

THE ENVIRONMENTAL NOTICE

A semi-monthly periodic bulletin published by the Office of Environmental Quality Control pursuant to Section 343-3, Hawai'i Revised Statutes
May 23, 2012

OPEN HOUSE PUBLIC MEETINGS FOR NEPA DEIS/OEIS FOR NAVY MILITARY READINESS AND TRAINING AND TESTING ACTIVITIES IN HAWAI'I AND SOUTHERN CALIFORNIA

Pursuant to the National Environmental Policy Act (NEPA), the Navy has issued a Draft Environmental Impact Statement (DEIS)/Overseas Environmental Impact Statement (OEIS) to conduct military readiness and training and testing activities within: (1) existing range complexes and operating areas located in the waters around the Hawaiian Islands and off the coast of Southern California; (2) pier-side locations in both areas; and (3) a transit corridor connecting the Hawai'i and Southern California range complexes. These activities include the use of active sonar and explosives. The purpose of the proposed action is to conduct military training and testing activities to ensure the Navy accomplishes its mission to maintain, train, and equip combat-ready U.S. naval forces capable of winning wars, deterring aggression and maintaining freedom of the seas. There will be open house public meetings in Hawai'i at the following locations, dates and times:

- Lihu'e, Kaua'i – June 12, 2012, Wilcox Elementary School Cafeteria, 4319 Hardy Street, 5 p.m. to 8 p.m.
- Kahului, Maui – June 13, 2012, Maui Waena Intermediate School Cafeteria, 795 Onehe'e Avenue, 5 p.m. to 8 p.m.
- Hilo, Hawai'i – June 14, 2012, East Hawai'i Cultural Center, 141 Kalākaua Street, 5 p.m. to 8 p.m.
- Honolulu, O'ahu – June 15, 2012, McKinley High School Cafeteria, 1039 S. King Street, 5 p.m. to 8 p.m.

Federal, State and local agencies and officials, interested groups and individuals are encouraged to provide oral comments in person at any of the public meetings or in writing anytime during the public comment period. Oral testimony from the public will be recorded by a court reporter. In the interest of available time, and to ensure all who wish to give an oral statement to the court reporter have the opportunity to do so, each speaker's comments will be limited to three (3) minutes, which may be extended if meeting attendance permits. Comments may also be submitted via the U.S. Postal Service to Naval Facilities Engineering Command, Southwest, Attention: HSTT EIS/OEIS Project Manager—EV21.CS; 1220 Pacific Highway, Building 1, Floor 3, San Diego, CA 92132–5190 or electronically via the project Web site (<http://www.HSTTEIS.com>). All statements oral or written, submitted during the public review period will become part of the public record on the Draft EIS/OEIS and will be responded to in the Final EIS/OEIS. Equal weight will be given to oral and written statements. All public comments must be postmarked or received by July 10, 2012 to ensure they become part of the official record.

For Further Information Contact: Naval Facilities Engineering Command, Southwest, Attention: HSTT EIS/OEIS Project Manager EV21.CS; 1220 Pacific Highway, Building 1, Floor 3, San Diego, CA 92132–5190 (see, 77 F.R. 27744, May 11, 2012).

HAWAI'I (HRS 343)

1. Ka'ū Forest Reserve Management Plan DEA-AFONSI

Island: Hawai'i
District: Ka'ū
TMK: (3rd) 9-7- 001:001, 009, 013, 014, 015, 016, 017, 018, 019, 020, 021, 022; 9-6-006:009, 010, 015, 018; and 9-5-015:003 (por.)
Permits: Board of Land and Natural Resources approval; HRS Chapter 6e, Historic Sites approvals.

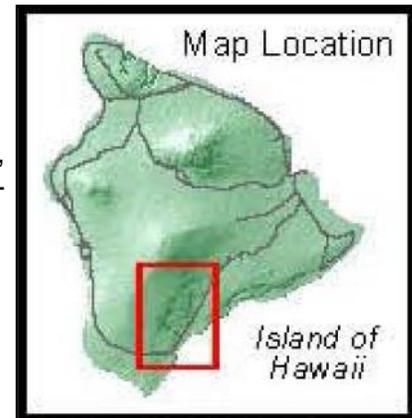

Proposing/Determination

Agency: Department of Land and Natural Resources, Division of Forestry and Wildlife, 1151 Punchbowl Street, Room 13, Honolulu, HI 96813.

Contact: Tanya Rubenstein, (808) 587-0027

Consultant: Geometrician Associates, P.O. Box 396, Hilo, HI 96721. Contact: Ron Terry, (808) 969-7090

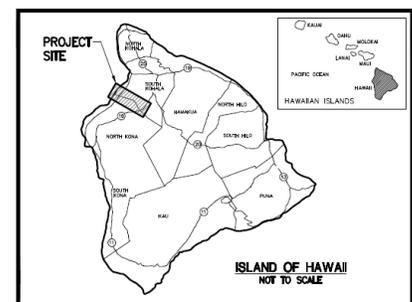

Status: Anticipated Finding of No Significant Impact. 30-day comment period begins; comments are due on June 22, 2012. Send comments to the Proposing Agency and the Consultant

The Department of Land and Natural Resources, Division of Forestry and Wildlife (DOFAW), is preparing a management plan for the 61,641-acre Ka'ū Forest Reserve. The Plan responds to a need to maintain and restore key watershed, preserve a unique ecosystem with critically endangered plants and animals, perpetuate natural resources vital to Hawaiian culture and practices, find a suitable site to reintroduce 'Alalā or Hawaiian Crow into the wild, and provide for continued and expanded public use. Common to all three alternatives under consideration is construction of 12,000 acres of new fenced management units in the upper elevation central portions of the Reserve in which ungulates will be removed and the native forest protected. Field surveys would be conducted to identify locations for the planned fence alignments, and final fence alignments would be sited to avoid any impacts to botanical, faunal, and archaeological resources. Fences would include walkovers and gates to ensure public access into management units. Other actions include weed monitoring and control, trail and access improvements for hunters and hikers, out planting of rare plant species, cooperation with water source users, and actions to foster reintroduction and survival of the 'Alalā. Impacts to pig hunting, which is considered by many to be a cultural practice, would occur but be less than significant because of the proposed locations of management areas. DOFAW seeks to balance providing public hunting opportunities in the Reserve with the protection of native ecosystems and watersheds, and the Plan includes actions to substantially facilitate public hunting in the Reserve.

