLC c/o Don Nelson	2-6-008:009
MA-474	Proposed Shoreline Certification	Lot 47 of Waiohuli-Keokea Beach Lots, 2nd Series situate at Waiohuli-Keokea, Kula, Kihei, Maui Address: 1724 Halama Street Purpose: Determine shoreline setback	Ronald M. Fukumoto Engineering, Inc./ Rixey Family LLC	3-9-011:003
MA-475	Proposed Shoreline Certification	"Hale Hui Kai Condominium" being all of Grant 13225 to Y. Watanabe and a portion of Grant 1959 to Mahi situate at Kama'ole, Wailuku, Maui Address: 2994 South Kihei Road Purpose: N/A	Akamai Land Surveying, Inc./ Hale Hui Kai	3-9-004:025
KA-345	Proposed Shoreline Certification	Lot 1 "Spouting Horn Tract" situate at Koloa, Kaua'i Address: 4546 Lāwa'i Road Purpose: Determine building setback line	Anthony Crook/ Donald Hill	2-6-003:006

KA-346	Proposed Shoreline Certification	Lot 9 of Wainiha Subdivision II as shown on File Plan No. 1840 situate at Wainiha, Halelea, Kaua'i Address: 7324 Alealea Road Purpose: Building permit for construction of electric meter pedestal and fire escape	Peter Taylor Engineer and Land Surveyor, Inc./ Gary Fischer	5-8-009:048
OA-1416	Withdrawn	Lot 1188 of Land Court Application 677, Map 301 situate at Kailua, Ko'olaupoko, O'ahu Address: 59 Kailuana Place Purpose: Development of property	Dennis K. Hashimoto/ 59 Kailuana Place LLC	4-3-022:018

POLLUTION CONTROL PERMITS

Below are some pollution control permits before the State Department of Health (HRS 342B and HAR 11-60.1). For more information, contact the number given.

Branch Permit Type	Applicant and Permit Number	Project Location	Pertinent Date	Proposed Use
Clean Air Branch, 586-4200, Covered Source Permit	Waste Management of Hawai'i, Inc. Initial Application No. 0653-02 CSP No. 0653-02-C	Located at: 71-1111 Queen Kaahumanu Hwy., Waikoloa, Hawai'i	Issued: 5/31/11	Crushing and Screening Plants
Clean Air Branch, 586-4200, -Non-Covered Source Permit	Samson Trucking, Inc. Application for Initial Permit No. 0735-01 NSP No. 0735-01-NT	Located at: Various Temporary Sites	Issued: 6/3/11	176 TPH Portable Screening Plant

FEDERAL NOTICES

Maritime Administration Offer for Public Sale of Two High Speed Vessels

The Maritime Administration of the U. S. Department of Transportation is offering for public sale, on an "as is, where is" basis, two fast ferry vessels, ALAKAI, Official Number 1182234, and HUAKAI, Official Number 1215902. Bids may be submitted on or before 5 p.m. July 20, 2011. For additional details, please contact Mr. David Heller, Office of Shipyards and Marine Engineering, Maritime Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590. Telephone: (202) 366-1850; or e-mail David.Heller@dot.gov. Copies of this notice may also be obtained from that office. An electronic copy of this document may be downloaded from the *Federal Register's* home page at: <http://www.archives.gov> and the Government Printing Office's database at: <http://www.access.gpo.gov/nara> (see, 76 FR 35942, June 20, 2011).

Notice of Availability of a Pest Risk Analysis for Interstate Movement of Rambutan from Puerto Rico

The Animal and Plant Inspection Service (APHIS) of the U. S. Department of Agriculture has prepared a pest risk analysis that evaluates the risks associated with the interstate movement into the continental United States of fresh rambutan fruit from Puerto Rico. Based on that analysis, APHIS believes that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the interstate

movement of rambutan from Puerto Rico. APHIS is making the pest risk analysis available to the public for review and comment, and APHIS will consider all comments that we receive on or before August 15, 2011. Submit comments to Docket No. APHIS-2011-0037, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2011-0037> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming. For additional details please contact Mr. Philip Grove, Regulatory Coordinator, PPD, APHIS, 4700 River Road Unit 156, Riverdale, MD 20737-1231; (301) 734-6280 (see, 76 FR 35186, June 16, 2011).