2. Saddle Road Extension: Mamalahoa Highway (State Route 190) to Queen Ka'ahumanu Highway (State Route 19) FEA-EISPN

Island: Hawai'i
District: South Kohala/North Kona
TMK: (3rd) 6-8-001:005, 066, 067; 6-8-002:013, 014, 015; 7-1-003:001
Permits: Federal: Clean Water Act Section 404 Permit*; Section 106 NHPA concurrence; Section 7 ESA concurrence. State: Clean Water Act Section 401 Water Quality Certification*, Stream Channel Alteration Permit*; Historic Sites Review, State Highways Permit, National Pollutant Discharge Elimination System Permit, Coastal Zone Management Consistency. County: Grading, Grubbing, Excavating and Stockpiling Permits; Subdivision Approval (* = not yet determined)

Proposing

Agency: Hawai'i Department of Transportation, Highways Division, Hawai'i District, 869 Punchbowl, Street, Rm. 301, Honolulu, Hawai'i 96813. Contact: Dean Yanagisawa, (808) 587-1834

Approving

Authority: Governor, State of Hawai'i, c/o Office of Environmental Quality Control

Status: Environmental Impact Statement Preparation Notice (EISPN) Determination. 30-day comment period begins; comments are due on June 22, 2012. Send comments to the Proposing Agency and the Consultant

The State of Hawai'i Department of Transportation, in cooperation with the Federal Highway Administration, Hawai'i Division, proposes an arterial connector highway between Māmalahoa Highway, State Route (SR) 190, and Queen Ka'ahumanu Highway (SR 19). The eastern terminus of the proposed highway would be at the junction where the realigned Saddle Road (SR 200) meets SR 190, near Milepost 13. The western terminus would be at the junction of SR 19 and Waikoloa Beach Drive. The purpose and need of the Saddle Road Extension project are to: 1) improve the efficiency and operational level of traffic movement between East and West Hawai'i, particularly for traffic on the realigned Saddle Road; 2) improve safety; and 3) support special needs of commercial truck traffic and military traffic.

MAUI (HRS 343)

3. Waikamoi Flume Replacement Project DEA-AFONSI

Island: Maui

District: Makawao and Hana

TMK: (2) 2-3-005:004 and 025 (pors.), (2) 2-4-015:029 (por.), and (2) 2-4-016:001, 002, 003, and 004 (pors.)

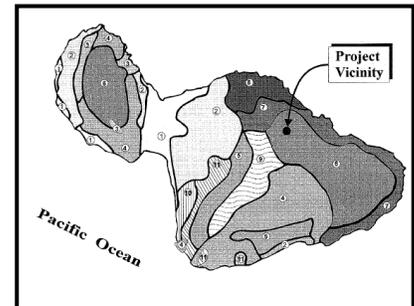

Permits: Conservation District Use Permit (Departmental Permit)

Proposing/ Determination

Agency: County of Maui, Department of Water Supply, 200 South High Street, 5th Floor, Wailuku, Hawai'i 96793.
Contact: Thomas Ochwat, (808) 270-7835

Consultant: Munekiyo & Hiraga, Inc., 305 High Street, Suite 104, Wailuku, Hawai'i 96793.
Contact: Mark Alexander Roy, (808) 244-2015

Status: Anticipated Finding of No Significant Impact. 30-day comment period begins; comments are due on June 22, 2012. Send comments to the Proposing Agency and the Consultant

The County of Maui, Department of Water Supply (DWS) proposes the replacement of the existing Waikamoi Flume which is situated within the Ko'olau Forest Reserve in East Maui. The flume stretches approximately 1.1 miles from its intake at Haipua'ena Stream in the east to its termination in the vicinity of Waikamoi Stream in the west. The subject project will affect a corridor of land approximately 1.1 miles long by 30 feet wide.

As an integral component of the DWS Upper Kula System, freshwater conveyed by the Waikamoi Flume provides irrigation and domestic potable water to the residents of Kula, Waiakoa, Keokea, Ulupalakua, and Kanaio in Upcountry Maui. The existing flume consists of a redwood box section that measures 2 feet wide by 13 inches deep. Redwood timber bridges support the flume over gulches and gullies where abrupt changes in ground elevation preclude maintaining a constant slope for the flume. Continuous weathering of the timbers over the years has resulted in substantial leakages along the flume's entire length, and the bridges have become dangerous for maintenance personnel to traverse.

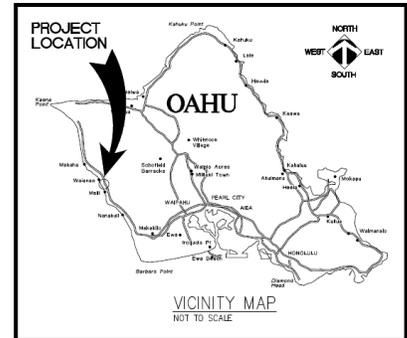

The purpose of this project is (1) to provide an aluminum replacement flume that will increase system efficiency by eliminating leakages and (2) to give maintenance workers a safe platform for accessing the flume along its entire length. Construction-related improvements include re-graveling portions of the existing access road and the establishment of a temporary construction staging area.

Applicable triggers for the preparation and processing of an Environmental Assessment (EA), pursuant to Chapter 343, Hawai'i Revised Statutes (HRS) include the use of the Conservation District, State and County funds, and State and County lands.

O'AHU (HRS 343)

4. Bayview Street Relief Drain Project FEA-FONSI

Island: O'ahu
District: Wai'anae
TMK: Portions of 8-5-08: 35, 36, 43, 44, 45, 49, and 8-5-01:62
Permits: May require Department of Health (DOH), Section 401, Clean Water Act, Water Quality Certification; DOH Noise Permit; DOH Community Noise Permit; National Pollutant Discharge Elimination System (NPDES) permit from DOH; City and County of Honolulu, Department of Planning and Permitting (DPP), Grading and Trenching construction permits; DPP Traffic Review Branch approval of traffic control plan; Department of Parks and Recreation approval for work within Pōka'i Bay Beach Park; May require Army Corps of Engineers, Department of Army Permit, Section 404, Clean Water Act; Notification and reporting of any changes to the inventory of stormwater outlets under the City and County municipal stormwater permit (NPDES Permit No. HI S000002)

Proposing/ Determination

Agency: City and County of Honolulu, Department of Design and Construction, 650 South King Street, 15th Floor, Honolulu, Hawai'i 96813. Contact: Gary Kam, (808)768-8819
Consultant: Bow Engineering & Development, Inc., 1953 S. Beretania Street, PH-A, Honolulu, Hawai'i 96826. Contact: Ezra Lum, 808-941-8853 ext. 114
Status: Finding of No Significant Impact (FONSI) Determination

The City and County of Honolulu Department of Design and Construction plans to construct storm drainage improvements between Farrington Highway and Pōka'i Bay in Wai'anae on the Leeward side of O'ahu. The proposed drainage improvements would replace a portion of an existing drainage system that currently serves the area around Bayview Street and a portion of Wai'anae Valley Road. The existing drainage system has inadequate capacity to service the project area, and residents in the area have documented flooding problems. The proposed drainage improvements would increase the drainage system capacity with the use of High Density Polyethylene Pipes (HDPE) and concrete drain boxes of varying sizes. The proposed improvements would occur predominantly along the previous alignment along existing right-of-way, though more extensive trenching would be required to accommodate the larger pipes.

In February 2005, a Draft Environmental Assessment was issued for environmental review of an alternate alignment that would redirect drainage to an existing unlined drainage channel, which discharges south of Pōka'i Bay and Kāne'ilio Point and has been in service for over 20-years with an established National Pollutant Discharge Elimination System (NPDES) permit. To minimize potential impacts to unknown historic or cultural remains, the current Bayview Street Relief Drain Project would construct the drainage improvements along the existing alignment.

The environmental impacts of the proposed alignment are not expected to be significant with implementation of appropriate mitigation measures. Construction activities are anticipated to have short-term noise, erosion, traffic, and air quality impacts in the surrounding area. Compliance with State and City and County rules and regulations would minimize these construction-related impacts. Potential impacts to cultural resources would be minimized with implementation of mitigation. No significant long-term effects from project implementation are anticipated.

5. Pali Golf Course Maintenance Facility FEA-FONSI

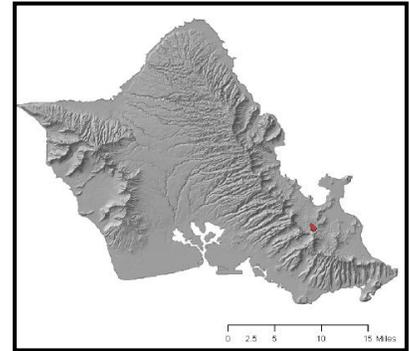

Island: O'ahu
District: Ko'olaupoko
TMK: (1) 4-5-035:001
Permits: Conservation District Use Permit; NPDES Permit;
Building Permit; Grading Permit

Proposing/Determination

Agency: City and County of Honolulu, Department of Design and Construction, 650 S. King Street, 11th Floor, Honolulu, Hawai'i 96813. Contact: Anthony Macawile, (808) 768-8404

Consultant: Wil Chee – Planning & Environmental, 1018 Palm Drive, Honolulu, HI 96814. Contact: Celia Shen, (808) 596-4688

Status: Finding of No Significant Impact (FONSI) Determination

The Proposed Action is to construct three maintenance and storage buildings, as well as a small parking area for golf course maintenance vehicles at the Pali Golf Course. The maintenance buildings will be used for vehicle storage, fuel storage, maintenance equipment storage, equipment supply storage, irrigation supply storage, fertilizer and pesticide storage, equipment washing, and golf course maintenance administrative functions. The project is located within Pali Golf Course (immediately south of Hole 10), on the windward side of O'ahu.

The purpose of the Proposed Action is to provide new, modern maintenance facilities to replace existing, inadequate facilities and to relocate maintenance operations closer to the clubhouse and other golf course administrative functions. The project is needed to improve maintenance efficiency at the golf course. Currently, maintenance operations, vehicles, and equipment are housed in a run-down maintenance shed adjacent to Old Pali Road. The poor condition of current maintenance facilities is adversely affecting operations and the efficiency of course maintenance functions.

Based on information compiled and analyzed during preparation of the EA, the project is not expected to have any significant adverse impacts on the natural or man-made environment. Therefore, the City and County of Honolulu, Department of Design and Construction has issued a Finding of No Significant Impact (FONSI) for the Proposed Action; an Environmental Impact Statement will not be required.

6. Royal Hawaiian Market Place FEA-FONSI

Island: O'ahu
District: Honolulu
TMK: (1) 2-6-19:13 and 14
Permits: Waikiki Special District Permit (Major), Conditional Use Permit (Minor) for Joint Development, Surface Encroachment Variance, NPDES Permit (Construction Activities), Construction Noise Permit, Building and other Ministerial Permits

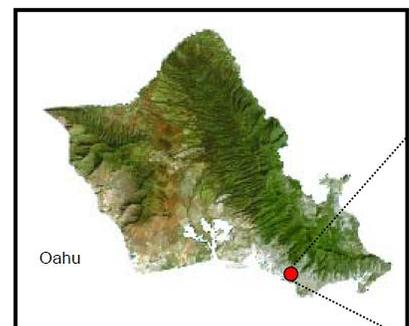

Applicant: Royal Hawaiian Market Place, Inc., 333 Royal Hawaiian Avenue, Honolulu, Hawai'i 96815. Contact: Tony D.H. Ji, (808) 921-2700

Approving

Agency: Department of Planning and Permitting, City and County of Honolulu, 650 South King Street, 7th Floor, Honolulu, Hawai'i 96813. Contact: Kiyomi Oyama, (808) 768-8034

Consultant: Roy K. Yamamoto Architect, AIA, Inc., 1580 Makaloa Street, Suite 788, Honolulu, Hawai'i 96814. Contact: Lorena Yamamoto, (808) 942-3666 ext. 16

Status: Finding of No Significant Impact (FONSI) Determination

The proposed action is to remove about 20 existing commercial kiosks and two access driveways and construction of a two-storey commercial building consisting of about 4,775 square feet of floor area on two jointly developed lots. The existing 218-square-foot, one storey structure on the corner of Lau'ula

Street and Royal Hawaiian Avenue will be retained and incorporated into the final development. A new driveway will be constructed to provide access for the required off-street loading stall. The project will comply with the appropriate Building Code and City and County of Honolulu rules and regulations for development within the described flood zones, and the project construction will proceed under archaeological monitoring program. Construction-related traffic, air, and noise impacts will be short-term in nature. No significant adverse impacts, cumulative impacts, and secondary impacts are anticipated from the proposed improvements.

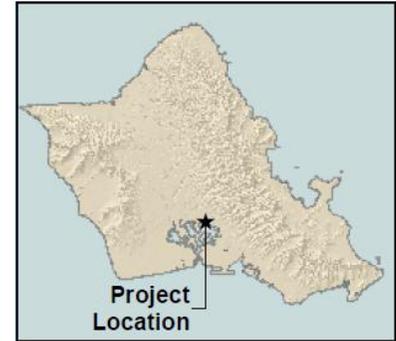

7. Waimalu Wastewater Pump Station Force Main DEA-AFONSI

Island: O'ahu

District: 'Ewa

TMK: The project area consists of the State right-of-way (ROW) on Kamehameha Highway between Waimalu Stream crossing and Kuleana Road, and extends approximately 30 feet beyond the State ROW within the Neal Blaisdell Park. The project area also includes the property boundary for the Waimalu Wastewater Pump Station.