Endangered Plants and Wildlife; Receipt of Application for Enhancement of Survival Permit

In accordance with the requirements of the Endangered Species Act of 1973, as amended (Act), the U.S. Fish and Wildlife Service (Service), invites the public to comment on applications for permits to conduct enhancement of survival activities with endangered species. To ensure consideration, please send your written comments by July 8, 2011. Comments can be sent to the Endangered Species Program Manager, Ecological Services, U.S. Fish and Wildlife Service, 911 NE 11th Avenue, Portland, OR 97232-4181. For additional details, please contact Mr. Grant Canterbury, Fish and Wildlife Biologist, at the above address or by telephone (503-231-6131) or fax (503-231-6243). The following applicant has applied for a recovery permit to conduct certain activities with endangered species under section 10(a)(1)(A) of the Act (16 U.S.C. 1531 *et seq.*). The Service is soliciting review of and comments on the application by local, State, and Federal agencies, and the public.

Permit No. TE-043638

Applicant: Directorate of Public Works, U.S. Army, Schofield Barracks, Hawai'i. The permittee requests a permit amendment to take (collect for captive propagation, collect genetic samples, and reintroduce or translocate) Oahu tree snails (*Achatinella* spp.) on O'ahu Island, Hawai'i, in conjunction with life/history studies for the purpose of enhancing their survival. This permit currently covers more limited take (capture, mark, release, and salvage) of the O'ahu tree snails, as well as take of the Hawaiian picture-wing flies (*Drosophila aglaia*, *D. hemipeza*, *D. montgomeryi*, *D. obatai*, *D. substenoptera*, and *D. tarphytrichia*) and O'ahu elepaio (*Chasiempis sandwichensis ibidis*), and removal and reduction to possession of *Chamaescyce herbstii* (akoko), *Hesperomannia arbuscula* (no common name), *Hedyotis coriacea* (kio'ele), *Phyllostegia kaalaensis* (no common name), and *Schiedea kaalae* (no common name), for which notices were originally published in the *Federal Register* on July 20, 2005 (70 FR 41786), August 6, 2006 (71 FR 47242), November 16, 2007 (72 FR 64665), and June 17, 2008 (73 FR 34312) (see, 76 FR 33336, June 8, 2011).

ENVIRONMENTAL COUNCIL NOTICE

Please note that starting immediately, official electronic comment and testimony on Environmental Council matters should be sent to environmental.council@doh.hawaii.gov with the subject line marked "Environmental Council Comment/Testimony".

GLOSSARY

Agency Actions

Any department, office, board, or commission of the state or county government which is part of the executive branch of that government per [HRS 343-2](#).

Applicant Actions

Any person who, pursuant to statute, ordinance, or rule, requests approval for a proposed action per [HRS 343-2](#).

Draft Environmental Assessment

When an Agency or Applicant proposes an action that [triggers](#) [HRS 343](#), an Environmental Assessment shall be prepared at the earliest practicable time to determine whether an environmental impact statement shall be required per [HRS 343-5\(b\)](#), for Agency actions and [HRS 343-5\(c\)](#), for Applicant actions. For environmental assessments for which a Finding of No Significant Impact is anticipated, a Draft EA (DEA) shall be made available for public review and comment for 30 days and public notice is published in this periodic bulletin per ([HRS 343-3](#)), also known as The Environmental Notice.