Permits: Construction Plans Approval, Building Permit, Public ROW Permit to Excavate, Grubbing, Grading, and Stockpiling Permit, Special Management Area Permit, Construction Dewatering Permit, Right-of-Entry Permit, Street Usage Permit, Community Noise Permit for Construction Activities, Community Noise Variance, National Pollutant Discharge Elimination System (NPDES) Construction Dewatering Permit, NPDES Construction Stormwater Discharge, Construction Plan Approval and Use, Occupancy Agreement to Perform Work Upon a State Highway, Conformance with Accessibility Guidelines, and Environmental Assessment.

Proposing/Determination

Agency: City and County of Honolulu, Department of Design and Construction, Wastewater Division, 650 South King Street, Honolulu, Hawai'i 96813.
Contact: Jocelyn Okino, (808) 768-8796.

Consultant: AECOM, 1001 Bishop Street, Suite 1600, Honolulu, Hawai'i 96813.
Contact: Lambert Yamashita, (808) 529-7248.

Status: Anticipated Finding of No Significant Impact. 30-day comment period begins; comments are due on June 22, 2012. Send comments to the Proposing Agency and the Consultant

As part of the Force Main Spill Contingency Program under the 2010 Consent Decree between the United States Environmental Protection Agency (US EPA), State of Hawai'i, Department of Health (DOH), and the City and County of Honolulu (CCH), CCH is required to submit a plan describing how wastewater flows would be diverted from the Waimalu Wastewater Pump Station Force Main in the event of failure. The CCH Department of Environmental Services (ENV) is planning for the construction of a new force main to provide redundancy to allow for the rehabilitation and/or replacement of the existing air bleeder assembly to be in compliance with the 2010 Consent Decree.

Of the five alternatives discussed in the *Honouliuli/Waipahu/Pearl City Wastewater Facilities Plan, Design Alternatives Report*, the preferred alternative is Alternative 1B, which proposes to construct a new force main using horizontal directional drilling method for the FM extending west on the makai side of Kamehameha Highway within the Neal Blaisdell Park and the State right-of-way and a 45 degree bend across the Kuleana Road using pilot-tube micro tunneling (PTMT) method.

During construction, the project would result in temporary noise, air quality, and traffic impacts. These impacts would shift to different locations within the project area as each FM segment is completed. The degree of impacts for each technology—HDD and PTMT—would be generally comparable. There would be minimal disruption to sewer service. Major sources of noise include sheet pile driving, pavement saw cutting, operating pumps and generators, compaction equipment, and other construction equipment. There would not be significant odors during construction, as temporary bypass

lines would be provided, and sewage would generally not be exposed to the atmosphere. Construction work would likely result in fugitive dust. The air quality impacts would be temporary and would cease upon completion of the construction. Because the project area is within the public right-of-way, lane closures and traffic diversion would result in short-term impacts to Kamehameha Highway users. There are no known cultural activities in the project area.

8. Prospect Street Rockslide Mitigation Improvements FEA-FONSI

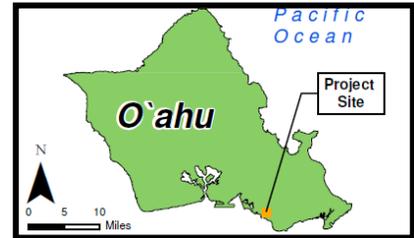

Island: O'ahu
District: Honolulu
TMK: 2-2-005:001
Permits: Special District Permit (Minor), Grading Permit, Trenching Permit

Proposing/ Determination

Agency: City & County of Honolulu, Department of Design & Construction, 650 South King Street, 11th Floor, Honolulu, Hawai'i 96813.
Contact: Michael Yee, 808-768-8833

Consultant: AECOM Technical Services, Inc. 1001 Bishop Street, Suite 1600, Honolulu, Hawai'i 96813-3920. Contact: Ardalan Nikou, 808-529-7223

Status: Finding of No Significant Impact (FONSI)

The City and County of Honolulu proposes the Rockslide Potential Inspection and Mitigative Improvements project to mitigate rockfall hazard along Prospect Street in order to reduce the threats to public health and safety by implementation of rockfall protection measures that would be installed within the City and County right-of-way. The existing slope has a multitude of potentially hazardous rocks, creating a high potential for rockfalls to reach the roadway. Rockfall mitigation is needed to reduce these identified risks to public health and safety for users along Prospect Street. The proposed action includes installing rockfall impact fences, concrete jersey barriers, draped wire mesh, and shoulder widening along Prospect Street.

To determine whether the Proposed Action would have a significant impact on the human, natural, or historic environments, the project, its anticipated direct and indirect effects, and the short-term, long-term, and cumulative impacts have been evaluated. Based on the discussion of impacts and mitigation measures contained in the EA and the evaluation of the significance criteria, it has been determined that the proposed project would not have a significant adverse impact on the environment. Therefore, a Finding of No Significant Impact has been issued.

KAUA'I (HRS 343)

9. Mānā Plain Wetland Restoration Project DEA-AFONSI

Island: Kaua'i
District: Waimea
TMK: (4) 1-2-2: portion 1
Permits: County of Kaua'i Grading Permit, County of Kaua'i Building Permit, US Fish and Wildlife Service Division of Migratory Birds Take Permit, NPDES Permit, Consultation with US Army Corps of Engineers, Consultation with State Historic Preservation Division, Section 7 Consultation with US Fish and Wildlife Service

Proposing/ Determination

Agency: State of Hawai'i, Department of Land and Natural Resources, Division of Forestry and Wildlife, 3060 Eiwa St. Room 306, Lihū'e, Hawai'i 96766.

Contact: Jason Vercelli (808) 241-3768

Consultant: AECOM Technical Services, Inc. 1001 Bishop Street, Suite 1600, Honolulu, Hawai'i 96813-3920. Contact: Ardalan Nikou, 808-529-7223

Status: Anticipated Finding of No Significant Impact. 30-day comment period begins; comments are due on June 22, 2012. Send comments to the Proposing Agency and the Consultant

The State of Hawai'i, Department of Land and Natural Resources, Division of Forestry and Wildlife (DOFAW) is proposing to restore native wetland and associated uplands on 105 acres of the Mānā Plains Forest Reserve. This project will restore managed wetlands on a portion of the historical "Mānā Swamp" and will provide additional habitat to enhance DOFAW's conservation and recovery efforts for the four endangered endemic Hawaiian waterbirds. Designated as a core wetland area in the Revised Recovery Plan for Hawaiian Waterbirds, this project will play an integral role in the recovery of endangered Hawaiian waterbirds. This project will also increase environmental education opportunities for local residents and visitors. These opportunities will focus on the natural and cultural resources of the Mānā Plain. The proposed action includes removing of non-native, invasive vegetation, contouring of wetland basins, installing a water delivery system, re-vegetating and seeding of native plants, and constructing a visitor center, pedestrian trails, interpretive signs, and a maintenance baseyard. The project is not expected to have negative direct, indirect, secondary or cumulative impacts on environmental resources. Best management practices and other measures will be implemented to reduce potential impacts.

NEPA NOTICES

10. Lyman Road Complex at Schofield Barracks Military Reservation Environmental Assessment and Draft Finding of No Significant Impact, O'ahu, Hawai'i

Island: O'ahu
District: Wahiawa
TMK: 77001001
Permits: NPDES

Proposing/Determination

Agency: United States Army Garrison, Hawai'i, Directorate of Public Works, Environmental Division (IMPC-HAW-PWE), 948 Santos Dumont Avenue, Wheeler Army Airfield, Schofield Barracks, Hawai'i 96857-5013. Contact: Dale Kanehisa (808) 656-5670

Status: The EA/Draft FNSI comment period ends June 22, 2012. Address comments to the Proposing Agency.

In accordance with the National Environmental Policy Act, the US Army Garrison, Hawai'i (Army) prepared an environmental assessment (EA) to assess the potential environmental and socioeconomic impacts associated with the proposed construction of the Lyman Road Complex at Schofield Barracks Military Reservation (SBMR), O'ahu, Hawai'i.

The proposed action would provide permanent, consolidated facilities at SBMR to support the Army's 25th Infantry Division (ID) operational mandate. The need for the proposed action is to provide facilities to support the mission objectives of the 25th ID in an effective and efficient manner. The proposed complex would be located along Lyman Road within SBMR, and would include barracks, battalion and brigade headquarters, company operating facilities, hardstands, parking structures, central plants, storage facilities and infrastructure upgrades.

Based on the information analyzed, the EA concludes that the proposed action would not result in any significant direct, indirect or cumulative impacts on the quality of the natural or human environment. Accordingly, the Army has prepared a Draft Finding of No Significant Impact (FNSI).

Copies of the EA and Draft FNSI are available for review at the Hawai'i State Library, Mililani Public Library, and Wahiawa Public Library. Copies can also be obtained by contacting Dale Kanehisa at 808-656-5670 or dale.kanehisa@us.army.mil. Written comments on the EA and Draft FNSI can be submitted to the Directorate of Public Works at the email address above or mailed to: Directorate of Public Works, Environmental Division (IMPC-

HAW-PWE), Attn: Ms. Dale Kanehisa, 948 Santos Dumont Avenue, Building 105, Wheeler Army Airfield, Schofield Barracks, Hawai'i 96857-5013.

11. Mokuhinia Ecosystem Restoration Project Public Scoping Meeting in Lahaina

Island: Maui
District: Lahaina
TMK: (2)4-6-007:2, (2)4-6-007:36, (2)4-6-007:37, (2)4-6-007:38
Proposing Agency: U.S. Army Corps of Engineers, Honolulu District, ATTN: CEPOH-PP-C, Building 230, Fort Shafter, Hawai'i 96858. Contact: Athline Clark, (808) 835-4032
Consultant: CH2M HILL, 1132 Bishop Street, Suite 1100, Honolulu, Hawai'i 96817. (808) 440-0275
Status: Notice of Public Scoping Meeting

The County of Maui and the U.S. Army Corps of Engineers (USACE) are currently conducting a feasibility study for the proposed Mokuhinia Ecosystem Restoration Project in the town of Lahaina on the island of Maui, Hawai'i. The purpose of the proposed project is to restore Loko o Mokuhinia, the large, spring-fed wetland that surrounded the ancient island of Moku'ula. The proposed project would restore the aquatic ecosystem functions and processes of Loko o Mokuhinia to the extent feasible, given the current development and alteration in the project area. As part of the feasibility study, USACE will evaluate the opportunities to conduct aquatic ecosystem restoration, consistent with the project goal and objectives and within the authority of the USACE Civil Works Program, and conduct an environmental assessment. The results of the feasibility study will be presented in a Feasibility Report and integrated Environmental Assessment (EA). As part of the planning process for the proposed Mokuhinia Ecosystem Restoration Project, USACE is seeking input from affected federal, state and local agencies; Native Hawaiian organizations, individuals and practitioners; and other interested private organizations and parties, consistent with the intent of the National Environmental Policy Act (NEPA), Section 106 of the National Historic Preservation Act (NHPA), and Hawai'i Revised Statutes (HRS) Chapter 343.

The public is invited to attend a scoping meeting on Wednesday, May 30, 2012 from 6:30 p.m. to 8:30 p.m. at the Lahaina Civic Center (1840 Honoapi'ilani Hwy., Lahaina, Maui, HI 96761). For more information, please contact Ms. Athline Clark, U.S. Army Corps of Engineers, Honolulu District, Bldg 230, Ft. Shafter, Hawai'i 96858-5440, (808)835-4032.

COASTAL ZONE MANAGEMENT NOTICES

Special Management Area (SMA) Minor Permits

The SMA Minor permits below have been approved or are pending approval (HRS 205A-30). For more information, contact the county/state Planning Department. Honolulu (523-4131); Hawai'i (961-8288); Kaua'i (241-6677); Maui (270-7735); Kaka'ako or Kalaeloa Community Development District (587-2840).

Location (TMK)	Description (File No.)	Applicant/Agent
Kaua'i: (5-5-001: 012)	Construct 6-foot High Wood Fence along Property Boundaries (SMA(M)-2012-22)	Nathan Hamar
Maui: (4-3-003: 015)	Removal of Unstable Soil (SM2 20120051)	Kahana Sunset AOA
Maui: Kihei (3-9-005: 026)	Transient Vacation Rental (TVR) Re-Roof and Install Voltaic Panels (SM2 20120052)	Nellie's on Maui, LTD
Maui: Kihei (3-9-012: 009)	Repair Current Residence (SM2 20120053)	Nicolaos Papadopoulos
Maui: Wailuku (3-2-020: 058)	Main Dwelling/Garage (SM2 20120054)	Carey Tanaka
Maui: Kapalua (4-2-001: 030)	Install Underground Pipes (SM2 20120055)	Satish K. Gholkar
Maui: Kapalua (4-2-001: 024)	Apartment Addition/Alteration (SM2 20120056)	Nicholas T. Wagner
Maui: Haiku (2-7-013: 076)	Construct Concrete Driveway (SM2 20120057)	Wilbur Wong, TR
Moloka'i: (5-3-009: 017)	Molokai General Hospital Therapy Pool (SM6 2012003)	Molokai General Hospital
O'ahu: Punalu'u (5-3-008: 001)	Installation of Emergency Generator (2012/SMA-13)	Verizon Wireless/Mike Beason

SHORELINE NOTICES

Shoreline Certification Applications

The shoreline certification applications above are available for review at the DLNR Offices on Kaua'i, Hawai'i, Maui, and Honolulu, 1151 Punchbowl Street, Room 220 (HRS 205A-42 and HAR 13-222-12). All comments shall be submitted in writing to the State Land Surveyor, 1151 Punchbowl Street, Room 210, Honolulu, HI 96813 and postmarked no later than 15 calendar days from the date of the public notice of the application. For more information, call Ian Hirokawa at 587-0420.