Final Environmental Assessment and Finding of No Significant Impact

The Agency shall respond in writing to comments received during the review and prepare a Final EA (FEA) to determine whether an environmental impact statement shall be required. The FEA must respond to all public comments. If there are no significant impacts, then the Agency will issue a Finding of No Significant Impact (FONSI). An Environmental Impact Statement will not be required and the project may then be implemented. The public has 30 days from the notice of a FONSI in this bulletin to ask a court to require the preparation of an EIS.

Final Environmental Assessment and Environmental Impact Statement Preparation Notice

An EIS shall be required if the Agency finds that the proposed action may have a significant effect on the environment. The Agency shall file notice of such determination with OEQC, called an EIS Preparation Notice (EISPN). After the notice of the EISPN is published in this bulletin, the public has 30 days to request to become a consulted party and make written comments. The public (including the Applicant) has 60 days from the notice of the EISPN in this bulletin to ask a court to not require the preparation of an EIS.

Draft Environmental Impact Statement

After receiving the comments on the EISPN, the Agency or Applicant must prepare a Draft Environmental Impact Statement (DEIS). The [content requirements](#) of the DEIS shall contain an explanation of the environmental consequences of the proposed action including the direct, indirect and cumulative impacts and their mitigative measures. The public has 45 days from the first publication date in this bulletin to comment on a DEIS. The DEIS must respond to comments received during the EISPN comment period in a point-by-point manner.

Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the Agency or Applicant must prepare a [Final EIS](#) (FEIS). The FEIS must respond in a point-by-point manner to all comments from the draft and must be included in the FEIS. See here for [style](#) concerns. For Applicant projects, the Approving Agency is authorized to accept the FEIS. For an Agency project, the Governor or the Mayor (or their designated representative) is the Accepting Authority. Only after the FEIS is accepted may the project be implemented.

Acceptability

If the FEIS is [accepted](#), notice of this action is published in this bulletin. The public has 60 days from the date of notice of acceptance to ask a court to vacate the acceptance of a FEIS. For Applicant actions, the Approving Agency must make a determination on acceptance within 30 days of receipt of the FEIS or the FEIS is deemed accepted. For Applicant actions, the law provides for an administrative appeal of a non-acceptance to the Environmental Council.

National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare an EA or EIS. In many ways it is similar to Hawai'i's law. Some projects require both a State and Federal EIS and the public comment procedure should be [coordinated](#). OEQC publishes NEPA notices in this bulletin to help keep the public informed of important federal actions.

Conservation District

Any use of land in the State Conservation District requires a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources. Members of the public may intervene in the permit process. Notices of permit applications are published in this bulletin.

Special Management Area and Shoreline Setback Area

The Special Management Area (SMA) is along the coastline of all islands and development in this area is generally regulated by [HRS 205A](#), and county ordinance. A special subset of the SMA that is regulated by [HRS 343](#), is the [Shoreline Setback Area](#). Most development in this area requires a Special Management Permit. This bulletin posts notice of these SMA applications to encourage public input.

Shoreline Certifications

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback from the certified shoreline. The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This bulletin publishes notice from the Department of Land and Natural Resources of shoreline certification applicants and final certifications or rejections.

Environmental Council

The [Environmental Council](#) is a 15-member citizen board appointed by the Governor. They serve as a liaison between the Director of OEQC and the general public concerning ecology and environmental quality. The Council makes the rules that govern the Environmental Impact Statement process ([HRS 343](#)). [Agendas](#) of their regular meetings are posted on the Internet and the public is invited to attend.

Exemption Lists

Government agencies must keep a list describing the minor activities they regularly perform that are [exempt](#) from the environmental review process. These lists and any amendments shall be submitted to the Council for review and concurrence ([HAR 11-200-8\(d\)](#)). This bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

Endangered Species

This bulletin is required by [HRS 343-3\(c\)](#), to publish notice of public comment periods or public hearings for Habitat Conservation Plans (HCP), Safe Harbor Agreements (SHA), or Incidental Take Licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).