File No.	Date	Location	Applicant/Owner	TMK
OA-1494	5/4/12	Unit A of "61-637 Kamehameha Highway" as shown on Condominium Map 4869 situate at Kawailoa, Waialua, O'ahu Address: 61-237 Kamehameha Highway Unit A Purpose: Building setback requirement	Jaime F. Alimboyoguen/ Douglas Giannetti	6-1-003:024 & 042 CPR 1
MA-510	5/10/12	Lot 8-A of the Pu'unoa Subdivision No. 2 being portions of Royal Patent 1174, Land Commission Award 352, Apana 6 to Serang Alias Lani and Grant 8664, Apana 2 to Pioneer Mill Co. situate at Kainehe, Lahaina, Maui Address: 1047 Front Street Purpose: County requirement for permit process	Akamai Land Surveying, Inc./ Paul D. Gossman	4-5-003:026

Shoreline Certifications and Rejections

The shoreline notices below have been proposed for certification or rejection by DLNR (HRS 205A-42 and HAR 13-222-26). Any person or agency who wants to appeal shall file a notice of appeal in writing with DLNR no later than 20 calendar days from the date of this public notice. Send the appeal to the Board of Land and Natural Resource, 1151 Punchbowl Street, Room 220, Honolulu, HI 96813.

File No.	Proposed/Rejected	Location	Applicant/Owner	TMK
OA-1485	Proposed Shoreline Certification	Lot 56 of Map 5 Land Court Application 1052 situate at Makaha, Wai'anae, O'ahu Address: 84-917 Farrington Highway Purpose: Building setback lines	Gil P. Bumanglag/ Richard L. and Juliette I. Hunter	8-4-005:001
KA-361	Proposed Shoreline Certification	Lot 2-C as shown on Map 10 of Land Court Application 956 situate at Koloa, Kona, Kaua'i Address: 2179 Ho'one Road Purpose: Determination of setback	Honua Engineering, Inc./ James Carl Hoselton	2-8-017:005
OA-1449	Rejection	Lot 57, Land Court Application 1052 and Lot 28, Portion R.P. 2243, L.C. Aw. 10613 Ap. 5 to A. Paki situate at Makaha, Waianae, Oahu Address: 84-905 Farrington Highway Purpose: Building permit	Walter P. Thompson, Inc./ Manuel Madeira	8-4-005:002
MA-488	Rejection	Papakea Beach Resort Lot 1-A Papakea Subdivision situate at Honokowai, Ka'anapali, Maui Address: 3543 Lower Honoapi'ilani Road Purpose: Renovation purposes	Arthur P. Valencia/ Papakea Resort AOA	4-4-001:055
MA-489	Rejection	Lot 54 of Land Court Application 1744 as shown on Map 19 "Whalers Village Shopping Complex" being a portion of Royal Patent 2567, Land Commission Award 7715, Apana 3 to Lota Kamehameha situate at Hanakao'o, Lahaina, Maui Address: 2435 Ka'anapali Parkway Purpose: Building and permitting purposes	Newcomer-Lee Land Surveyors, Inc./ WV Sub, LLC	4-4-008:001

CONSERVATION DISTRICT USE APPLICATIONS

Persons interested in commenting on the following Conservation District Use Applications or interested in receiving notification of determinations on Conservation District Use Applications must submit comments and requests to the Department of Land and Natural Resources. Notification requests must include the following information: 1) Name and address of the requestor; 2) The application for which the requestor would like to receive notice of determination; and 3) The date the notice was initially published in the Environmental Notice. Send comments and requests to: Department of Land and Natural Resources, Office of Conservation and Coastal Lands, P.O. Box 621, Honolulu, HI 96809. DLNR will make every effort to notify those interested in the subject CDUAs. However, DLNR is not obligated to notify any person not strictly complying with the above requirements. For more information, please contact the Office of Conservation and Coastal Lands (OCCL) staff listed for each project.

PROJECT:	Lateral Expansion of the Phase II Kekaha Landfill at Waimea, Kaua'i,
File No.:	CDUA KA-3625
Name of Applicant:	County of Kaua'i, Dept. of Public Works, Solid Waste Division
Location:	Waimea, Island of Kaua'i
TMK:	(4) 1-2-002:009 & (4) 1-2-002:001
Proposed Action:	Lateral Expansion of Phase II Kekaha Landfill
343, HRS Determination:	FEA was published in the OEQC, <i>Environmental Notice</i> on November 23, 2007
Applicant's Contact:	Julie Zimmerman, AECOM, Inc., (808) 356-5392
OCCL Staff Contact:	Alex J. Roy, (808) 587-0316

FEDERAL NOTICES

State of Hawai'i; Regional Haze Federal Implementation Plan

<http://www.gpo.gov/fdsys/pkg/FR-2012-05-11/pdf/2012-11426.pdf>

The United States Environmental Protection Agency (EPA) is announcing that public hearings will be held on May 31, 2012 and June 1, 2012 for the proposed rule, "State of Hawai'i; Regional Haze Federal Implementation Plan", which is posted on EPA's Web site as of May 16, 2012.

DATES: The public hearings will be held on May 31, 2012 and June 1, 2012.

Section 169A of the Clean Air Act (CAA) establishes as a national goal the "prevention of any future, and the remedying of any existing, impairment of visibility in mandatory Class I Federal areas which impairment results from manmade air pollution." Hawai'i has two Class I areas: Hawai'i Volcanoes National Park on the Big Island and Haleakala National Park on Maui.

Regional haze is visibility impairment caused by the cumulative air pollutant emissions from numerous sources over a wide geographic area. EPA's proposed Regional Haze Federal Implementation Plan (FIP) for Hawai'i will address the requirements of the CAA and EPA's regulations regarding regional haze. The proposed rule, "State of Hawai'i; Regional Haze Federal Implementation Plan", will be available by May 16, 2012 on the following Web site: <http://www.epa.gov/region9/air/actions/hawaii.html> and will subsequently be published in the **Federal Register**. The proposed rule and information on which the proposed rule relies will also be available in the docket for this action. Generally, documents in the docket for this action will be available electronically at www.regulations.gov and in hard copy at EPA Region IX, 75 Hawthorne Street San Francisco, California. While all documents in the docket are listed at www.regulations.gov, some information may be publicly available only at the hard copy location (e.g., copyrighted material, large maps), and some may not be publicly available in either location (e.g., CBI). To inspect the hard copy materials, please schedule an appointment during normal business hours with the contact listed below.

EPA will hold two public hearings at the following dates, times and locations to accept oral and written comments into the record:

Date: May 31, 2012.
Time: Open House: 5:30–6:30 p.m.
Public Hearing: 6:30–8:30 p.m.
Location: The University of Hawai'i, Maui College in the Pilina Multipurpose Room, 310 W. Ka'ahumanu Ave., Kahului, Hawai'i 96732

Date: June 1, 2012.
Time: Open House: 4:30–5:30 p.m.
Public Hearing: 5:30–7:30 p.m.
Location: Waiakea High School in the Cafeteria, 155 W. Kawili St., Hilo, Hawai'i 96720

To provide opportunities for questions and discussion, EPA will hold open houses prior to the public hearings. During these open houses, EPA staff will be available to informally answer questions on our proposed action and this supplemental proposed rule. Any comments made to EPA staff during the open houses must still be provided formally in writing or orally during a public hearing in order to be considered in the record. The public hearings will provide the public with an opportunity to present data, views, or arguments concerning the proposed Regional Haze FIP for Hawai'i. EPA may ask clarifying questions during the oral presentations, but will not respond to the presentations at that time. Written statements and supporting information submitted during the comment period will be considered with the same weight as any oral comments and supporting information presented at the public hearing. Please consult the proposed rule for guidance on how to submit written comments to EPA. At the public hearing, the hearing officer may limit the time available for each commenter to address the proposal to five minutes or less if the hearing officer determines it is appropriate. Any person may provide written or oral comments and data pertaining to our proposal at the public hearing. We will include verbatim transcripts, in English, of the hearing and written statements in the rulemaking docket. **For further information contact:** Gregory Nudd, EPA Region 9, 415–947–4107, nudd.gregory@epa.gov. If you are a person with a disability under the ADA and require a reasonable accommodation for this event, please contact Philip Kum at kum.philip@epa.gov or at (415) 947–3566 by May 16, 2012 (see, 77 F.R. 27671, May 11, 2012).

Public Listening Sessions and Science Workshops Related to a Petition To List 83 Species of Coral as Threatened or Endangered Under the Endangered Species Act (ESA)

<http://www.gpo.gov/fdsys/pkg/FR-2012-05-22/pdf/2012-12368.pdf>

The National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce announced in an April 17, 2012, **Federal Register** notice, public listening sessions and science workshops related to our status review of 82 coral species in response to a petition from the Center for Biological Diversity (CBD) to list 83 coral species as threatened or endangered under the Endangered Species Act (ESA). The purposes of the listening sessions are to explain to the public the process and information we are using to decide whether listing one or more of the 82 corals species is warranted, and to allow opportunity for the public to provide us with additional information that may further inform that decision. The purpose of the science workshops is to provide the opportunity for additional individual expert advice and public input on the science relevant to our decision concerning the 82 species of coral being considered for listing under the ESA.

Dates: The public listening sessions and science workshops will be held as listed below.

These public listening sessions and science workshops are not part of the usual rulemaking process and are unique to NMFS's response to the petition to list 83 coral species. Thus, the additional outreach conducted in this case does not establish precedent for any other ESA-listing process. We will hold one public listening session and one science workshop in each of two NMFS regions: the Southeast and Pacific Islands.

Speaker Sign Up: Doors will open for speaker registration one hour before the listening sessions and science workshops begin, though sign-up will continue throughout these meetings. If there are more speakers signed up than time allows for, we will select speakers from the registration list randomly. Registered speakers will be asked to indicate their full name, contact information, any organization(s) they are representing, and a brief summary of the information provided. Because it is possible that the schedule may not accommodate all registered speakers, we also encourage attendees to submit written information at the listening sessions and science workshops.

Listening Sessions:

June 25, 2012: 6–9 p.m.; Pagoda Hotel; 1525 Rycroft Street; Honolulu, Hawai'i; (808) 941–6611

June 28, 2012: 4–7 p.m.; Nova Southeastern University, Oceanographic Center, Center of Excellence in Coral, Reef Ecosystems Science, 8000 North Ocean Drive; Dania Beach, FL (954) 262–3600.

NMFS staff will provide a moderator for meeting management. Note-takers will document the listening sessions, and audio recordings will be used to assist in clarifying speaker information for the final record. NMFS staff will provide a brief PowerPoint presentation that will cover the ESA status review process, the Status Review Report, and the draft Management Report. There will then be an interactive, time-limited, question-and-answer period during which attendees may ask NMFS staff about information presented. Finally, registered speakers will be provided with an opportunity to speak and provide information. Each registered speaker will be limited to 5 minutes.

Attendees may also submit written information.

Science Workshops

June 18, 2012: 8:30 a.m. - 4:30 p.m.; East-West Center; Jefferson Hall (Imin Conference Center), University of Hawai'i campus, 1601 East-West Road, Honolulu, Hawai'i; (808) 983–5303.

June 27, 2012: 8:30 a.m.- 5:30 p.m.; Nova Southeastern University, Oceanographic Center, Center of Excellence in Coral Reef Ecosystems Science, 8000 North Ocean Drive, Dania Beach, FL; (954) 262–3600.

Science Workshop Topics: The science workshops in the Pacific Islands (HI) and Southeast (FL) regions will follow a similar format. Each will begin with a brief presentation on the Status Review Report, followed by sessions that expand specific elements of the Status Review Report. The science workshops will focus on two themes: "Climate Change and Climate Impacts on Coral Reef Ecosystems," and "Coral Reef Ecology and Adaptation." The Pacific Islands science workshop will include two Panel sessions, and the Southeast science workshop will include three sessions.

Speaker Time Limits and Opportunities for Public Input: After the presentation on the Status Review Report, there will be an interactive, time-limited, question-and-answer period during which attendees may ask NMFS staff about information presented. After each thematic session, there will be a 45- to 60-minute period during which registered speakers will be given an opportunity to ask additional questions of the panelists or to present additional information. During registration, speakers should sign up to speak under one or more thematic sessions. Each registered speaker will be limited to 5 minutes. Attendees may also submit written information.

Questions: Questions to panelists should be limited to those necessary to clarify the panelist's presentation. Questions seeking consensus among panelists or registered speakers will not be entertained.

Workshop Rapporteur: NOAA scientific experts knowledgeable of coral reef ecosystems and climate will prepare a summary of the workshop, noting the main points raised by the panelists and the registered speakers. This summary and any written information submitted by the panelists, registered speakers, or other attendees will be part of the record of the workshop.

You may obtain a copy of the Status Review Report of 82 Candidate Coral Species Petitioned Under the U.S. Endangered Species Act (Status Review Report) and the draft Management Report for 82 Corals Status Review under the Endangered Species Act: Assessment of Existing Regulatory Mechanisms and Conservation Efforts (draft Management Report) by visiting the Internet at:

http://www.nmfs.noaa.gov/stories/2012/04/4_13_12coral_petition.html. The two reports may also be viewed, by appointment, during regular business hours, at: NMFS, Pacific Islands Regional Office, 1601 Kapi'olani Boulevard, Suite 1110, Honolulu, Hawai'i, 96814; or NMFS, Southeast Regional Office, 263 13th Avenue South, St. Petersburg, FL 33701.

FOR FURTHER INFORMATION CONTACT: For listening sessions: Chelsey Young, NMFS, Pacific Islands Regional Office, 808–944–2137; Lance Smith, NMFS, Pacific Island Regional Office, 808 944 2258; Jennifer Moore, NMFS, Southeast Regional Office, 727 824 5312. For science workshops: Samuel Pooley, NMFS, Pacific Islands Fisheries Science Center, 808–983–5301; Margaret Miller, NMFS, Southeast Fisheries Science Center, 305 361 4561 (see, 77 F.R. 30261, May 22, 2012).

GLOSSARY

Agency Actions

Any department, office, board, or commission of the state or county government which is part of the executive branch of that government per [HRS 343-2](#).

Applicant Actions

Any person who, pursuant to statute, ordinance, or rule, requests approval for a proposed action per [HRS 343-2](#).

Draft Environmental Assessment

When an Agency or Applicant proposes an action that [triggers](#) HRS 343, an Environmental Assessment shall be prepared at the earliest practicable time to determine whether an environmental impact statement shall be required per [HRS 343-5\(b\)](#), for Agency actions and [HRS 343-5\(c\)](#), for Applicant actions. For environmental assessments for which a Finding of No Significant Impact is anticipated, a Draft EA (DEA) shall be made available for public review and comment for 30 days and public notice is published in this periodic bulletin per (HRS 343-3), also known as The Environmental Notice.

Final Environmental Assessment and Finding of No Significant Impact

The Agency shall respond in writing to comments received during the review and prepare a Final EA (FEA) to determine whether an environmental impact statement shall be required. The FEA must respond to all public comments. If there are no significant impacts, then the Agency will issue a Finding of No Significant Impact (FONSI). An Environmental Impact Statement will not be required and the project may then be implemented. The public has 30 days from the notice of a FONSI in this bulletin to ask a court to require the preparation of an EIS.

Final Environmental Assessment and Environmental Impact Statement Preparation Notice

An EIS shall be required if the Agency finds that the proposed action may have a significant effect on the environment. The Agency shall file notice of such determination with OEQC, called an EIS Preparation Notice (EISPN). After the notice of the EISPN is published in this bulletin, the public has 30 days to request to become a consulted party and make written comments. The public (including the Applicant) has 60 days from the notice of the EISPN in this bulletin to ask a court to not require the preparation of an EIS.

Draft Environmental Impact Statement

After receiving the comments on the EISPN, the Agency or Applicant must prepare a Draft Environmental Impact Statement (DEIS). The [content requirements](#) of the DEIS shall contain an explanation of the environmental consequences of the proposed action including the direct, indirect and cumulative impacts and their mitigative measures. The public has 45 days from the first publication date in this bulletin to comment on a DEIS. The DEIS must respond to comments received during the EISPN comment period in a point-by-point manner.

Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the Agency or Applicant must prepare a [Final EIS](#) (FEIS). The FEIS must respond in a point-by-point manner to all comments from the draft and must be included in the FEIS. See here for [style](#) concerns. For Applicant projects, the Approving Agency is authorized to accept the FEIS. For an Agency project, the Governor or the Mayor (or their designated representative) is the Accepting Authority. Only after the FEIS is accepted may the project be implemented.

Acceptability

If the FEIS is [accepted](#), notice of this action is published in this bulletin. The public has 60 days from the date of notice of acceptance to ask a court to vacate the acceptance of a FEIS. For Applicant actions, the Approving Agency must make a determination on acceptance within 30 days of receipt of the FEIS or the FEIS is deemed accepted. For Applicant actions, the law provides for an administrative appeal of a non-acceptance to the Environmental Council.

National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare an EA or EIS. In many ways it is similar to Hawaii's law. Some projects require both a State and Federal EIS and the public comment procedure should be [coordinated](#). OEQC publishes NEPA notices in this bulletin to help keep the public informed of important federal actions.

Conservation District

Any use of land in the State Conservation District requires a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources. Members of the public may intervene in the permit process. Notice of permit applications are published in this bulletin.

Special Management Area and Shoreline Setback Area

The Special Management Area (SMA) is along the coastline of all islands and development in this area is generally regulated by [HRS 205A](#), and county ordinance. A special subset of the SMA that is regulated by HRS 343, is the [Shoreline Setback Area](#). Most development in this area requires a Special Management Permit. This bulletin posts notice of these SMA applications to encourage public input.

Shoreline Certifications

State law requires that Hawaii shorelines be surveyed and certified when necessary to clearly establish the shoreline setback from the certified shoreline. The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This bulletin publishes notice from the Department of Land and Natural Resources of shoreline certification applicants and final certifications or rejections.

Environmental Council

The [Environmental Council](#) is a 15-member citizen board appointed by the Governor. They serve as a liaison between the Director of OEQC and the general public concerning ecology and environmental quality. The Council makes the rules that govern the Environmental Impact Statement process (HRS 343). [Agendas](#) of their regular meetings are posted on the Internet and the public is invited to attend.

Exemption Lists

Government agencies must keep a list describing the minor activities they regularly perform that are [exempt](#) from the environmental review process. These lists and any amendments shall be submitted to the Council for review and concurrence ([HAR 11-200-8\(d\)](#)). This bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

Endangered Species

This bulletin is required by [HRS 343-3\(c\)](#), to publish notice of public comment periods or public hearings for Habitat Conservation Plans (HCP), Safe Harbor Agreements (SHA), or Incidental Take Licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).
